The exact implications of implementing structural adjustment in the social sector in Africa have been hotly disputed and have polarized researchers Using an empirically grounded longitudinal study of urban and rural households in Zimbabwe this report examines the consequences of market based economic reforms It focuses on observed changes in the household economy in urban and rural Zimbabwe The study offers extensive documentation and analysis of shifts in the health status and behavior of the people as well as changes in health outcomes especially as they relate to nutritional status and child mortality The authors make the case for policy reforms that could safeguard the health and well being of people at a time of continuing economic decline      *Zimbabwe National Nutrition Survey, Jan - Feb 2010* , 2010      **Food Systems Profile - Zimbabwe** Food and Agriculture Organization of the United Nations, 2022-08-03 Food systems are intimately linked to our lives through the food we eat our nutrition and health our livelihoods jobs and the environment and natural resources of the planet The main challenge for food systems is to produce nutritious food for all while preserving our biodiversity and environment and ensuring equitable distribution of wealth This Food Systems Profile provides a summary of the main food system issues in Zimbabwe and highlights potential solutions for their sustainable and inclusive transformation It is the result of a systemic analysis and stakeholders consultation that was part of a global assessment of food systems in over 50 countries following a joint initiative by the EU FAO and CIRAD which aims at catalyzing the sustainable and inclusive transformation of food systems      **Zimbabwe's Economy** Kenneth Mahuni, James Zivanomoyo, Puruweti Siyakiya, Simba Mutsvangwa, 2025-02-17 This book traces the economic history of Zimbabwe from independence to the present day Through a comprehensive historical examination it highlights the short lived successes in the early years after independence and the dwindling colonial economy as well as the economic problems of the decades that followed The authors identify crucial flaws in the country s economic policies and highlight several dilemmas in the implementation of policies that exacerbated the country s deep seated structural problems The book provides deep insights into the economic and social realities of post colonial states in Africa and offers important lessons for other African countries      **Livestock climate action in Zimbabwe** Food and Agriculture Organization of the United Nations, Svinurai, W.; Masunda, B.; Ayabagabo, J.D.D; Cabeza, I.L; Kachidza, F.; Kamana, R.; Reppin, S.; Rulli, M.; Uwizeye, A., 2025-04-25 Zimbabwe is advancing climate change adaptation in its livestock sector with key strategies reflected in both its initial and updated nationally determined contributions NDCs Although various climate smart practices are already being implemented through livestock support programs their

contributions to adaptation and mitigation remain largely undocumented resulting in their omission from the NDCs To address this the Department of Livestock Research has introduced a Tier 2 greenhouse gas GHG inventory for cattle allowing for more accurate assessments of mitigation potential and informing the 2025 NDC update This report brings together insights from literature reviews policy analysis and stakeholder consultations to evaluate the current policy landscape for livestock related climate action It highlights the sector s growing vulnerability to climate change including feed scarcity disease outbreaks and declining productivity The report identifies key policy gaps and stresses the importance of capacity building data driven planning and inclusive engagement to enhance climate resilience and reduce emissions in the livestock sector

*Intervention Mapping for Nutrition in Zimbabwe* ,2008 **Urban Food Systems Governance and Poverty in African Cities** Jane Battersby,Vanessa Watson,2018-08-22 As Africa urbanises and the focus of poverty shifts to urban centres there is an imperative to address poverty in African cities This is particularly the case in smaller cities which are often the most rapidly urbanising but the least able to cope with this growth This book argues that an examination of the food system and food security provides a valuable lens to interrogate urban poverty Chapters examine the linkages between poverty urban food systems and local governance with a focus on case studies from three smaller or

secondary cities in Africa Kisumu Kenya Kitwe Zambia and Epworth Zimbabwe The book makes a wider contribution to debates on urban studies and urban governance in Africa through analysis of the causes and consequences of the paucity of urban scale data for decision makers and by presenting potential methodological innovations to address this paucity As the global development agenda is increasingly focusing on urban issues most notably the urban goal of the new Sustainable Development Goals and the New Urban Agenda the work is timely The Open Access version of this book available at <http://www.tandfebooks.com/doi/view/10.4324/9781315191195> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

effort to move beyond this by explicitly drawing out the policy implications Beyond the Crises Zimbabwe's Prospects for Transformation is a welcome addition to the academic and policy literature with a much broader and all embracing focus in terms of policy interventions By focusing on different aspects of social and economic justice Murisa and Chikweche go beyond initiating a broad discussion on these two key pillars of human development with a view to suggesting possible future directions of practical solutions and policy development for the attainment of inclusive social and economic justice for Zimbabweans *Impacts of Agriculture on Human Health and Nutrition - Volume I* Ismail Cakmak, Ross M.
