Middle Grounds Studies In Contemporary American Fiction:

Middle Grounds Alan Wilde, 1987-11-29 Alan Wilde identifies and defends what he calls midfiction which rejects both the extremes of realism and experimental self reflexive fiction He offers as examples the best works of Apple Berger Barthelme Pynchon and Paley *Designs of Darkness in Contemporary American Fiction* Arthur M. Saltzman, 2016-11-11 In *Designs of Darkness* Arthur M Saltzman examines some of the ways in which fiction has traditionally conspired to promote a goal oriented vision of the work of art and explores the ways in which postmodern or postrealist fiction consistently and unavoidably subverts the clarity of this vision Offering readings of works by well known authors including Barthelme Doctorow DeLillo and Hakes as well as works by lesser known writers Auster Gangemi Saltzman concentrates on the breakdown of epiphany in recent fiction both as philosophical motive and as structural foundation In contemporary fiction Saltzman contends ambiguities blossom far beyond our capacities to stabilize summarize or restore them to sense The old rules of the game in which a reader looking for truth can expect some sort of satisfactory resolution no longer apply Literature now comes out of the answerless *Designs of Darkness in Contemporary American Fiction* is a valuable new resource for scholars and students of contemporary literature The Methuen Drama Guide to Contemporary American Playwrights Christopher Innes, Peter Paul Schnierer, Martin Middeke, Matthew C. Roudané, 2013-12-19 Unrivalled in its coverage of recent work and writers The Methuen Drama Guide to Contemporary American Playwrights surveys and analyses the breadth vitality and development of theatrical work to emerge from America over the last fifty years This authoritative guide leads you through the work of 25 major contemporary American playwrights discussing more than 140 plays in detail Written by a team of 25 eminent international scholars each chapter provides a biographical introduction to the playwright's work a survey and concise analysis of the writer's most important plays a discussion of their style dramaturgical concerns and critical reception a bibliography of published plays and a select list of critical works Among the many Tony Obie and Pulitzer prize winning playwrights included are Sam Shepard Tony Kushner Suzan Lori Parks August Wilson Paula Vogel and Neil LaBute The abundance of work analysed enables fresh illuminating conclusions to be drawn about the development of contemporary American playwriting **Aggressive Fictions** Kathryn Hume, 2012-01-15 A frequent complaint against contemporary American fiction is that too often it puts off readers in ways they find difficult to fathom Books such as Bret Easton Ellis's *American Psycho* Katherine Dunn's *Geek Love* and Don DeLillo's *Underworld* seem determined to upset disgust or annoy their readers or to disorient them by shunning traditional plot patterns and character development Kathryn Hume calls such works aggressive fiction Why would authors risk alienating their readers and why should readers persevere Looking beyond the theory based justifications that critics often provide for such fiction Hume offers a commonsense guide for the average reader who wants to better understand and appreciate books that might otherwise seem difficult to enjoy In her reliable and sympathetic guide Hume considers roughly forty works of recent American fiction including books by

William Burroughs Kathy Acker Chuck Palahniuk and Cormac McCarthy Hume gathers attacks on the reader into categories based on narrative structure and content Writers of some aggressive fictions may wish to frustrate easy interpretation or criticism Others may try to induce certain responses in readers Extreme content deployed as a tactic for distancing and alienating can actually produce a contradictory effect for readers who learn to relax and go with the flow the result may well be exhilaration rather than revulsion

American Fiction In Perspective Contemporary Essays Ed. Satish K. Gupta, 1997 The Book Contains Well Researched Articles By Scholars From Indian Universities The Articles Offer A Comprehensive View Of What American Fiction Has Been Like During The Last Hundred Years Or So American Culture Society Family Cities Of Blacks And Whites Have Been Variouslly Framed Into The Narrative Art Form By A Galaxy Of Talented American Novelists Mark Twain Henry James Theodore Dreiser Faulkner Hemingway Saul Bellow Salinger Norman Mailer John Barth Thomas Pynchon Ernest J Gaines Among Others The Editor Has Adopted A Chronological Approach And The Emphasis In Articles Has Fallen Upon Providing A Synoptic View Of American Fiction Rather Than Giving A Historical Account Of It The Approaches Covered Here Are Multi Disciplinary As Well As Intertextual The Reader Teacher And Scholar Should Find The Book Full Of Fresh Insights

