backgrounds of both civilizations were so profoundly different that nearly no dialogue was possible the 18th century saw the emergence in both places of profound changes that would get them close enough to create the conditions for the beginning of a conversation First quite superficial and taking shape mostly in the decorative arts this process of rapprochement while remaining chaotic and unpredictable led to wider and more profound zones of contact throughout the late 19th and 20th centuries Through the reinterpretations of each other s cultural creations these zones of contact grew wider as the conditions for globalization became more and more prevalent Frank Vigneron observes and explores these changes through texts and the visual arts to reveal how these two civilizations while keeping their own characteristics managed to develop fruitful dialogues and create deeply intertwined cultures As an example the final chapter looks at contemporary Chinese calligraphy as an art that even though it has no equivalent in Euro America successfully integrated cross cultural theoretical elements thus exemplifying how past and outside can combine into new artistic constructs
