Shame And Humiliation Presidential Decision Making On Vietnam:

Shame and Humiliation Blema S. Steinberg, 1996 Blema Steinberg adopts a psychoanalytical approach in her examination of the decision making of Lyndon Johnson Richard Nixon and Dwight Eisenhower during the Vietnam War She argues that personality traits such as narcissism influenced critical decisions they made about U S intervention in Vietnam

Shame and Humiliation Blema S. Steinberg, 1996-04-16 Steinberg focuses on the narcissistic personality identifying it as intensely self involved and preoccupied with success and recognition as a substitute for parental love She asserts that narcissistic leaders are most likely to use force when they fear being humiliated for failing to act and when they need to restore their diminished sense of self worth Providing case studies of Johnson Nixon and Eisenhower Steinberg describes the childhood maturation and career of each president documenting key personality attributes and then discusses each one s Vietnam policy in light of these traits She contends that Johnson authorized the bombing of Vietnam in part because he feared the humiliation that would come from inaction and that Nixon escalated U S intervention in Cambodia in part because of his low sense of self esteem Steinberg contrasts these two presidents with Eisenhower who was psychologically secure and was therefore able to carry out a careful and thoughtful analysis of the problem he faced in Indochina *Shame and Humiliation* reveals how personality traits affect our perception of reality and offers a powerful demonstration of the impact of psychodynamics on presidential decision making

Choosing War Fredrik Logevall, 2023-09-01 In one of the most detailed and powerfully argued books published on American intervention in Vietnam Fredrik Logevall examines the last great unanswered question on the war Could the tragedy have been averted His answer a resounding yes Challenging the prevailing myth that the outbreak of large scale fighting in 1965 was essentially unavoidable *Choosing War* argues that the Vietnam War was unnecessary not merely in hindsight but in the context of its time Why then did major war break out Logevall shows it was partly because of the timidity of the key opponents of U S involvement and partly because of the staunch opposition of the Kennedy and Johnson administrations to early negotiations His superlative account shows that U S officials chose war over disengagement despite deep doubts about the war s prospects and about Vietnam s importance to U S security and over the opposition of important voices in the Congress in the press and in the world community They did so because of concerns about credibility not so much America s or the Democratic party s credibility but their own personal credibility Based on six years of painstaking research this book is the first to place American policymaking on Vietnam in 1963 65 in its wider international context using multiarchival sources many of them recently declassified Here we see for the first time how the war played in the key world capitals not merely in Washington Saigon and Hanoi but also in Paris and London in Tokyo and Ottawa in Moscow and Beijing *Choosing War* is a powerful and devastating account of fear favor and hypocrisy at the highest echelons of American government a book that will change forever our understanding of the tragedy that was the Vietnam War In one of the most detailed and powerfully argued books published on American intervention in
