Nuremberg Infamy On Trial

Albert A Gayle

Nuremberg Infamy On Trial:

Nuremberg Joseph E. Persico, 1995 Published to coincide with the 50th anniversary of the beginning of the Nuremberg trials and drawing upon hitherto unseen first hand accounts and prison documents a re creation of the trials providing character portraits of the 21 Nazi leaders on trial and insights into the motives and political agendas of those who sought to condemn them Atrocities on Trial Patricia Heberer, Jürgen Matthies, 2008-04-01 These essays are organised into four sections dealing with the history of war crime trials from Weimar Germany to just after World War II the sometimes diverging Allied attempts to come to terms with the Nazi concentration camp system the ability of postwar societies to confront war crimes of the past and the legacy of war crime trials **The Betrayal** Kim Christian Priemel, 2018-05-17 At the end of World War II the Allies faced a threefold challenge how to punish perpetrators of appalling crimes for which the categories of genocide and crimes against humanity had to be coined how to explain that these had been committed by Germany of all nations and how to reform Germans The Allied answer to this conundrum was the application of historical reasoning to legal procedure In the thirteen Nuremberg trials held between 1945 and 1949 and in corresponding cases elsewhere a concerted effort was made to punish key perpetrators while at the same time providing a complex analysis of the Nazi state and German history Building on a long debate about Germany's divergence from a presumed Western path of development Allied prosecutors sketched a historical trajectory which had led Germany to betray the Western model Historical reasoning both accounted for the moral breakdown of a civilised nation and rendered plausible arguments that this had indeed been a collective failure rather than one of a small criminal clique The prosecutors therefore carefully laid out how institutions such as private enterprise academic science the military or bureaucracy which looked ostensibly similar to their opposite numbers in the Allied nations had been corrupted in Germany even before Hitler's rise to power While the argument depending on individual protagonists subject matters and contexts met with uneven success in court it offered a final twist which was of obvious appeal in the Cold War to come if Germany had lost its way it could still be brought back into the Western fold The first comprehensive study of the Nuremberg trials **The Betrayal** thus also explores how history underpins transitional trials as we encounter them in today's courtrooms from Arusha to The Hague **The Nuremberg Military Tribunals and the Origins of International Criminal Law** Kevin Jon Heller, 2012-10-11 This book provides the first comprehensive legal analysis of the twelve war crimes trials held in the American zone of occupation between 1946 and 1949 collectively known as the Nuremberg Military Tribunals NMTs The judgments the NMTs produced have played a critical role in the development of international criminal law particularly in terms of how courts currently understand war crimes crimes against humanity and the crime of aggression The trials are also of tremendous historical importance because they provide a far more comprehensive picture of Nazi atrocities than their more famous predecessor the International Military Tribunal at Nuremberg IMT The IMT focused exclusively on the major war criminals the Goerings the Hesses the

Speers The NMTs by contrast prosecuted doctors lawyers judges industrialists bankers the private citizens and lower level functionaries whose willingness to take part in the destruction of millions of innocents manifested what Hannah Arendt famously called the banality of evil The book is divided into five sections The first section traces the evolution of the twelve NMT trials The second section discusses the law procedure and rules of evidence applied by the tribunals with a focus on the important differences between Law No 10 and the Nuremberg Charter The third section the heart of the book provides a systematic analysis of the tribunals jurisprudence It covers Law No 10 s core crimes crimes against peace war crimes and crimes against humanity as well as the crimes of conspiracy and membership in a criminal organization The fourth section then examines the modes of participation and defenses that the tribunals recognized The final section deals with sentencing the aftermath of the trials and their historical legacy

