Sharing Security The Political Economy Of Burdensharing:

Sharing Security M. Chalmers, 2016-04-30 Sharing Security is a unique and comprehensive study of a key yet often neglected feature of modern international society It begins by assessing how political theory can contribute to an understanding of international burdensharing It then analyses in turn why some Western states contribute more than others to common defences the European Union budget and overseas development aid It highlights the particular burdensharing problems involved in global regimes focusing on the UN s continuing financial crisis and the costs of combating global warming It argues that today s burdensharing disparities continue to be shaped by the particular character of the international settlement at the end of the Second World War

Military Expenditure Saadet Deger, Somnath Sen, 1990 The purpose of this book is to analyse world military expenditure at the end of the 1980s and to discuss its political and economic implications After a decade of unprecedented expansion of international military spending its level is falling though modestly Political developments in Europe and the success of arms control negotiations raise hopes for further reductions In addition technological and economic structural disarmament is adding to the pressure for reductions However performance has not matched up to promises and formidable obstacles to defence spending limitations still remain Military Expenditure surveys recent events and describes the process of change that characterizes international military expenditure and its determinants at this time of transformation

Routledge Handbook of NATO John Andreas Olsen, 2024-06-10 This handbook provides a comprehensive survey of the development and importance of the North Atlantic Treaty Organisation NATO its role in international relations and its influence on history The volume examines the Alliance s evolution in breadth depth and context by analysing and explaining why and how NATO has endured and remained relevant since its creation To present an inclusive study of the Alliance s activities and milestone events and to offer a glimpse of future challenges the book s 29 chapters fall into six thematic sections that act as frameworks and allow the exploration of specific topics that pertain to the evolution of NATO Part I History of NATO 1949 2024 Part II Key Enduring Themes 1949 2024 Part III Military Operations 1995 2024 Part IV National Perspectives 1949 2024 Part V Regional Perspectives 1949 2024 Part VI Future Prospects 2024 This handbook will be of much interest to students and researchers of NATO strategic studies defence studies and International Relations as well as for staff and fellows at security and defence oriented think tanks and government officials military personnel and other practitioners in the areas of foreign affairs and defence

Theorising NATO Mark Webber, Adrian Hyde-Price, 2015-11-19 Scholarship on NATO is often preoccupied with key episodes in the development of the organisation and so for the most part has remained inattentive to theory This book addresses that gap in the literature It provides a comprehensive analysis of NATO through a range of theoretical perspectives that includes realism liberalism and constructivism and lesser known approaches centred on learning public goods securitisation and risk Focusing on NATO s post Cold War development it considers the conceptualisation purpose and future of the Alliance This book will be of interest

to students and scholars of international organisation international relations security and European Politics The Role of the G8 in International Peace and Security Risto Penttilä, 2013-06-17 This Adelphi Paper is the first concise yet comprehensive analysis of the role of the G8 in international peace and security It argues that the G7 8 has a long and impressive history in the field of international security The G7 8 has for example spearheaded the introduction of low politics and soft security to the top table of great power diplomacy and integrated Japan and later Russia into the realm of Western security discussions In questions of war and peace the G8 does not command the legitimacy of the UN Security Council but for the international community is a more acceptable vehicle than unilateral action As such the G8 can be seen as a note worthy second best option after the UN Security Council This Paper further argues that China should be admitted into the G8 first as an observer and later as a member There is also a strong argument for the European Union to have one seat at the G8 even if such a change does not seem realistic today The G8 bears great resemblance to the 19th century Concert of Europe Whether it will assume a similar role in the 21st century depends in the final analysis on whether the United States welcomes such a role for the G8 *Power, Economics, And Security* Henry Bienen, 2019-10-16 This volume is dedicated to the memory of Klaus E Knorr This is fitting for a number of reasons The collaborative work here was done under the auspices of the Center of International Studies at Princeton University which Klaus Knorr directed from 1961 until 1968 The concerns of this book are to analyze the relationships among economic and military power and national security to explore the ways economic power and economic decline relate to international hegemony and to examine our understanding of concepts such as power security and burden sharing These concerns ranked high on Klaus Knorr's research agenda during his productive and fruitful life

The Burden-Sharing Dilemma Brian D. Blankenship, 2023-11-15 The Burden Sharing Dilemma examines the conditions under which the United States is willing and able to pressure its allies to assume more responsibility for their own defense The United States has a mixed track record of encouraging allied burden sharing while it has succeeded or failed in some cases it has declined to do so at all in others This variation Brian D Blankenship argues is because the United States tailors its burden sharing pressure in accordance with two competing priorities conserving its own resources and preserving influence in its alliances Although burden sharing enables great power patrons like the United States to lower alliance costs it also empowers allies to resist patron influence Blankenship identifies three factors that determine the severity of this burden sharing dilemma and how it is managed the latent military power of allies the shared external threat environment and the level of a patron's resource constraints Through case studies of US alliances formed during the Cold War he shows that a patron can mitigate the dilemma by combining assurances of protection with threats of abandonment and by exercising discretion in its burden sharing pressure Blankenship's findings dismantle assumptions that burden sharing is always desirable but difficult to obtain Patrons as the book reveals can in fact be reluctant to seek burden sharing and attempts to pass defense costs to allies can often be successful At a time when skepticism of alliance benefits remains high and global

power shifts threaten longstanding pacts The Burden Sharing Dilemma recalls and reconceives the value of burden sharing and alliances **The US, NATO and Military Burden-Sharing** Stephen J. Cimbala, Peter Forster, 2005-10-21 This study establishes that the political economic and military technological changes that transform the international system also alter the way in which a state views its and others responsibilities and burdens for responding to international crises It assesses the distribution of the costs of raising and supporting arms of service the risks of deploying them overseas and using them in combat or peace operations and the extent to which members have a responsibility for maintaining international order in the context of three instances of multinational military intervention the Multinational Force deployment in Lebanon in 1982 83 the first Persian Gulf War in 1990 91 and the UN and NATO intervention in Bosnia Herzegovina **Sharing the Burden?** Benjamin Zyla, 2015-01-01 Benjamin Zyla rejects the claim that countries like Canada have shirked their responsibilities within NATO since the fall of the Berlin Wall Common Security Interests in the Pacific and how the Cost and Benefits of Those Interests are Shared by the U.S. and Its Allies United States. Congress. House. Committee on Armed Services. Defense Burdensharing Panel, 1989