Fictions of Authority Susan Sniader Lanser, 1992 Annotation Writing from positions of cultural exclusion women have faced constraints not only upon the content of fiction but upon the act of narration itself Narrative voice thus becomes a matter not simply of technique but of social authority how to speak publicly to whom and in whose name Susan Sniader Lanser here explores patterns of narration in a wide range of novels by women of England France and the United States from the 1740s to the present Drawing upon narratological and feminist theory Lanser sheds new light on the history of voice as a narrative strategy and as a means of attaining social power

Comic Sense Thomas Pughe, 2013-03-09 The idea for this study came to me in the course of my reading of innovative US American fiction of the last three decades I observed that much of it is cast in the comic mode or more precisely that there seems to be in contemporary fiction an affinity between innovation and the comic and that this affinity furthermore appears to be characteristic of postmodernism It is obvious at the same time that comic has become an elusive and more often than not a disputable category Frederick Karl in his survey of American Fictions 1940-1980 maintains for instance that much comic writing consists in ridicule that lacks deeper intellectual and cultural roots Wit and mockery he notes by themselves have little lasting value Even in the best of such fiction Gravity's Rainbow one is made aware of attenuated skits stitched onto previous segments rather than baked in by a defined point of view Karl 27 Such assessments of course challenge my view that the comic is in significant ways connected with what is innovative in postmodernist US American fiction Yet the term comic or related terms like humour parody irony and so forth is regularly and heavily employed in discussions or reviews of contemporary fiction

Postmodern Counternarratives Christopher Donovan, 2005-02-10 This book provides a wide ranging discussion of realism postmodernism literary theory and popular fiction before focusing on the careers of four prominent novelists Despite wildly

contrasting ambitions and agendas all four grow progressively more sympathetic to the expectations of a mainstream literary audience noting the increasingly neglected yet archetypal need for strong explanatory narrative even while remaining wary of its limitations presumptions and potential abuses Exploring novels that manage to bridge the gap between accessible storytelling and literary theory this book shows how contemporary authors reconcile values of postmodern literary experimentation and traditional realism Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk,1993-01-01

The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture **American Culture in the 1980s** Graham

Thompson,2007-03-13 This book looks beyond the common label of Ronald Reagan s America to chart the complex intersection of cultures in the 1980s In doing so it provides an insightful account of the major cultural forms of 1980s America literature and drama film and television music and performance art and photography and influential texts and trends of the decade from White Noise to Wall Street from Silicon Valley to MTV and from Madonna to Cindy Sherman A focused chapter considers the changing dynamics of American culture in an increasingly globalised marketplace Facing Texts Heide Ziegler,2013-07-22 This selection of fiction by many of America s best writers each coupled with a distinguished critic s response is designed to defy the chronological secondariness of critical interpretation During the creation of this book the majority of the contributions chosen by the writers themselves were as yet unpublished providing an unmediated encounter between author and critic Every reader extends what editors authors and critics have begun by adding to the imaginary space in which all texts may be woven together This process serves as metaphor for the changing nature of any latter day encounter with one s own literary tradition The interfacing of texts not only illuminates the fiction and the relationship of fiction to critics but also informs our conceptions of text criticism and fiction itself *Narrative Innovation and Cultural*