Stalin's Soviet Justice David M. Crowe, 2019-06-13 From the show trials of the 1920s and 1930s to the London Conference this book examines the Soviet role in the Nuremberg IMT trial through the prism of the ideas and practices of earlier Soviet legal history detailing the evolution of Stalin s ideas about the trial of Nazi war criminals Stalin believed that an international trial for Nazi war criminals was the best way to show the world the sacrifices his country had made to defeat Hitler and he together with his legal mouthpiece Andrei Vyshinsky maintained tight control over Soviet representatives during talks leading up to the creation of the Nuremberg IMT trial in 1945 and the trial itself But Soviet prosecutors at Nuremberg were unable to deal comfortably with the complexities of an open western style legal proceeding which undercut their effectiveness throughout the trial However they were able to present a significant body of evidence that underscored the brutal nature of Hitler s racial war in Russia from 1941 45 a theme which became central to Stalin s efforts to redefine international criminal law after the war Stalin s Soviet Justice provides a nuanced analysis of the Soviet justice system at a crucial turning point in European history and it will be vital reading for scholars and advanced students of the legal history of the Soviet Union the history of war crimes and the aftermath of the Second World War

The Frankfurt Auschwitz Trial, 1963-1965 Devin O. Pendas, 2006 Drawing on a wide range of archival sources this book provides a comprehensive history of the Frankfurt Auschwitz trial

The German Question and the Origins of the Cold War Nicolas Lewkowicz, 2008 The book analyses the role of the German Question in the origins of the Cold War The work evaluates the transformation which occurred in Germany and the post war international order due to the inter Allied work on denazification The author analyses the Rationalist aspects of superpower interaction with particular emphasis on the legal and diplomatic framework which sustained not only the treatment of the German Question but also the general context of inter Allied relations The author also tackles the conflictual aspects of the treatment of the German Question by examining superpower interaction in relation to the enforcement of their structural interests The main argument of the book is that due to the interaction between the elements of intervention and coexistence the German Question constituted the most significant issue in the configuration of the post war international order

Encyclopedia of

War Crimes and Genocide Leslie Alan Horvitz, Christopher Catherwood, 2014-05-14 Entries address topics related to genocide crimes against humanity and peace and human rights violations profile perpetrators including Joseph Stalin Pol Pot and Idi Amin and discuss institutions set up to prosecute these crimes in countries around the world

Crimes Against Humanity in International Criminal Law M. Cherif Bassiouni, 2023-08-28 This book *Crimes Against Humanity in International Criminal Law* by M Cherif Bassiouni provides an in depth analysis of the development and application of crimes against humanity within international law It explores the historical evolution from the Nuremberg Trials and the legislative history of international charters to modern day international criminal tribunals The author an experienced law professor and president of several human rights organizations aims to clarify the legal principles and philosophical underpinnings of international criminal law focusing on post World War II legal developments The book is intended for legal scholars practitioners and students interested in international criminal justice providing insights into the codification prosecution and future challenges of enforcing international human rights law

Military Law Review, 2002

The Key to My Neighbor's House Elizabeth Neuffer, 2002-11-09 Looks at justice revenge and the erosion of a nation's social and political environment in the aftermath of genocide in Bosnia and Rwanda

World War II in Literature for Youth Patricia Hachten Wee, Robert James Wee, 2004 This comprehensive volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource

Rethinking the Just War Tradition Michael W. Brough, John W. Lango, Harry van der Linden, 2012-02-01 The just war tradition is an evolving body of tenets for determining when resorting to war is just and how war may be justly executed *Rethinking the Just War Tradition* provides a timely exploration in light of new security threats that have emerged since the end of the Cold War including ongoing conflicts in the Middle East threats of terror attacks and

genocidal conflicts within states The contributors are philosophers political scientists a U S Army officer and a senior analyst at the Center for Defense Information They scrutinize some familiar themes in just war theory from fresh and original angles and also explore altogether new territory The diverse topics considered include war and the environment justice in the ending of war U S military hegemony a general theory of just armed conflict principles supreme emergencies the distinction between combatants and noncombatants child soldiers the moral equality of all soldiers targeted assassination preventive war right authority and armed humanitarian intervention Clearly written and free of jargon this book illustrates how the just war tradition can be rethought and applied today

