through an ethic of love This book fills this significant gap not only reconnecting the reader with such important wisdom and more crucially also reorienting our socio economic institutions and collective actions towards more loving and caring and more concerned with the qualities of our lived experiences By re discovering the gifts of love we may challenge the existing systemic dehumanisation and draw from knowledge and understanding already present in our culture This is timely because the global crises we are facing are catastrophic especially when it comes to climate change Therefore we must respond from a place of love rather than fear Whether it is reducing the use of fossil fuels lowering greenhouse emission choosing the right food to eat or advocating for structural transformation our concerted endeavours start with an appropriate appreciation of the nature of our well being which includes the planet s well ness This book highlights a clear pathway forward to ensure collective healing and co flourishing with nature we must practise the art of loving **Junie's Love Test** Laura Jean Libbey,1886 **The Pulse of Sense** Marie Chabbert,Nikolaas Deketelaere,2022-03-30 This volume stages a series of encounters between the French philosopher Jean Luc Nancy and leading scholars of his work along four major themes of Nancy s thought sense experience existence and Christianity In doing so the volume seeks to remind readers that Nancy s sens has many meanings in French aside from those that easily carry over into English i e everything to do with meaning and the senses it also includes the way they are conducted the direction they take the thrust or pulse in which the circulation of sense exists Faithful to this plural understanding of sens the writings collected here aim to join Jean Luc Nancy in the process of making sense that animates his thinking rather than to deliver a definitive summary of his position on any given issue They are conceived of as notes along the way documenting encounters as moments of re direction and recording the pulse of sense that animates them In that spirit Nancy himself has provided each contribution with an echo in which he in turn responds to each author and thereby continues their mutual encounter Aside from these echoes this volume includes an original essay in which Nancy reflects upon the international trajectory of his thinking a trajectory that is to be and undoubtedly will be continued in many different directions across and around the world The chapters in this book were originally published as a special issue of *Angelaki* **English Couplets** M.R.
