Politics, Property and Law in the Philippine Uplands Melanie G. Wiber, 2006-01-01 The Ibaloi village of Kabayan Poblacion combines a subsistence agricultural economy with a

market economy that has grown up as a result of subsequent waves of colonization The Spanish arrived in the sixteenth century following the trail of gold and slave bearing Chinese trade junks and were followed in 1898 by the Americans The Ibaloi who were gold miners and traders cattle barons and vegetable producers have since then come to be known as an Hispanicized uplands people acculturated to Western ways and struggling to come to grips with new economic realities This book examines the Ibaloi property system and demonstrates that the changes which have taken place since the Spanish arrival were complex and had numerous directions and relationships many of them steered by the nature of Ibaloi society itself others by the Spanish and still others by the resources of Benguet Province What began as a study of the Ibaloi property system rapidly became an exercise in understanding developments over time in social stratification ritual and law Wiber s research has led her to challenge the dependency theory of legal pluralism whereby peripheral zones are forced into economic dependency by having to exist within two legal structures their own and another imposed by a central power zone in favour of the social science view of legal pluralism Thus all heterogeneous societies experience legal pluralism but in different and individual ways as people have a tendency to manipulate the law to their own advantage She also takes issue with the narrowness of current anthropological terms relating to property systems and whether they are applicable to non Western societies and argues for a reorientation of anthropology to end the tendency to generate simplistic models of property kinship and law

The Economy of the Philippines Peter Krinks,2003-09-02 In the late 1950s the Filipino economy could reasonably have been described as more advanced than those of its South Asian neighbours Ever since then however it has consistently lagged behind and only really started to grow strongly in the mid 1990s and even then it failed to achieve the growth rates of the rest of Southeast Asia ten years earlier This book critically analyses the Filipino economy and attempts to explain the problems that it has faced as well as the solutions that need to be put into practice This accessible and comprehensive book will be of great use to students academics and business professionals with an interest in the economies of Asia

The Philippines David Joel Steinberg,2018-02-19 A unified nation with a single people the Philippines is also a highly fragmented plural society Divided between uplander and lowlander rich and poor Christian and Muslim between those of one ethnic linguistic and geographic region and those of another the nation is a complex mosaic formed by conflicting forces of consensus and national identity and of division and instability It is not possible to comprehend the many changes in the Philippines such as the rise and fall of Ferdinand Marcos or the revolution that toppled him without an awareness of the religious cultural and economic forces that have shaped the history of these islands These forces formed the focus of the first edition of The Philippines Of that 1982 edition the late Benigno Aquino Jr noted that anyone wanting to understand the Philippines and the Filipinos today must include this book in his must reading list The fourth edition has been updated through the final years of the Ramos presidency and contains a new section on the impact of President Estrada
