Shaw Abroad:

Bernard Shaw's Marriages and Misalliances Robert A. Gaines, 2017-10-25 This book combines the insights of thirteen Shavian scholars as they examine the themes of marriage relationships and partnerships throughout all of Bernard Shaw's major works. It also connects Shaw's own experiences of love and marriage to the themes that emerge in his works, showing how his personal relationships in and out of matrimonial bonds change the ways his characters enter and exit marriages and misalliances. While providing a wealth of new analysis, this collection of essays also leaves lingering questions for the reader to spark continuing dialogue in both individual and academic settings.

Bernard Shaw's Bridges to Chinese Culture Kay Li, 2016-11-10 This book explores the cultural bridges connecting George Bernard Shaw and his contemporaries such as Charles Dickens and Arthur Miller to China. Analyzing readings, adaptations, and connections of Shaw in China through the lens of Chinese culture, Li details the negotiations between the focused and culturally specific standpoints of eastern and western culture while also investigating the simultaneously diffused multi-focal and comprehensive perspectives that create strategic moments that favor cross-cultural readings. With sources ranging from Shaw's connections with his contemporaries in China to contemporary Chinese films and interpretations of Shaw in the digital space, Li relates the global impact of not only what Chinese lenses can reveal about Shaw's world but how intercultural and interdisciplinary readings can shed new light on familiar and obscure works alike.

Shaw's Farm Hannah Jane Locker-Lampson, 1880 Hearings United States Congress. House, 1958

Observing America Robert Frankel, 2007-01-05 Beginning with Alexis de Tocqueville and Frances Trollope, visitors to America have written some of the most penetrating and occasionally scathing commentaries on U.S. politics and culture. *Observing America* focuses on four of the most insightful British commentators on America between 1890 and 1950. The colorful journalist W.T. Stead championed Anglo-American unity while plunging into reform efforts in Chicago. The versatile writer H.G. Wells fiercely criticized capitalist America but found reason for hope in the administrations of Theodore Roosevelt and Franklin Roosevelt. G.K. Chesterton, one of England's great men of letters, urged Americans to preserve the vestiges of Jeffersonian democracy that he still discerned in the small towns of the heartland. And the influential political theorist and activist Harold Laski assailed the business ethos that he believed dominated the nation, especially after Franklin Roosevelt's death. Robert Frankel examines the New World experiences of these commentators and the books they wrote about America. He also probes similar writings by other prominent observers from the British Isles, including Beatrice Webb, Rudyard Kipling, and George Bernard Shaw. The result is a book that offers keen insights into America's national identity in a time of vast political and cultural change.
