Shared Beliefs In A Society Social Psychological Analysis:

Shared Beliefs in a Society Daniel Bar-Tal,2000 *Shared Beliefs in a Society* Daniel Bar-Tal,2000-07-06 carefully argued this book will have special appeal to graduate students faculty social psychologists notably those yearning for Lewinian Approaches and group oriented sociologists Choice What kind of shared beliefs in a society are of importance to social systems What functions do they fulfill How are they informed and disseminated What are the societal consequences of shared beliefs All of these questions are addressed in this book in which Daniel Bar Tal develops the notion of societal psychology which he states can contribute a social psychological perspective to the study of a wide range of social problems in a society He shows how societal psychology can fulfill the promise of early social psychologists by directing attention to the societal and cultural contexts in which individuals live and by examining the reciprocal influence between these contexts and individuals In this comprehensive volume four themes of societal belief patriotism security siege mentality and deligitimization are examined through well defined examples and systematic analysis Researchers students and practitioners in social psychology sociology political science and anthropology will be stimulated and engaged by this important contribution to the field *Terrorist Minds: From Social-psychological Profiling To Assessing The Risk* Sagit Yehoshua,2020-10-19 This book s excellent discussion of the theories and concepts involved in profiling terrorists including those who are incarcerated is a major contribution to the academic discipline on these issues Perspectives on Terrorism Terrorist Minds From Social Psychological Profiling to Assessing the Risk explores the process of terrorist behavioural analysis from the social psychological profiling of terrorists to the development of risk assessment tools Most of the research for this book was conducted in cooperation with the Intelligence Department of the Israeli Prison Service via qualitative in depth interviews with leaders of terrorist organisations in Israeli prisons Once social psychological profiles were established terrorist risk assessment tools were developed to allow for better observation and practical management of associated problems This book fills the gaps in existing literature on the psychology of imprisoned terrorist group leaders through the analysis of individuals social professional and personal lives as well as their attitudes and perceptions The book also covers the practical aspects of risk assessment based on social psychological profiling and discusses relevant tools that have been developed in recent years It aims to better inform counter terrorism initiatives and policymaking as well as improve methods of communication counter terrorism and conflict resolution Narrative and the Politics of Identity Phillip L. Hammack,2011 Since the late nineteenth century Jews and Arabs have been locked in an intractable battle for national recognition in a land of tremendous historical and geopolitical significance While historians and political scientists have long analyzed the dynamics of this bitter conflict rarely has an archeology of the mind of those who reside within the matrix of conflict been attempted This book not only offers a psychological analysis of the consequences of conflict for the psyche it develops an innovative compelling and cross disciplinary argument about the mutual constitution of culture and mind

through the process of life story construction But the book pushes boundaries further through an analysis of two peace education programs designed to fundamentally alter the nature of young Israeli and Palestinian life stories Hammack argues that these popular interventions rooted in the idea of prejudice reduction through contact and the cultivation of cosmopolitan identities are fundamentally flawed due to their refusal to deal with the actual political reality of young Israeli and Palestinian lives and their attempt to construct an alternative narrative of great hope but little resonance for Israelis and Palestinians Grounded in over a century of literature that spans the social sciences Hammack's analysis of young Israeli and Palestinian lives captures the complex dynamic relationship among politics history and identity and offers a provocative and audacious proposal for psychology and peace education *Religion and Ethnocentrism* Dave Dean Capucio, 2010-05-10

Previous studies reveal that religion despite its ideal of solidarity hospitality and compassion has been the primary origin of ethnocentrism However other researches dispute this sweeping claim by indicating several other factors that affect this complex relationship This empirical theological study is an endeavour to dig deeper into these factors by examining the extent to which a number of religious images which are culled from five religious themes namely God Jesus Spirit salvation and church contribute to ethnocentrism It situates these religious attitudes within the framework of the Dutch civil religion and the different reactions to it by contemporary Dutch catholic believers **Historical Tales and National Identity** János László, 2013-11-20

