Shaping Of Chinese Foreign Policy:

Chinese Foreign Policy Thomas W. Robinson, David L. Shambaugh, 1995 This study of Chinese foreign policy is intended for academics and graduates of Chinese studies and of international relations international economics and those interested in decision making theory [The Shaping of Chinese Foreign Policy](#) Greg O'Leary, 1980-06 **Shaping China's Future In**

World Affairs Robert G Sutter, 2019-06-26 This book considers Chinese foreign policy and China's future role in world affairs in the context of the country's recent past Robert Sutter shows that although it appears to be in U.S. interests for post Mao leaders to continue moving toward international norms a post Deng leadership backed by growing economic and military power and reflecting profound changes in China's economy and society could move in markedly different directions Most foreign powers appear willing to accommodate China avoiding actions that could prompt a sharp shift in Chinese foreign policy but Sutter argues that current U.S. policy intrudes on so many issues that are particularly sensitive for Beijing and for China's future that it represents perhaps the most critical variable determining how China will position itself in world affairs Concluding that there is no guarantee the United States will use this influence wisely Sutter examines the uncertainty and unpredictability of U.S. foreign policy in the post Cold War environment that work against the creation of an effective U.S. policy toward China **Challenges to Chinese Foreign Policy** Yufan Hao, C.X. George Wei, Lowell Dittmer, 2021-12-15

When Beijing hosted the 2008 Summer Olympics China symbolically asserted its role as an emerging world power a position it is not likely to relinquish anytime soon China's growing economy military reforms and staggering productivity have contributed to its ascendancy as a major player in international affairs Western scholars have attempted to explain Chinese foreign policy using historical or theoretical evidence but until this volume few studies from a Chinese perspective have been published in English In *Challenges to Chinese Foreign Policy* Diplomacy Globalization and the Next World Power editors Yufan Hao C.X. George Wei and Lowell Dittmer reveal how Chinese scholars view their nation's rise to global dominance Drawing from a wealth of foreign relations experts including scholars native to the region this volume examines the unique challenges China faces as it adapts in its role as a world leader and it analyzes how China's evolving international relationships are shaping the global landscape of the twenty first century **China And The World** Samuel S

Kim, 2018-02-02 As the postwar international system continues its dramatic transformation the fundamental question of what role China will play is becoming increasingly central Contributors to the volume focus on the developments of the post Tiananmen years addressing the issues raised by China's expanding and increasingly complex relationships with a rapidly changing global environment They consider such questions as What is the principal challenge of post Tiananmen foreign policy How will China cope with the call for a more peaceful equitable democratic and ecological world order How has the nexus between China and the world changed in this transition period and why What are the implications for China's future and for the future of the rest of the world Combining a broad theoretical framework with specific case studies this text

tackles themes that have long puzzled Westerners Seeking the often elusive sources of Chinese foreign policy the contributors assess the relative influences of domestic and foreign factors in shaping policy goals They also examine the changes and continuities that have characterized Chinese foreign relations over the years identifying the patterns underlying China s interactions with the major global actors and its policies on specific international issues Special attention is paid to the word deed and at times word word disjuncture in Chinese foreign relations with several chapters probing the discrepancies between rhetoric and reality policy pronouncements and policy performance and intent and outcome The human rights component of China s foreign policy and China s foreign policy options for the last decade of the century are also discussed New to this revised and updated edition of *China and the World* are discussions concerning Chinese foreign policies and international relations theories the relationship between China and the Third World and China s environmental diplomacy

Interpreting Chinese Foreign Policy Quansheng Zhao,1996 This work applies the micro macro linkage approach to Chinese foreign policy It analyzes the effect of the international environment and domestic constraints exploring the key trends of modernization nationalism and regionalism reviewing literature an *Identity, Culture, and Chinese Foreign Policy* Kangkyu Lee,2020-11-29 This book assesses the role of identity and Chinese face culture in Chinese foreign policy by analyzing China s political and economic retaliation against South Korea s deployment of the THAAD Terminal High Altitude Area Defense system on its soil By examining the history and military action of China Japan and North and South Korea the book argues that China s divergent responses were caused by different expectations according to whether states had a perceived identity as a friend or a rival The author demonstrates that Chinese face culture shapes China s reaction to others through three dynamics of seeking saving and losing face This book shows how identity and culture have worked in the relationship between China and neighboring countries through three case studies exploring North Korea s Taepodong 2 missile launch and first nuclear test in 2006 South Korea s decision to allow the United States to deploy the THAAD around 2016 and Japan s decision to deploy two U S X band radars in 2005 and 2014 A timely analysis of the importance of identity and culture in international relations the book will be of interest to scholars of Chinese foreign policy Sino South Korean relations Sino North Korean relations Sino Japanese relations Korean Politics Asian Politics and International Relations

New Dimensions of Chinese Foreign Policy Sujian Guo,Shiping Hua,2007-07-19 *New Dimensions of Chinese Foreign Policy* is an in depth analysis of China s new place in international affairs Taking Hu Jintao s proposal for peaceful development as a starting point the contributors in this volume examine the new trends of thought in the fourth generation of Chinese policymakers Special emphasis is placed on US China relations Editors Sujian Guo and Shiping Hua have assembled a list of contributors_ many of which are Chinese or Chinese American scholars_ with thorough knowledge of changes in Chinese foreign policy and their implications for the world The essays contained in this volume cover a comprehensive breadth of topics including China s changing ideology in foreign policy Chinese elite perspectives on the rise of China the

Chinese Foreign Relations Robert G. Sutter, 2010 A third edition of this book is now available This comprehensive and thoroughly updated introduction to Chinese foreign relations discerns the opportunities and limits China faces as it seeks increased international influence Tracing the record of twists and turns in Chinese foreign relations since the end of the Cold War Robert G Sutter provides a nuanced analysis that shows that despite popular perceptions of its growing power Beijing is hampered by both domestic and international constraints This text's balanced and meticulous assessment shows China's leaders exerting more influence in world affairs but remaining far from dominant Facing numerous contradictions and tradeoffs they move cautiously as they deal with a complex global environment

Mao Zedong & China's Foreign Policy Amrita Jash, 2025-07-22 This book analyses China's foreign policy from 1949 to 1976 through a cognitive perceptual lens emphasise Mao Zedong's central role as the primary decision making authority Moving beyond realist frameworks it highlights how Mao's ideological worldview shaped by his theory of contradictions revolutionary zeal and use of historical analogies drove China's foreign policy particularly in relation to Vietnam His subjective interpretation of global affairs reinforced by Marxist Leninist principles and China's historical identity guided key strategic decisions The study underscores the importance of individual leaders beliefs perceptions and psychological traits in shaping foreign policy offering broader implications for understanding international relations through cognitive and psychological approaches
