Colonizing Bodies Mary-Ellen Kelm, 1998 Recent debates about the health of First Nations peoples have drawn a flurry of public attention and controversy and have placed the relationship between Aboriginal well being and reserve locations and allotments in the spotlight Aboriginal access to medical care and the transfer of funds and responsibility for health from the federal government to individual bands and tribal councils are also bones of contention Comprehensive discussion of such issues however has often been hampered by a lack of historical analysis *Colonizing Bodies* examines the impact of colonization on Aboriginal health in British Columbia during the first half of the twentieth century Mary Ellen Kelm explores how Aboriginal bodies were materially affected by Canadian Indian policy which placed restrictions on fishing and hunting allocated inadequate reserves forced children into unhealthy residential schools and criminalized Indigenous healing She goes on to consider how humanitarianism and colonial medicine were used to pathologize Aboriginal bodies and institute a regime of doctors hospitals and field matrons all working to encourage assimilation Finally Kelm reveals how Aboriginal people were able to resist and alter these forces in order to preserve their own cultural understanding of their bodies disease and medicine

The Intimacy of Images Myriam Lamrani, 2025 It's been said that Oaxacans believe in images Visual manifestations of saints and loved ones are a fundamental part of life there Oaxacans also seem to have a special relationship with La Santa Muerte a female reaper like figure whose cult has grown rapidly as violence in Mexico has increased In this book Myriam Lamrani recontextualizes Santa Muerte within Mexican Catholicism by looking at how intimately devotees interact with images including effigies tattoos artworks photographs even dreams of the infamous saint For Lamrani focusing on the intimate modalities through which people interact with their images offers insight into religious social and political life as well as anthropology itself The media turn in anthropology often considers religion as mediation and media as a bridge with the divine Lamrani suggests that it is intimacy with rather than mediation through such images that make the dead be they former humans loved ones or divine entities Santa Muerte present for the living She is essentially using aesthetics and affect theory to make intimacy her theoretical frame rather than visual analysis or the media turn The manuscript has six chapters divided into three sections The first section explores what constitutes an image how to move beyond the idea of it as medium and how dreams play into these ideas Part two unpacks

her ideas about intimacy particularly devotional intimacy and the very special dead loved ones and saints The final section covers how images transcend boundaries through different scales of intimacy from an individual's devotion to their ofrenda altar to the Mexican nation's famously intimate relationship with death A conclusion reflects on devotion to Santa Muerte in Mexico within the landscape of popular religion and political unrest and summarizes the central argument of this book that intimacy understood as a scalable index of closeness which traverses all spheres of sociality is an anthropological tool to make sense of how people understand their worlds
