An Index Guide to the Shelf Classification of the Harvard College Library Harvard College Library, 2016-08-21 Excerpt from An Index Guide to the Shelf Classification of the Harvard College Library I Plans of the Bookstack II Index of Shelf Marks III Index of Subjects A few notes on the classification systems in use in the Harvard Library and on their history are necessary in order to explain the character of the shelf marks indexed in this Guide A Down to 1877 the books of the Library were shelved in alcoves each alcove devoted to a general subject but no attempt at minute classification was made The shelf mark e.g. Indicated the number of the alcove and the number of the

shelf The alcove numbers ran from 1 to 51 and many half numbers were interpolated for alcoves which had been subdivided as the Library grew see pp 15 Books which have not yet been reclassified still bear these numbers and in calling for them it is necessary to give the title of the book wanted since the mark indicates only the shelf and not the individual book About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Shelf list Archibald Hanna,1960 *Shelf Classification List* London Library,Charles Theodore Hagberg Wright,1899 **Lighted Glass and Wood Display Case with 1 Shelf** ,1974
