Nunneries And The Anglo Saxon Royal Houses:

Nunneries and the Anglo-Saxon Royal Houses Barbara Yorke, 2003-06-16 By the late Anglo Saxon period almost all newly founded nunneries were founded by royal patronage This detailed study which traces the histories of royal nunneries in the 7th and 8th centuries examines how they differed from other types of religious communities in terms of their organisation status special secular and ecclesiastical features and the authority and power which the abbess and other women held Barbara Yorke reveals how the royal nunneries were not only subject to the changing fortunes of the Church and state but also to the successes and failures of the royal houses that patronised them This particular group of nunneries is also compared and contrasted with the variety of other arrangements available to religious women both within and outside of convents and male religious establishments and with gender and societal norms

The Cartulary of Chatteris Abbey Chatteris Abbey, 1999 Takes its place as perhaps the finest available study of a house for women religious

ENGLISH HISTORICAL REVIEW The fifteenth century cartulary of the Benedictine nunnery of Chatteris Abbey in Cambridgeshire founded in the early eleventh century has important implications for the study of women religious especially in the light of the small number of surviving cartularies from English nunneries yet until now it has received little attention perhaps due to its damage in the Cotton Library fire of 1731 This critical edition of the manuscript which contains documents copied into it from the mid twelfth to the fifteenth centuries offers a full transcription together with historical notes and apparatus The introduction draws on the cartulary itself as well as manorial and episcopal records to analyse the nunnery's relationship with its patron the bishop of Ely and the development and management of its estates it also examines the location and layout of the abbey the social and geographical origins of the nuns and the production and organisation of the cartulary The edition is accompanied by an annotated list of all known abbesses prioresses and nuns

world in general and on Charlemagne's reign in particular A Companion to Boniface Michel Aaij, Shannon Godlove, 2020-06-15 The eighth century English missionary and church reformer Boniface was a highly influential figure in early medieval Europe. His career in what is now Germany, France and the Netherlands is attested in an exceptional number of textual sources: a correspondence of 150 letters, Latin poetry, church council records and other documents. Numerous saints' lives and modern devotional materials further reveal how he was and is remembered by the religious communities that claim him as a foundational figure. This volume comprises the latest scholarship on Boniface and his fellow missionaries, examining the written materials associated with Boniface, his impacts on the regions of Europe where he worked: Hesse, Thuringia, Bavaria, Frisia and Francia, and the development of his cult in the Middle Ages and today. Contributors: Michel Aaij, John Henry Clay, Michael Glatthaar, Shannon Godlove, Leanne Good, Petra Kehl, Felice Lifshitz, Rob Meens, Michael Edward Moore, Marco Mostert, James Palmer, Janneke Raaijmakers, Rudolf Schieffer, Emily Thornbury, Siegfried Weichlein and Barbara Yorke.

Holiness and Masculinity in the Middle Ages P. H. Cullum, Katherine J. Lewis, 2005-01-01 Studies in gender in medieval culture have tended to focus on femininity; however, the study of medieval masculinities has developed greatly over the last few years. *Holiness and Masculinity in the Middle Ages* is the first volume to concentrate on this specific aspect of medieval gender studies and looks at the ways in which varieties of medieval masculinity intersected with concepts of holiness. Patricia Cullum and Katherine J. Lewis have collected an exceptional group of essays that explore differing notions of medieval holiness, understood variously as religious, saintly, sacred, pure, morally perfect, and consider topics such as the significance of the tonsure, sanctity and martyrdom, eunuch saints and the writings of Henry Suso. *Holiness and Masculinity in the Middle Ages* deals with a wide variety of texts and historical contexts from Byzantium to Anglo-Saxon and late medieval England. *Gender in the Early Medieval World* Leslie Brubaker, Julia M. H. Smith, 2004-11-11 Publisher Description

Early English Queens, 650-850 Stefany Wragg, 2022-06-07 This book offers the first dedicated and comprehensive examination of the lives of nearly thirty women known to occupy the office of queen in the English kingdoms between 650 and 850. The queens of early England are often shadowy figures in the historical record, beset by numerous issues which have largely confined them to the margins of history. Through careful analysis, the volume presents a ground-breaking appraisal of the role of queens in early England and how their actions and identities shaped their practice of queenship. Organised thematically, it offers an overview of queens in many different roles, such as agents of Christianity, mothers and peace weavers. From high-profile queens such as Thelthryth of Ely and Cynethryth of Mercia to the shadowy Leofrun of East Anglia and the nameless queen of Anna of East Anglia, the book engages with sources to advance fuller narratives about even the most obscure queens of the era. Aided by resources such as genealogical tables, *Early English Queens 650-850* is an ideal resource for students and scholars at all levels, as well as general readers interested in the lives of queens and early English history.
