nationally recognized center of excellence to ensure high quality nursing care of neurosurgical patients

Nursing Management of the Neurosurgical Patient: An Interprofessional Approach is a concise new resource for best practices in both neurosurgery specific nursing care and general hospital care. Topics include everything from preoperative assessment and bedside management to common procedures and pathophysiology of the brain and spine; neurosurgical issues such as diabetes, acute kidney injury and coronary conditions; and pain management, substance abuse and rehabilitation. A reader friendly style includes photos, algorithms, flowcharts and checklists to make it easy to find essential information quickly. Written by experienced neuroscience nurses and Nurse Practitioners, neurosurgeons and hospitalist physicians, this book uses a team based collaborative approach to neurosurgical nursing care. Team based interprofessional collaborative evidence based approach provides an in depth guide to neurosurgical nursing care. Consistent streamlined format serves well as both a textbook and a reference for clinical settings. Abundant easy to reference algorithms help you respond quickly and effectively to resolve neurosurgical patient problems. Discussion and Nursing Considerations sections are provided in every chapter to describe the practical application of key chapter content. Case study with application level questions is included in every chapter to help you apply key content to neurosurgical nursing practice. Answer key for each case study is provided in every chapter to reinforce understanding and provide remediation. Interprofessional collaborative authorship provides wide ranging expertise with each chapter written by a team consisting of a neuroscience nurse or Nurse Practitioner, a neurosurgeon and a hospitalist physician.
