Selfimages 100 Women:

Korean Women, Self-Esteem, and Practical Theology Jaeyeon Lucy Chung, 2017-11-07 This book offers a critical constructive study of Korean women's self esteem from a feminist practical theological perspective Jaeyeon Lucy Chung recognizes two different and yet related problems the absence of scholarly work on women's self esteem from non white non Western groups in the field of practical theology and the lack of attention to the low self esteem prevalent in Korean women's sociocultural and religious context Chung employs in depth interview studies while drawing on theoretical resources of psychology theology and cultural studies to develop a relational communal theory of self esteem and a systematic communal understanding of pastoral care practice The project offers insights into the life experience of Korean women especially self esteem and it reveals some of the ways self esteem can be fostered

Self-images André Rival, Klaus Honnert, 1995 Andre Rival at home in both Paris and Berlin has created a fascinating project out of a relatively simple idea 100 women taking photographs of themselves The outcome is both startling and impressive It is an expression of contemporary female identity self aware distinctive and thoroughly positive in a series of nude photographs that inexorably capture and hold our attention revealing at the same time the artist's highly creative approach to the medium of photography and to the individual selves of the women portrayed The author describes his project in this way We are inundated with pictures of women in the media Ordinarily the pictures we see seek to achieve a kind of sameness based on unwritten ideals of beauty physical perfection total fitness become the determining factors These images of women provoked as they are by the media industry awakened in me the urge to confront both that industry and myself with something else I chose to set aside my own ways of thinking and do a series of 100 women in which it was not I who would put together the photographs but the women themselves For this purpose I gave them each a shutter switch and left the room That represented the beginning of the attempt to enable the women to become photographic subjects rather than objects they were left to decide on their own which personal image of themselves they wanted to convey The conditions were the same for all of the women the same lighting the same white background and the same unchanged camera position It was essential to fix the location of the camera so that the women did not perceive themselves as being pursued by an observer instead they were able to establish distance and camera angle themselves with the aid of a video screen that showed them each camera exposure as a still photo *The Advocate*, 1995-04-18 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States

Extending Self-Esteem Theory and Research Timothy J. Owens, Sheldon Stryker, Norman Goodman, 2006-11-02 Self esteem is an academic and popular phenomenon vigorously researched and debated sometimes imbued with magical qualities other times vilified as the bane of the West's preoccupation with self Though thousands of articles have been devoted to the topic and bookshops work to feed the public's appetite for advice on revealing enhancing and maintaining self esteem conflicting claims and findings have placed the field

in disarray In a very real sense self esteem is a victim of its own popularity This book seeks to add clarity to a concept earlier examined by such notable self theorists as Morris Rosenberg but eminently worthy of re examination and extension We do this by asking some leading thinkers on self esteem theory measurement and application to assess what we know about self esteem and link it to important aspects of society and the human experience **Fetishes** Grand Street,1995 **Trauma and Self** Charles B. Strozier,Michael Flynn,1996 This remarkable collection of original essays written by prominent scholars recognized for their achievements in a wide range of disciplines defines trauma as a disruption in the fragile process of symbolization or the human capacity to imbue life with meaning by representing the self s immortality The contributors analyze the multiple meanings and deeper significance of trauma whether of shell shocked war veterans or victims of sexual abuse and they discuss its manifestations both subtle and obvious in human behavior and memory Organized as an honorary volume to Robert Jay Lifton who identified trauma as the core psychological issue of the postmodern world this book demonstrates how trauma and other fundamental breaks in human continuity inform psychiatric historical religious literary political cultural and scientific interpretations of the self *Self-Esteem* Ian Miller,2024-02-07 By the end of the twentieth century the idea of self esteem had become enormously influential A staggering amount of psychological research and self help literature was being published and before long devoured by readers Self esteem initiatives permeated American schools Self esteem became the way of understanding ourselves our personalities our interactions with others Nowadays however few people think much about the concept of self esteem but perhaps we should Self Esteem An American History is the first historical study to explore the emotional politics of self esteem in modern America Written with verve and insight Ian Miller s expert analysis looks at the critiques of self help that accuse it of propping up conservative agendas by encouraging us to look solely inside ourselves to resolve life s problems At the same time he reveals how African American LGBTQ and feminist activists have endeavored to build positive collective identities based on self esteem pride and self respect This revelatory book will be essential reading for anyone with an interest in the history of mental health and well being and in how the politics of self esteem is played out in today s US society and culture **Images and Self-images** Daisy Hilse Dwyer,1978 Daisy Dwyer s principal theme is that belief systems concerning sexuality and male female relations are systematically linked with the distribution of power and authority between the sexes in different cultural situations The relations between belief systems and authority varies according to whether men and women share essentially the same ideology concerning sex roles and sexuality e g dominant males subordinate females as they do in some settings or whether their ideologies significantly contrast p 165 169 Because of the potential for ideological variation between the sexes in a given culture Dwyer argues that belief systems concerning sexuality are often more complicated than they have often been assumed to be by theorists who presume that sexual ideologies can be reduced to simplistic formulae such as woman is to man as nature is to culture p 5 Dwyer s study is based upon Taroudannt a southern Moroccan town in which she conducted field research around 1970 the

exact period of research is unspecified but textual references are made to 1970 events She argues that the Taroudannt ideology provides an instance of men and women sharing a belief in female inferiority and subordination although both acknowledge that the dominant characteristics of the two sexes significantly overlap p 51 Dwyer provides normative descriptions of how sex roles are inculcated and come to be accepted and also of the shared normative expectations of men and women at different stages in their life cycles She rightly insists upon dispensing with Western stereotypes concerning Arab Muslim sexuality and upon emphasizing the temporal and historical dimension of sexual ideologies From <https://www.jstor.org> Sep 15 2015

Female Spectacle Susan A. Glenn, 2009-07-01 When the French actress Sarah Bernhardt made her first American tour in 1880 the term feminism had not yet entered our national vocabulary But over the course of the next half century a rising generation of daring actresses and comics brought a new kind of woman to center stage Exploring and exploiting modern fantasies and fears about female roles and gender identity these performers eschewed theatrical convention and traditional notions of womanly modesty They created powerful images of themselves as ambitious independent and sexually expressive New Women Female Spectacle reveals the theater to have been a powerful new source of cultural authority and visibility for women Ironically theater also provided an arena in which producers and audiences projected the uncertainties and hostilities that accompanied changing gender relations From Bernhardt s modern methods of self promotion to Emma Goldman s political theatrics from the female mimics and Salome dancers to the upwardly striving chorus girl Glenn shows us how and why theater mattered to women
