Risk Management In Volatile Financial Markets:

Risk Management in Volatile Financial Markets Franco Bruni,D.E. Fair,Richard O'Brien,2012-12-06 intense competition on banks and other financial institutions as a period of oligopoly ends more rather than less innovation is needed to help share undiversifiable risks with more attention to correlations between different risks Charles Goodhart of the London School of Economics LSE while questioning the idea that volatility has increased concludes that structural changes have made regulation more problematic and calls for improved information availability on derivatives transactions In a thirteen country case study of the bond market turbulence of 1994 Bo rio and McCauley of the BIS pin the primary causes of the market decline on the market's own dynamics rather than on variations in market participants' apprehensions about economic fundamentals Colm Kearney of the University of Western Sydney after a six country study of volatility in economic and financial variables concludes that more international collaboration in managing financial volatility other than in foreign exchange markets is needed in Europe Finally Stokman and Vlaar of the Dutch central bank investigate the empirical evidence for the interaction between volatility and international transactions in real and financial assets for the Netherlands concluding that such influence depends on the chosen volatility measure The authors suggest that there are no strong arguments for international restrictions to reduce volatility