Social psychologists argue that people's past weighs on their present Consistent with this view Historical Tales and National Identity outlines a theory and a methodology which provide tools for better understanding the relation between the present psychological condition of a society and representations of its past Author Janos Laszlo argues that various kinds of historical texts including historical textbooks texts derived from public memory e.g. media or oral history novels and folk narratives play a central part in constructing national identity Consequently with a proper methodology it is possible to expose the characteristic features and contours of national identities In this book Laszlo enhances our understanding of narrative psychology and further elaborates his narrative theory of history and identity He offers a conceptual model that draws on diverse areas of psychology social political cognitive and psychodynamics and integrates them into a coherent whole In addition to this conceptual contribution he also provides a major methodological innovation a content analytic framework and software package that can be used to analyse various kinds of historical texts and shed new light on national identity In the second part of the book the potential of this approach is empirically illustrated using Hungarian national identity as the focus The author also extends his scope to consider the potential generalizations of the approach employed Historical Tales and National Identity will be of great interest to a broad range of student and academic readers across the social sciences and humanities in psychology history cultural studies literature anthropology political science media studies sociology and memory studies **Personality, Human Development, and Culture** Ralf Schwarzer, Peter Frensch, 2010-06-17

These two volumes present the main contributions from the 29th International

Congress of Psychology held in Berlin in 2008 and are written by international leaders in psychology from around the world. The authors present a variety of approaches and perspectives that reflect cutting edge advances in psychological science. Personality Developmental Social and Cultural Issues provides an overview of advances in several areas of psychology such as clinical health social developmental and cross cultural psychology. One section of the volume is dedicated solely to emotions and health and addresses state of the art work on the regulation of self health social relations and emotions such as passion. Other sections deal with development and personality issues as well as conceptual cultural and ethnic approaches to modern psychology. The global perspective of this collection illustrates research being undertaken on all five continents and emphasizes the cultural diversity of the contributors. Emotions in Conflict Eran Halperin, 2015-12-07. Social and political psychologists have attempted to reveal the reasons why individuals and societies that acknowledge that peace would improve their personal and collective well being and are aware of the required actions needed to promote it are simply incapable of making this step forward. Some social psychologists have advocated the idea that certain societal beliefs and collective memories about the nature of the opponent the in group the history and the current state of the conflict distort the perceptions of society members and prevent them from identifying opportunities for peace. But these cognitive barriers capture only part of the picture. Could identifying the role of discrete emotions in conflicts and conflict resolution potentially provide a wide platform for developing pinpoint conflict resolution interventions? Using a vast array of primary sources critical literature analysis and firsthand personal experiences in various conflict zones Middle East Cyprus Bosnia and Northern Ireland Eran Halperin introduces a new perspective on psychological barriers to peace. Halperin focuses on various emotional mechanisms that hamper peace processes even when parties face real opportunities for conflict resolution. More specifically he explores how hatred anger fear angst hope despair empathy guilt and shame combined with various emotion regulation strategies provide emotions based explanations for people's attitudinal and behavioral reactions to peace related events during the ongoing process of conflict resolution. Written in a clear and accessible style Emotions in Conflict offers a thought provoking and pioneering insight into the role discrete intergroup

emotions play in impeding as well as facilitating peace processes in intractable conflicts This book is essential reading for those who study intractable conflicts and their resolutions and those who are interested in the real world implication of recent theories and findings on emotion and emotion regulation

The Social Psychology of Intractable Conflicts Eran Halperin, Keren Sharvit, 2015-07-01 This volume works explores a transferable theory of a specific social psychological infrastructure based on the work of Dr Daniel Bar Tal that develops from cultures immersed in intractable conflicts The book's approach to this issue is different from approaches that are predominant in social psychology This is because an important inspiration of many scholars that contributed to the book is their everyday experience of living in a region where intractable conflict shapes the life s of everybody who lives there On the basis of this experience and on the basis of extensive research an elaborate theory of intractable conflict was developed that deals with the origin of such conflicts the mechanisms that maintain them and the processes that may contribute to their peaceful solution In light of recent research and developments this volume demonstrates analyzes and reviews the theory of a social psychological infrastructure formed in societies with intractable conflicts It explores the contents of these elements of the infrastructure the processes through which they are acquired and maintained their functions the societal mechanisms that contribute to their institutionalization as well as their role in the crystallization of social identity and development of a culture of conflict By demonstrating that it can be applied to various kinds of intractable conflicts in various places of world the volume argues that the theory is transferable and universal Moreover the volume aims to exhibit new connections and integrations between Bar Tal's theories and other prominent theoretical frameworks in social and political psychology Presenting both a comprehensive overview of works that have been influenced by Bar Tal's theories and research as well as a wide gate to future studies that will connect Bar Tal's work to recent theoretical developments in related domains Understanding the Social Psychology of Intractable Conflicts Celebrating the Legacy of Daniel Bar Tal is an important text for all those interested in developing a sustainable peaceful world
