Retrospection Political Real:

Principles of Moral and Political Science, Being Chiefly a Retrospect of Lectures Delivered in the College of Edinburgh Adam Ferguson, 1792 **Political Marketing in Retrospective and Prospective** Christine B. Williams, Bruce I. Newman, 2014-06-11 Political marketing coalesced as a subfield in the mid 1990s and in 2002 the Journal of Political Marketing began publication This anniversary collection reviews the existing theory empirical evidence and practice of political marketing and explores emerging topics and lines of inquiry within the field While political candidates and their campaigns are a major focus it also considers the broader range of issue advocacy and lobbying The selections expand beyond the U S context to offer a much needed comparative perspective The volume includes material on the effects of new media and technology posing questions about their direction and consequences for political actors and institutions citizens and governmental systems Collectively the chapters illustrate the breadth and depth of a maturing field of inquiry taking the reader through a retrospective and prospective examination of the intellectual grounding and scholarship that comprise political marketing This book was published as a special issue of the Journal of Political Marketing **A Retrospective View of the Late Political Emergency**, 1790 Retrospective Pledge Voting and Political Accountability Theres Matthieß, 2024-08-17 This book examines retrospective pledge voting the phenomenon of whether and under which conditions citizens are likely to withdraw their support for political parties that have failed to turn their pre election pledges into tangible policies once they have joined government It puts forward a new theoretical framework on retrospective pledge voting Whilst one would expect voters to punish government parties that have broken their promises by refusing to vote for them at the next election little research has been done to show whether and under what contexts this is actually the case Adopting a multi methods approach the book demonstrates that citizens do punish government parties that have shown a poor performance in fulfilling their election pledges and that more sceptical citizens with negative pre existing opinions punish pledge breakage more severely Bringing together research on election pledges government performance and voting the book will appeal to all those interested in democratic representation politics public policy and voter party linkages

D. Young, 2001 The Institute of Education has been closely involved with post apartheid developments in education policy in South Africa The book examines the current policy dilemmas in South Africa It also provides a sophisticated exploration of the tensions that can occur between and among policy makers and policy researchers as a local vision is translated into reality in a global context At the same time the book provides clear evidence of the value as well as the difficulty of continuing dialogue between these groups which might usefully be heeded in those countries where such interaction too rarely takes place *A Retrospect of Political and Commercial Affairs in China During the Five Years 1873 to 1877* Richard Simpson Gundry, 1878

Marot,2012-06-08 In a series of probing analytical essays John Marot tracks the development of Bolshevism through the prism of pre 1917 intra Russian Social Democratic controversies in politics and philosophy For 1917 the author presents a critique of social historical interpretation of the Russian Revolution Turning to NEP Russia the author applies Robert Brenner s analysis of pre capitalist modes of production and concludes that neither Bukharin nor Trotsky s NEP premised programs of economic transformation and advance toward socialism were feasible At the same time he rejects the view that Stalinism was pre destined to supplant NEP Instead he hypothesises that the superior alternative to Stalinism was NEP without collectivization and the Five Year Plans a outcome that would have been possible had Bukharin and Trotsky joined forces to stop Stalin *Economic and Business issues in Retrospect and prospect* Kerem Gökten,Ahmet Arif Eren,2019-03-10 There is a strong view that economics is the academic discipline that best represents the claim of positive science among social sciences Economics has undergone significant transformations after its emergence as a science Despite all these transformations the feature containing positive and normative elements has not changed While economists from the political economy tradition focus on qualitative studies that relate to other social sciences especially political science and history a group of economists adopt the qualitative methods of natural sciences to analyze economic problems There is a debate among economists on how to understand social reality and what kind of science the economy should be Business is a discipline that has declared its relative independence from economics over time Business is a research field that encompasses a wide range of areas ranging from organizational behavior of individuals to the firm s production and marketing strategies This book contains articles on essential topics related to these disciplines which have an in separable
