working mothers who balance their obligations to both work and family Angela Hattery goes beyond a mere description of women's conflicts of interest and seeks to understand the decision making process through which they accomplish this balancing Through intensive interviews with 30 married women all with children under 2 years of age Hattery uncovers a remarkable range of ways in which these women weave together the complex strands of their lives The data in the volume are examined from a number of theoretical standpoints including structural theory motherhood theory and feminist theory A key variable that runs through the data is economic need which has an obvious effect on work patterns Women Work and Family will make a major contribution to family studies and will illuminate the difficult choices that women make within the family work context

Militancy and Violence in West Africa James Gow, Funmi Olonisakin, Ernst Dijxhoorn, 2013-07-18 This volume provides a systematic and cross regional analysis of radicalisation militancy and violence in West Africa Concern about terrorism in or from West Africa has been recognised in academic research and the adoption of militarised approaches to addressing it questioned However the basis for that questioning the need to investigate factors such as the historical and socio economic roots of militancy is not developed nor is it substantiated in existing studies The significant impact of religiously motivated radicalisation and violence in West Africa upon international security makes it essential to understand the issues of militancy and violence in the region In this volume the authors draw upon empirical research in West Africa to develop understanding in these areas Over the course of several chapters written by leading experts in the field the book successfully blends historical and conceptual analysis with new empirical research gathered from focus group discussions and research interviews Each of these core studies is structured around five interrelated issues tracing the antecedents of radicalisation monitoring trends identifying actors anticipating possibilities and analysing the strength of existing preventive mechanisms This book will be of much interest to students of African security African politics radicalisation political Islam war and conflict studies and security studies in general

The Ebb and Flow of Global Governance Alexandru Grigorescu, 2020-03-26 The Ebb and Flow of Global Governance challenges the traditionally dichotomous distinction between international intergovernmental organizations and international nongovernmental organizations Alexandru Grigorescu argues that international organizations are best understood as falling on an intergovernmental nongovernmental continuum The placement of organizations on this continuum is determined by how much government involvement factors into their decision making financing and deliberations Using this fine grained conceptualization Grigorescu uncovers numerous changes in the intergovernmental versus nongovernmental nature of global governance over the past century and a half These changes are due primarily to ideological and institutional domestic shifts in powerful states The Ebb and Flow of Global Governance assesses the plausibility of these arguments through archival research on a dozen organizations from the global health labor and technical standards realms Grigorescu concludes that there has been a continuous ebb and flow in world politics rather than an inexorable movement towards greater roles for nongovernmental actors as existing literature

Dignity and Human Rights Adalid Contreras Baspineiro, Berma Klein Goldewijk, Paulo César Carbonari, 2002 SECTION I INTRODUCTION AND CONTEXT **Popular Opinion and Political Dissent in the Third Reich** Ian Kershaw, 1983-02-17 Now updated with a new introduction and bibliography Ian Kershaw's classic study of popular responses to Nazi policy and ideology explores the political mentality of ordinary Germans in one part of Hitler's Reich Basing his account on many unpublished sources the author analyses socio economic discontent and the popular reaction to the anti Church and anti Jewish policies of the Nazis and reveals the bitter divisions and dissent of everyday reality in the Third Reich in stark contrast to the propaganda image of a National Community united behind its leaders The focus on one particular region makes possible a depth of analysis that takes full account of local and social variations and avoids easy generalization but the findings of this study of ordinary behaviour in a police state have implications extending far beyond the confines of Bavaria or indeed Germany in this period **Women, Work, and Families** Angela Jean Hattery, 2000-12-22 Hattery's book is an

Series Library of Congress. Copyright Office, 1972 Men's Work and Male Lives John Goodwin, 2018-12-20 First published in 1999 this volume took part in the emerging sociological debate on gender in the workplace by studying men s work lives gender roles and psychological health through the gender lens Recent changes in the labour market not least the marked increase of women at work have been argued to have led to a crisis of masculinity and a re evaluation of men s roles This

book has four main aims to establish that there is a real absence of an empirical understanding of men in British gender based sociological research to explore men's recent experiences of the British labour market to explore how masculinity and work are linked and maintained by critically examining existing accounts of gender theory and feminism and finally to provide an empirical account of men's work and male lives via an analysis of existing data The male workers were identified in the National Child Development Study 1991 and compared with male full time workers and similar groups of women in the same study Five areas of these men's lives were explored empirically characteristics of male workers in NCDS5 men's attitudes to work men and training experiences men and household work and finally men and mental ill health The book concludes that the nature of men's work needs to be reconsidered and that the nature of gender research particularly that relating to men needs to be expanded and made more explicit The Globalization Syndrome James H.

Mittelman,2000-02-28 Here James Mittelman explains the systemic dynamics and myriad consequences of globalization focusing on the interplay between globalizing market forces in some instances guided by the state and the needs of society Mittelman finds that globalization is hardly a unified phenomenon but rather a syndrome of processes and activities a set of ideas and a policy framework More specifically globalization is propelled by a changing division of labor and power manifested in a new regionalism and challenged by fledgling resistance movements The author argues that a more complete understanding of globalization requires an appreciation of its cultural dimensions From this perspective he considers the voices of those affected by this trend including those who resist it and particularly those who are hurt by it The Globalization Syndrome is among the first books to present a holistic and multilevel analysis of globalization connecting the economic to the political and cultural joining agents and multiple structures and interrelating different local regional and global arenas Mittelman's findings are drawn mainly from the non Western worlds He provides a cross regional analysis of Eastern Asia an epicenter of globalization and Southern Africa a key node in the most marginalized continent The evidence shows that while offering many benefits to some globalization has become an uneasy correlation of deep tensions giving rise to a range of alternative scenarios **Russian Foreign Policy in the Post-Soviet Era** B. Lo,2002-08-12 In the first comprehensive treatment of its kind Bobo Lo examines the course of Russian foreign policy in the decade following the Soviet collapse Adopting a conceptual approach he identifies the principal ideological and institutional factors that have influenced the thinking of decisionmaking behind the policies Bobo Lo challenges many of the conventional assumptions that have dominated much of the preceding literature on Russian foreign policy The Handbook of Global Interventions in Communication Theory Yoshitaka Miike,Jing Yin,2022-03-10 Moving beyond the U S Eurocentric paradigm of communication theory this handbook broadens the intellectual horizons of the discipline by highlighting underrepresented especially non Western theorists and theories and identifies key issues and challenges for future scholarship Showcasing diverse perspectives the handbook facilitates active engagement in different cultural traditions and theoretical orientations that are

global in scope but local in effect It begins by exploring past efforts to diversify the field continuing on to examine theoretical concepts models and principles rooted in local cumulative wisdom It does not limit itself to the mass interpersonal communication divide but rather seeks to frame theory as global and inclusive in scope The book is intended for communication researchers and advanced students with relevance to scholars with an interest in theory within information science library science social and cross cultural psychology multicultural education social justice and social ethics international relations development studies and political science
