Shared Experience The Psychoanalytic Dialogue:

Shared Experience Luciana Nissim Momigliano, Andreina Robutti, 1992 This book presents a way to formulate from several points of view Psychoanalysis as an encounter between two persons and highlights the aspects of symmetry and affective exchange of this encounter where analysis is seen as a relationship between two minds In this shared experience the study of the mind of the Analyst and of his method of work grows in importance as the source of benefits and misdirections which can be exchanged in the encounter with the patient In this context the patient has an active role as an attentive and sensitive observer of the Analyst signaling errors and showing the road to be taken This change in the concept of psychoanalysis has evolved through many years from the Analyst acting to open the patient within himself while at the same time struggling against his own resistance to change to a vision of a Couple at Work Psychoanalysis is now a shared experience in which the listening and creating of internal space to the other within the self is the instrument and the journey

Shared Experience Luciana Nissim Momigliano, Andreina Robutti, 1992 This book presents a way to formulate from several points of view Psychoanalysis as an encounter between two persons and highlights the aspects of symmetry and affective exchange of this encounter where analysis is seen as a relationship between two minds In this shared experience the study of the mind of the Analyst and of his method of work grows in importance as the source of benefits and misdirections which can be exchanged in the encounter with the patient Continuity and Change in Psychoanalysis Luciana Nissim Momigliano, 2018-11-09 This book reflects certain continuity dealing with the issue of how to be an analyst through the different stages by which the author's psychoanalytic identity develops from candidate to analyst and sometimes on to training analyst in the continually changing world of our time **Reading Italian Psychoanalysis** Franco Borgogno, Alberto Luchetti, Luisa Marino Coe, 2016-02-22 Winner of the American Board Academy of Psychoanalysis Prize for best Edited book published in 2016 Psychoanalysis in Italy is a particularly diverse and vibrant profession embracing a number of influences and schools of thought connecting together new thinking and producing theorists and clinicians of global renown Reading Italian Psychoanalysis provides a comprehensive guide to the most important Italian psychoanalytic thinking of recent years including work by major names such as Weiss E Gaddini Matte Blanco Nissim Momigliano Canestri Amati Mehler and Ferro It covers the most important theoretical developments and clinical advances with special emphasis on contemporary topics such as transference trauma and primitive states of mind where Italian work has been particularly influential In this volume Franco Borgogno Alberto Luchetti and Luisa Marino Coe of the Italian Psychoanalytical Society provide an overview of how Italian psychoanalysis has developed from the 1920s to the present day tracing its early influences and highlighting contemporary developments Forty six seminal and representative papers of psychoanalysts belonging to the two Italian psychoanalytical societies the Italian Psychoanalytical Society and the Italian Association of Psychoanalysis have been chosen to illuminate what is special about Italian theoretical and clinical thinking and what is

demonstrative of the specificity of its psychoanalytic discourse The selected papers are preceded by a first introductory section about the history of psychoanalysis in Italy and followed by a swift glance at Italian psychoanalysis from abroad They are grouped into sections which represent the areas particularly explored by Italian psychoanalysis Each section is accompanied by introductory comments which summarize the main ideas and concepts and also their historical and cultural background so as to offer to the reader either an orientation and stimulus for the debate and to indicate their connections to other papers included in the present volume and to the international psychoanalytic world The book is divided into six parts including History of psychoanalysis in Italy Metapsychology Clinical practice theory of technique therapeutic factors The person of the analyst countertransference and the analytic relationship field Trauma psychic pain mourning and working through Preverbal precocious fusional primitive states of the mind This volume offers an excellent and detailed fresco of Italian psychoanalytic debate shining a light on thinking that has evolved differently in France England North and Latin America It is an ideal book for beginners and advanced students of clinical theory as well as experienced psychoanalysts wanting to know more about Italian psychoanalytic theory and technique and how they have developed

Psychoanalytic Practice Today Antonino Ferro, 2019-06-21 Psychoanalytic Practice Today offers the reader a good understanding of the school of thought inspired by the late work of Wilfred R Bion The contributors share a belief in the curative power of the analytic encounter and in the capacity of the human mind to develop from the encounter with a mind capable of reverie dreaming and thinking The multitude of vignettes presented emphasise the necessity of the emotional involvement of the analyst with his or her patients for improvement to take place The book is divided in two parts Psychopathology and Emotions and Feelings The first part adapts a more classic description of psychiatric disorders by diagnostic criteria from neuroses to psychoses and including depression and borderline states The second part of the book takes a closer look at specific clinical manifestations of basic emotions such as anger surprise sadness and more complex ones such as jealousy abandonment and betrayal The common thread is represented by the central place of dreaming in the psychoanalytic field as a tool to understand these clinical manifestations and to allow for their psychic representation as an emotional experience The contributions together offer a varied introduction to current ideas that are growing increasingly interesting to English speaking readers with a sufficient character of originality irreverence and creativity that bears witness to the maturity of Italian psychoanalysis Psychoanalytic Practice Today will offer new ideas to the practicing psychoanalyst and psychodynamic psychotherapist

