The Law of Public Communication Kent R. Middleton, William E. Lee, Daxton Stewart, 2015-07-30 The Law of Public Communication provides an overview of media law that includes the most current legal developments today It explains the laws affecting the daily work of writers broadcasters advertisers cable operators Internet service providers public relations practitioners photographers bloggers and other public communicators Authors Kent R Middleton William E Lee and Daxton R Stewart take students through the basic legal principles and methods of analysis that allow students to study and keep abreast of the rapidly changing field of public communication By providing statutes and cases in a cohesive manner that is understandable even to students studying law for the first time the authors ensure that students will

acquire a firm grasp of the legal issues affecting the media This 2017 Update brings the Ninth Edition up to date with the most recent cases and examples affecting media professionals and public communicators *Lost Rights* James Bovard, 2016-01-05 From Justice Department officials seizing people's homes based on mere rumors to the IRS and its master plan to prohibit the nation's self-employed from working for themselves to the perpetrators of the Waco siege government officials are tearing the Bill of Rights to pieces Today's citizen is now more likely than ever to violate some unknown law or regulation and be placed at the mercy of an administrator or politician hungering for publicity Unfortunately the only way many government agencies can measure their public service is by the number of citizens they harass hinder restrain or jail James Bovard's *Lost Rights* provides a highly entertaining analysis of the bloated excess of government and the plight of contemporary Americans beaten into submission by a horrible parody of the Founding Fathers dream **Law of Defamation in Commonwealth Africa** Jill Cottrell, 2018-08-17 First published in 1998 this book is an exposition of the law of defamation as it applies in those countries excluding South Africa It discusses or refers to hundreds of cases from those jurisdictions as well as many important precedents from England analysing the law and discussing how far the courts have developed their own approaches to the law and to what extent the law reflects the values of traditional society and customary law It thus shows how the law is being used in a field which is both intensely political and reflects important social interests Though directed mainly at legal practitioners teachers and students therefore it would be of interest to the media the defendants in the overwhelming majority of the cases and to scholars in the social sciences The Legal Theory of Ethical Positivism Tom D. Campbell, 2016-12-05 The Legal Theory of Ethical Positivism re-establishes some of the dogmas of classical legal positivism regarding the separation of legislation and adjudication and the feasibility of institutionalizing the morally neutral application of rules as an ideal capable of significant realization This is supplemented by an analysis of the formal similarities of the morally and legally adjudicative points of view which offers the prospects of attributing a degree of moral authority to positivistic rule application in particular cases These theories are worked through in their application to specific problem areas particularly freedom of communication *Power, Publicity, and the Abuse of Libel Law* Donald M. Gillmor, 1992 America prides itself on its freedom of expression and it has a reputation for tightly restricted libel law Indeed a study of more than 600 media related suits in the 1980s found that ninety percent were won by the media or thrown out of court before even going to trial Even a case ending in summary judgment can cost the victorious defendant 25 000 or more and the bill for a full trial can easily pass 100 000 The volume of libel suits has not diminished and many defendants settle out of court simply to avoid crippling costs Clearly writes Donald Gillmor we are suffering a major crisis in libel law In *Power Publicity and the Abuse of Libel Law* Gillmor takes a revealing look at the state of libel law and offers a compelling agenda for change He begins with a disturbing review of the abuses of libel in our times examining both famous and little known cases Wayne Newton for example won an initial 22.7 million jury award against NBC for an unflattering story even though he

went on to get a Nevada casino license a 19 million loan the Presidential Medal of Freedom and was made grand marshal of an Independence Day parade in Washington DC It was not clear Gillmor writes for what NBC was being punished the network obviously hadn't damaged Newton's reputation Even tiny papers suffer crippling lawsuits One 1 300 circulation publication was sued for 20 million even though the case was dismissed the defense cost 20 000 Such actions Gillmor writes dampen the fire of a free press Lively journalism has always been an American tradition if anything the press was far more reckless in the days of the framers of the constitution they often suffered its barbs even as they sought to protect it Today it is almost impossible for the state to prosecute for seditious libel or criticism of government But civil libel law Gillmor shows has taken its place in punishing verbal attacks on government officials in spite of decisions intended to protect free speech and press notably *New York Times v Sullivan* He proposes radical structural changes in the law to make it impossible for policymakers and celebrities to sue for libel At the same time he appeals to editors to ensure that those they wrong will have opportunities to respond in the media As Justice Louis Brandeis wrote long ago the remedy to wrongs in the press is more speech not enforced silence Libel laws have become complicated almost beyond human comprehension Gillmor writes The result is a profusion of libel suits in which the only clear winners generally are libel lawyers This provocative and revealing book illuminates a path out of the confusion and toward a safer environment for our cherished birthright freedom of speech and press