Rewriting in the Cold War Era and After M. Cornis-Pope, 2016-04-30 Narrative Innovation and Cultural Rewriting undertakes a systematic study of postmodernism's responses to the polarized ideologies of the postwar period that have held cultures hostage to a confrontation between rival ideologies abroad and a clash between champions of uniformity and disruptive others at home. Considering a broad range of narrative projects and approaches from polysystemic fiction to surfiction, postmodern feminism and multicultural postcolonial fiction, this book highlights their solutions to ontological division, real vs. imaginary, wordly and otherworldly, sociocultural oppositions of race, class, gender, and narratological dualities, imitation vs. invention, realism vs. formalism. A thorough rereading of the best experimental work published in the US since the mid 1960s reveals the fact that innovative fiction has been from the beginning concerned with redefining the relationship between history and fiction, narrative and cultural articulation. Stepping back from traditional polarizations, innovative novelists have tried to envision an alternative history of irreducible particularities, excluded middles, and creative intercrossings. The Cambridge Companion to Modern American Culture Christopher Bigsby, 2006-10-12 The Cambridge Companion to Modern American Culture offers a comprehensive, authoritative, and accessible overview of the cultural themes and intellectual issues that drive the dominant culture of the twentieth century. This companion explores the social, political, and economic forces that have made America what it is today. It shows how these contexts impact upon twentieth-century American literature, cinema, and art. An international team of contributors examines the special contribution of African Americans and of immigrant communities to the variety and vibrancy of modern America. The essays range from art to politics, popular culture to sport, immigration and race to religion and war. Varied, extensive, and challenging, this Companion is essential reading for students and teachers of American studies around the world. It is the most accessible and useful introduction available to an exciting range of topics in modern American culture. **A Companion to David Foster Wallace Studies** M. Boswell, S. Burn, 2013-03-20 Criticism of the work of David Foster Wallace has tended to be atomistic, focusing on a single aspect of individual works. A Companion to the Work of David Foster Wallace is designed as a professional study of all of Wallace's creative work. This volume includes both thematic essays and focused examinations of each of his major works of fiction.

Considering Watchmen: Poetics, Property, Politics Andrew Hoberk, 2017-05-31 Alan Moore and Dave Gibbons's *Watchmen* has been widely hailed as a landmark in the development of the graphic novel. It was not only aesthetically groundbreaking but also anticipated future developments in politics, literature, and intellectual property. Demonstrating a keen eye for historical detail, *Considering Watchmen* gives readers a new appreciation of just how radical Moore and Gibbons's blend of gritty realism and formal experimentation was back in 1986. The book also considers *Watchmen*'s place in the history of the comics industry, reading the graphic novel's playful critique of superhero marketing alongside Alan Moore's public statements about the rights to the franchise. Andrew Hoberk examines how Moore and Gibbons engaged with the emerging discourses of neoconservatism and neoliberal capitalism, ideologies that have only become more prominent in

subsequent years Watchmen's influences on the superhero comic and graphic novel are undeniable but Hoberek reveals how it has also had profound effects on literature as a whole. He suggests that Watchmen not only proved that superhero comics could rise to the status of literature it also helped to inspire a generation of writers who are redefining the boundaries of the literary from Jonathan Lethem to Junot Díaz. Hoberek delivers insight and analysis worthy of satisfying serious readers of the genre while shedding new light on Watchmen as both an artistic accomplishment and a book of ideas.