Bion's Legacy Harry Karnac, 2019-06-24 This book forms a comprehensive bibliography of the works of W R Bion and the other works that made some bearing of his life and thought It discusses Bion's contribution to various disciplines beyond the psychoanalytic and psychotherapeutic

The Bi-Personal Field Antonino Ferro, 2003-09-02 In The Bi Personal Field Antonino Ferro sets out his new conceptual system for analysis considering not only the inner world of the patient but the continued interaction of that world with the inner world of the analyst The book takes a fresh look at the main

aspects of theory and technique in psychoanalysis in the light of Kleinian developments It reflects the drastic changes due to the thinking of Bion Illustrated with numerous detailed clinical examples the author claims that the basic focus of the analytic relationship is the conscious and unconscious interpersonal intersubjective processes going on between the analyst and patient *Psychoanalysis and Dreams* Antonino Ferro,2019-02-07 *Psychoanalysis and Dreams* explores some of the

cornerstones of Antonino Ferro's theoretical model but also attempts to extend the dreamlike boundaries of the model Based on Bion's theory of alpha function and the analytic field Ferro has developed his own original theorization of transformations in dreams and of work in the analytic session as a waking dream Clearly highlighted in the book is Ferro's theory that transformation in dreams is the activity which is constantly carried out in the mind of the analyst who nullifies the reality status of the patient's communication and considers the patient's narrative as a dream which must be constructed in real time in the encounter between the two minds at work At the centre of Ferro's theoretical proposal stands the transition from a psychoanalysis of contents to a psychoanalysis which develops the apparatus for thinking based on the conception of an unconscious in a perennial state of construction and transformation which must be dreamed and which continuously expands as it is dreamed *Psychoanalysis and Dreams* is written for practicing and training psychoanalysts psychotherapists and psychiatrists and will be helpful in everyday psychoanalytic and psychotherapeutic work **Contemporary Bionian**

Theory and Technique in Psychoanalysis Antonino Ferro,2017-09-20 Psychoanalytic theory has developed very rapidly in recent years across many schools of thought One of the most popular builds on the work of Wilfred Bion *Contemporary Bionian Theory and Technique in Psychoanalysis* provides a concise and comprehensive introductory overview of the latest thinking in this area with additional contemporary theoretical influences from Freud Klein and Winnicottian thought Through explorations of the history theory and clinical practice of psychoanalysis Ferro and contributors reveal the changes and developments it has undergone in the research laboratory of the consulting room *Contemporary Bionian Theory and Technique in Psychoanalysis* brings together the theories clinical practice and techniques that have gradually been developed in a variety of cultural contexts exploring how they are understood clarified and enriched by various analysts in daily practice The book is circular opening many paths of access to the reader It aims to revive an experience of creative dialogue exactly as occurs in analysis when two minds think and dream together to transform each other reciprocally The book sets forth for instance a new model of the mind called the oneiric model taking inspiration from Bion's conceptualizations and field theory Covering central psychoanalytic concepts such as transference dreams and child analysis this book provides an excellent introduction to the most important contemporary features of Bionian theory and practice *Contemporary Bionian Theory and Technique in Psychoanalysis* will appeal to psychoanalysts and psychotherapists in training and practice as well as students of psychiatry and psychology **Psychoanalysis as Therapy and Storytelling** Antonino Ferro,2012-07-26 Is

psychoanalysis a type of literature Can telling stories help us to get at the truth *Psychoanalysis as Therapy and Storytelling*

examines psychoanalysis from two perspectives as a cure for psychic suffering and as a series of stories told between patient and analyst Antonino Ferro uses numerous clinical examples to investigate how narration and interpretation are interconnected in the analytic session He draws on and develops Bion's theories to present a novel perspective on subjects such as psychoanalysis as a particular form of literature sexuality as a narrative genre or dialect in the analyst's consulting room delusion and hallucination acting out the countertransference and the transgenerational field play characters narrations and interpretations Psychoanalytic clinicians and theoreticians alike will find the innovative approach to the analytic session described here of great interest Winner of the 2007 Sigourney Award

Shared Experience The Psychoanalytic Dialogue Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the power of words has become more evident than ever. They have the capability to inspire, provoke, and ignite change. Such could be the essence of the book **Shared Experience The Psychoanalytic Dialogue**, a literary masterpiece that delves deep to the significance of words and their effect on our lives. Written by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we will explore the book's key themes, examine its writing style, and analyze its overall impact on readers.
