Shaping The Future Of Foreign Language Education:

The Future of Foreign Language Education in the United States Terry A. Osborn, 2002-01-30 At the dawning of the 21st century foreign language education in the United States is experiencing a period marked by exciting possibilities. Theorists and practitioners embrace a move from a perceived position of teaching only the elite to a nationally initiated cross disciplinary and cross cultural orientation embodied in the latest standards. Given the presence of non English languages in all parts of the United States a growing number of scholars are beginning to examine the sociological context in which this educational endeavor is carried out noting that the figure of professional practice is inextricably linked to issues of cultural and academic context. Theory informed practice in the coming years therefore will include the challenge of examining a broad range of topics related to curricular and instructional principles and procedures. The text is intended to provide a collection of perspectives related to issues of pluralism and reform as they will influence theory informed practice of foreign language education in the coming century. Drawing from a variety of contributors from both inside and outside of foreign second language education this text brings the voices of scholars together focused on issues of contemporary consequence. The chapters center around a focusing theme in the form of the following question: How does the changing social and academic context of language education in the United States impact the future of our discipline.

Shaping the Future of Online Learning: Education in the Metaverse Durak, Gürhan, Cankaya, Serkan, 2022-12-27 Each new technological innovation creates new opportunities in the field of education and affects the learning preferences of individuals. In this respect it is important to investigate the ways to use these technologies in education to ensure learners receive the best possible education. Shaping the Future of Online Learning: Education in the Metaverse discusses up to date knowledge and experience regarding emerging technologies, processes and applications for online learning. The book also provides a guide for technology enthusiasts, online course designers and institutions that facilitate the innovative technologies in online learning. Covering critical topics such as augmented reality, virtual reality, immersive learning and gamification, this reference work is ideal for instructional designers, educational software developers, programmers, teachers, policymakers, administrators, principals, industry professionals, researchers, scholars, practitioners, academicians, instructors and students.

Critical Issues in Foreign Language Instruction Ellen S. Silber, 2013-09-13 First Published in 1991 This is Volume 22 of the Source Books on Education series. Politically speaking the study of foreign languages and cultures helps maintain a strong competitive position in an increasingly global marketplace. It was hard to imagine in 1957 that the launching of a Soviet rocket would push the United States into its greatest investment ever in foreign language education. As American policy makers attempted to play catch up with our brothers and sisters behind the iron curtain this country infused federal dollars into extensive foreign language teacher training and the creation of new foreign language educational programs. As suddenly as federal support was given however so was it taken away and its withdrawal was responsible for one of the darkest periods

in the history of foreign language education in America Drawing on the expertise of a number of the nation s most experienced and creative foreign language educators this volume edited by Ellen S Silber addresses some of the crucial problems we face in foreign language education today **Reflecting on the Past to Shape the Future** Diane W. Birckbichler,2000 **Resources in Education** ,2000 *Lasting Change in Foreign Language Education* John L. Watzke,2003-03-30 *Lasting Change in Foreign Language Education* presents a historical account of foreign language in general education The author examines the struggle of this subject discipline to align with the changing mission of secondary education as it emerged as the predominant institution enrolling students in the study of second languages This 100 year history suggests trends persistent across major periods of reform to explain current problems in the expansion of learning opportunities in foreign language Included is a complete database of education statistics on foreign language education and national and state education law from 1899 to the present Analysis of this data is presented in multiple formats to describe the historical capacity of the education system to achieve reform A review of contemporary standards based education initiatives in states and school districts similarly serves to reflect how historical trends continue to restrict change Concise policy implications are suggested as a means to address historical precedence and the greater mission of general education in the development of education policy and its transformation into practice Policy development must include a greater understanding of the historical development of foreign language in general education This vital link has been lacking in the past century as foreign language has struggled to realign itself with the changing mission of general education For example there are distinct curricular differences between a general education for all students and one for leadership and higher education Only the latter makes room for solid foreign language education In addition the study of foreign language has remained primarily a beginning level endeavor for the majority of students over the past century This trend results in significant pressure on the beginning level curriculum particularly during periods of reform to provide multiple academic outcomes in education *LinguaBot: How AI is Revolutionizing Foreign Language Mastery* Khritish Swargiary,Kavita Roy,2024-03-01 *LinguaBot How AI is Revolutionizing Foreign Language Mastery* [Transforming the U.S. Military's Foreign Language, Cultural Awareness, and Regional Expertise Capabilities](#) United States. Congress. House. Committee on Armed Services. Oversight and Investigations Subcommittee,2010 [Performed Culture in Chinese Language Education](#) Guangyan Chen,2020-06-22 *Performed Culture in Chinese Language Education* A Culture Based Approach for U S Collegiate Contexts elaborates on a cultural awareness oriented cultural performance based and cross cultural communication focused foreign language pedagogical paradigm *Performed Culture Approach* in the context of U S collegiate Chinese language education Guangyan Chen draws on the data collected through questionnaires comparisons between this pedagogy and mainstream pedagogical frameworks and analyses of curricular development lesson plans and classroom discourses Chen promotes the performed culture approach by delineating the theoretical framework of this pedagogy reporting studies that

empirically support cultural primacy in Chinese language education and illustrating this pedagogy through analyses of a curricular structure a lesson plan and classroom discourses Chen shows how this pedagogy addresses the gaps between the social need for global citizens and the insufficient integration of culture into foreign language education The performed culture approach also addresses the overall drop in U S collegiate foreign language enrollment as this pedagogy connects foreign language programs to university missions and social needs

Trends and Developments for the Future of Language Education in Higher Education Xiang, Catherine Hua, 2021-06-25 Language education tends to require more face to face interaction and longer hours of both teaching and learning The challenges of ensuring the future and development of the discipline especially after a time of crisis is equally unprecedented A comprehensive overview of the global picture of best practices as well as research in recent times are needed in the field of language education particularly in higher education settings The changing nature of language education in terms of its policy curriculum design methodology and innovation is an essential discussion to advance the field It is critical to explore how a more collaborative global and interdisciplinary mindset as well as technologically driven approaches have emerged through recent years and how it will continue to shape the future development in the field Trends and Developments for the Future of Language Education in Higher Education captures the current trends and ongoing development within language education through a global picture of the best practices as well as the latest research on language education in higher education settings The chapters cover changes in policy curriculum design methodology and innovation in the modern language education landscape While focusing on the current situation of language education and the changes that it has been undergoing this book also provides information on future development and the overall outlook of language education This book is ideal for teachers instructional designers curricula developers inservice and preservice teachers administrators teacher educators practitioners researchers academicians and students looking for an overview of the current position of language education in higher education