The Realist Short Story of the Powerful Glimpse Kerry McSweeney, 2007. An aesthetic perspective on the short fiction of Chekhov, Joyce, Hemingway, O'Connor, and Carver. Taking a distinctively aesthetic approach to the genre of realist short fiction, Kerry McSweeney clusters the work of five masters: Anton Chekhov, James Joyce, Ernest Hemingway, Flannery O'Connor, and Raymond Carver, to offer a poetics of the form for students and scholars. At the center of this argument is the notion that the realist short story is a glimpse, powerful and tightly focused, into a world that the writer must precisely craft and in which the reader must fully invest. Selecting writers from different generational, national, and cultural backgrounds, McSweeney chooses writers based on their commitment to the realist representation of experience and their shared belief in the importance and efficacy of the short story form. By considering their efforts in tandem, he develops a means to assess the strategies and claims of realist short fiction. McSweeney demonstrates that when the comments these writers have made about their work are assembled and critically scrutinized, the result is an aesthetic critical model, as opposed to more interpretative models that focus attention on the determination or indeterminacy of meanings. He suggests that a fully adequate reading of a realist short story involves the integration of three components: the enjoyment and contemplation of the story in and of itself; affective receptivity or a response to the story's emotional content; and cognitive activity or the reflective consideration of the story's conceptual implications. In individual chapters on Chekhov, Joyce, Hemingway, O'Connor, and Carver, this presentational model is applied to widely known and often anthologized readings from each writer. McSweeney brings into sharp focus the distinctive features of each piece, makes qualitative discriminations, and assesses the profitability of other critical models. He concludes with an invitation to test the mettle of his approach in reading other realist short story writers.

Violence and Mediation in Contemporary Culture Ronald Bogue, Marcel Cornis-Pope, 1995-11-30. Two major issues in contemporary culture are explored in this book: the problem of violence in relation to the much debated notions of difference, representation, and power; and the corresponding question of the role of mediation in providing communal space for a nonconflictive play of cultural differences. Focusing on topics as diverse as the semiotics of windows, TV screens, gender relations in contemporary film, the image of Mormons in popular literature, and the dynamics of representation in the fiction of Kafka, Lu Xun, Conrad, Aiken, Toni Morrison, and Ronald Sukenick, this book examines the dynamics of violence and mediation from a number of perspectives: literary, philosophical, anthropological, psychological, and sociological. Contributors discuss the legitimation and regulation of violence within the social institutions of law, the systemic violence of commodity exchange within late capitalist

societies the compensatory mechanisms of sacrificial victimage that mediate social disequilibrium and the function of representation itself as contemporary culture's prevailing mode of mediating violence. A number of essays envision forms of mediation based on alternatives to an agonistic cultural ethos suggesting however that mediation has its conceptual and pragmatic limitations serving all too often as a way of conducting violence by other means. Contributors include Elisabeth Bronfen, Stanley Corngold, Susan Derwin, Terryl Givens, Jerry Herron, Albert Liu, Tonglin Lu, and Mihai Spăriș.

Postmodern Plagiarisms Mirjam Horn, 2015-07-01 This monograph takes on the question of how literary plagiarism is defined, exposed, and sanctioned in Western culture and how appropriating language assigned to another author can be considered a radical subversive act in postmodern US American literature. While various forms of art such as music, painting, or theater have come to institutionalize appropriation as a valid mode to ventilate what authorship, originality, and the anxiety of influence may mean, the literary sphere still has a hard time acknowledging the unmarked acquisition of words, ideas, and manuscripts. The author shows how postmodern plagiarism in particular serves as a literary strategy of appropriation at the interface between literary economics, law, and theoretical discourses of literature. She investigates the complex expectations surrounding the strong link between an individual author/subject and its alienable text, a link that several postmodern writers powerfully question and violate. Identifying three distinct practices of postmodern plagiarism, the book examines their specific situatedness, precepts, and subversive potential as litmus tests for the literary market and the ongoing dynamic notion of the concepts authorship, originality, and creativity.

Posthuman Suffering and the Technological Embrace Anthony Miccoli, 2010-01-01 Posthuman Suffering investigates the core assumptions of posthumanist discourse via philosophy, cultural studies, psychoanalytic theory, and close textual and filmic readings of Thomas Pynchon's *The Crying of Lot 49*, Don DeLillo's *White Noise*, and Steven Spielberg's film *AI: Artificial Intelligence*, bringing the more ontological and epistemological implications of posthumanism to the forefront. In the age of technology, our own limitations are legitimized as unique to the human condition.

Engagement and Indifference Henry Sussman, Christopher Devenney, 2001-01-01 Explores the hidden political and ethical dimensions of the work of Samuel Beckett, an author who might otherwise be considered indifferent to such considerations.