World War II Spencer C. Tucker, 2016-09-06 With more than 1 700 cross referenced entries covering every aspect of World War II the events and developments of the era and myriad related subjects as well as a documents volume this is the most comprehensive reference work available on the war This encyclopedia represents a single source of authoritative information on World War II that provides accessible coverage of the causes course and consequences of the war Its introductory overview essays and cross referenced A Z entries explain how various sources of friction culminated in a second worldwide conflict document the events of the war and why individual battles were won and lost and identify numerous ways the war has permanently changed the world The coverage addresses the individuals campaigns battles key weapons systems strategic decisions and technological developments of the conflict as well as the diplomatic economic and cultural aspects of World War II The five volume set provides comprehensive information that gives readers insight into the reasons for the war s direction and outcome Readers will understand the motivations behind Japan s decision to attack the United States appreciate how the concentration of German military resources on the Eastern Front affected the war s outcome understand the major strategic decisions of the war and the factors behind them grasp how the Second Sino Japanese War contributed to the start of World War II and see the direct impact of new military technology on the outcomes of the battles during the conflict The lengthy documents volume represents a valuable repository of additional information for student research

Crime and Global Justice Daniele Archibugi, Alice Pease, 2018-03-16 Over the last quarter of a century a new system of global criminal justice has emerged But how successful has it been Are we witnessing a new era of cosmopolitan justice or are the old principles of victors justice still in play In this book Daniele Archibugi and Alice Pease offer a vibrant and thoughtful analysis of the successes and shortcomings of the global justice system from 1945 to the present day Part I traces the evolution of this system and the cosmopolitan vision enshrined within it Part II looks at how it has worked in practice focusing on the trials of some of the world s most notorious war criminals including Augusto Pinochet Slobodan Milo evi Radovan Karad i Saddam Hussein and Omar al Bashir to assess the efficacy of the new dynamics of international punishment and the extent to which they can operate independently without the interference of powerful governments and their representatives Looking to the future Part III asks how the system s failings can be addressed What actions are required for cosmopolitan values to become increasingly

embedded in the global justice system in years to come Fact-Finding without Facts Nancy A. Combs, 2010-07-30 Fact Finding Without Facts explores international criminal fact finding empirically conceptually and normatively After reviewing thousands of pages of transcripts from various international criminal tribunals the author reveals that international criminal trials are beset by numerous and severe fact finding impediments that substantially impair the tribunals ability to determine who did what to whom These fact finding impediments have heretofore received virtually no publicity let alone scholarly treatment and they are deeply troubling not only because they raise grave concerns about the accuracy of the judgments currently being issued but because they can be expected to similarly impair the next generation of international trials that will be held at the International Criminal Court After setting forth her empirical findings the author considers their conceptual and normative implications The author concludes that international criminal tribunals purport a fact finding competence that they do not possess and as a consequence base their judgments on a less precise more amorphous method of fact finding than they publicly acknowledge **World War II in Asia and the Pacific and the War's Aftermath, with General Themes** Loyd Lee, 1998-10-23 A companion to *World War II in Europe Africa and the Americas* this volume reevaluates the most enduring literature on basic aspects of the war in Asia and the Pacific It also covers themes pertaining to societies at war culture the arts and science and technology as well as international relations and the postwar world Included are not only grand strategy military and naval campaigns and matters of diplomacy but also resistance collaboration prisoners of war and broad topics of the home front including chapters on gender issues film literature popular culture and propaganda This volume and its companion provide the first comprehensive historiographic reference work on the war Each chapter describes the state of knowledge on the topic relating each bibliographic reference to the chapter s themes and issues and concludes with a bibliography Recent original scholarship is included when it aids new understanding and older works of enduring value also find a place The essays in this volume will interest scholars and college teachers as well as advanced students and serious amateurs seeking insight into the history of the war and its literature
