Shaping A Monastic Identity Liturgy And History At The Imperial Abbey Of Farfa 10001125:

Shaping a Monastic Identity Susan Boynton, 2006 During the eleventh and early twelfth centuries the imperial abbey of Farfa was one of the most powerful institutions on the Italian peninsula In this period many of the lands of central Italy fell under its sway and it enjoyed the protection of the emperor until the 1120s when it passed gradually into the control of the papacy At the same time the monastery was an influential religious center and the monks of Farfa filled their days with the celebration of the liturgy through prayers processions sermons chants and hymns Susan Boynton a historian of medieval music addresses several of the major themes of present day medieval historiography through a close study of the liturgical practices of the abbey of Farfa Boynton s findings are a striking demonstration of the local nature of liturgical practices in the centuries before church ritual was controlled and codified by the papacy Boynton shows that the liturgy was highly flexible continually adapting to the monastery s changing circumstances The monks regularly modified traditional forms to reflect new realities often in the service of Farfa s power and prestige Equally fascinating is Boynton s examination of the process by which Farfa like other monasteries cathedral chapters and royal houses constantly rewrote its history particularly the stories of its founding as part of the continuous negotiation of power that was central to medieval politics and culture

Music and the Making of Medieval Venice Jamie L. Reuland, 2023-10-26 Music played an essential part in raising the city of Venice and in founding the empire on which its fortunes would depend This book focuses on a set of musical projects played out in liturgy and civic ritual that formed the city s history and framed and interpreted its unique material culture as it was in the process of taking shape Jamie L Reuland shows the state s most imaginative musical endeavors bound up with legal culture stemming from the chancery s engines of historiography or situated within the rich material environment of relics and reliquaries mosaics and wall paintings icons and statues Arguing for music s technical ability to fabricate a sense of place and give form to history Reuland recovers Venice s fascinating early propensity for a statecraft of the imagination the consequences of which would be the better known history of its material decay

Cistercian Stories for Nuns and Monks Martha G.

Newman,2020-10-30 Around the year 1200 the Cistercian Engelhard of Langheim dedicated a collection of monastic stories to a community of religious women Martha G Newman explores how this largely unedited collection of tales about Cistercian monks illuminates the religiosity of Cistercian nuns As did other Cistercian storytellers Engelhard recorded the miracles and visions of the order s illustrious figures but he wrote from Franconia in modern Germany rather than the Cistercian heartland His extant texts reflect his interactions with non Cistercian monasteries and with Langheim s patrons rather than celebrating Bernard of Clairvaux Engelhard was conservative interested in maintaining traditional Cistercian patterns of thought Nonetheless by offering to women a collection of narratives that explore the oral qualities of texts the nature of sight and the efficacy of sacraments Engelhard articulated a distinctive response to the social and intellectual changes of his period In analyzing Engelhard s stories Newman uncovers an understudied monastic culture that resisted the growing emphasis on the priestly administration of the sacraments and the hardening of gender distinctions Engelhard assumed that monks and nuns shared similar interests and concerns and he addressed his audiences as if they occupied a space neither fully sacerdotal nor completely lay neither scholastic nor unlearned and neither solely male nor only female His exemplary narratives depict the sacramental value of everyday objects and behaviors whose efficacy relied more on individual spiritual formation than on sacerdotal action By encouraging nuns and monks to imagine connections between heaven and earth Engelhard taught faith as a learned disposition Newman s study demonstrates that scholastic questions about signs sacraments and sight emerged in a narrative form within late twelfth century monastic communities

Johannes Heil Rik Van Nieuwenhove Roger S Wieck Paul W Robinson and Roy Hammerling *Holy Treasure and Sacred Song* Benjamin Brand,2014-09-11 In the Middle Ages relic cults provoked rich expressions of devotion not only in hagiographic literature and visual art but also in liturgical music and ritual Despite the long recognized inter play between these diverse media historians of the period rarely integrate analysis of sacred music into their research on other modes of worship espoused by relic cults Holy Treasure and Sacred Song situates this oft neglected yet critical domain of religious life

at the center of an examination of relic cults in medieval Tuscany Long recognized as a center of artistic innovation during the Renaissance this region also boasted the rich and well documented veneration of holy bishops and martyrs buried in the cathedrals and suburban shrines of its principal cities Author Benjamin Brand reveals that the music composed to honor these local saints no fewer than ninety chants for the Mass and Divine Office were essential components of larger devotional campaigns that included the recording of their life stories and the building and decoration of their shrines Furthermore the local Tuscan clerics who assumed control of these campaigns with the intent of gaining both temporal and spiritual power drew on influential global models literary architectural musical and ritual from preeminent European powers Rome and the Carolingian Empire By integrating detailed analyses of plainsong and sacred ritual into this rich panorama Brand traces the dialectic between local regional and pan European trends revealing the centrality of the liturgy in the development of medieval relic cults and in a broader sense medieval European culture and politics Offering a rich topography of music liturgy and devotion through an interdisciplinary approach ideal for the multifaceted nature of medieval relic cults Holy Treasure and Sacred Song will find a broad audience amongst musicologists and medievalists alike **Romanesque**

Patrons and Processes Jordi Camps, Manuel Castiñeiras, John McNeill, Richard Plant, 2018-03-09 The twenty five papers in this volume arise from a conference jointly organised by the British Archaeological Association and the Museu Nacional d'Art de Catalunya in Barcelona They explore the making of art and architecture in Latin Europe and the Mediterranean between c 1000 and c 1250 with a particular focus on questions of patronage design and instrumentality No previous studies of patterns of artistic production during the Romanesque period rival the breadth of coverage encompassed by this volume both in terms of geographical origin and media and in terms of historical approach Topics range from case studies on Santiago de Compostela the Armenian Cathedral in Jerusalem and the Winchester Bible to reflections on textuality and donor literacy the culture of abbatial patronage at Saint Michel de Cuxa and the re-invention of slab relief sculpture around 1100 The volume also includes papers that attempt to recover the procedures that coloured interaction between artists and patrons a serious theme in a collection that opens with Function condition and process in eleventh century Anglo Norman church architecture and ends with a consideration of The death of the patron *Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms* Renie S. Choy, 2016-12-15 In early medieval Europe monasticism constituted a significant force in society because the prayers of the religious on behalf of others featured as powerful currency The study of this phenomenon is at once full of potential and peril rightly drawing attention to the wider social involvement of an otherwise exclusive group but also describing a religious community in terms of its service provision Previous scholarship has focused on the supply and demand of prayer within the medieval economy of power patronage and gift exchange *Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms* is the first volume to explain how this transactional dimension of prayer factored into monastic spirituality Renie S Choy uncovers the relationship between the intercessory function of monasteries and the

ascetic concern for moral conversion in the minds of prominent religious leaders active between c 750 820 Through sustained analysis of the devotional thought of Benedict of Nursia and contemporaneous religious reformers during the reigns of Charlemagne and Louis the Pious Choy examines key topics in the study of Carolingian monasticism liturgical organization and the intercessory performances of the Mass and the Divine Office monastic theology and relationships of prayer within monastic communities and with the world outside Arguing that monastic leaders showed new interest on the intersection between the interiority of prayer and the functional world of social relationships this study reveals the ascetic ideal undergirding the provision of intercessory prayer by monasteries **The Benedictines in the Middle Ages** James G. Clark, 2014-11-20 The men and women that followed the 6th century customs of Benedict of Nursia c 480 c 547 formed the most enduring influential numerous and widespread religious order of the Latin Middle Ages This text follows the Benedictine Order over 11 centuries from their early diaspora to the challenge of continental reformation
