Mastery Interviews With 30 Remarkable People:

Learning and Leading with Habits of Mind Arthur L. Costa, Bena Kallick, 2008 Revised and expanded from the original 4 book Habits of Mind series this compelling volume shows how developing strong habits of mind is an essential foundation for leading teaching learning and living well in a complex world **Practical Kabbalah** Laibl Wolf, 2010-05-19 Kabbalah is an ancient Jewish wisdom that explains the laws of spiritual energy Up until very recently the Kabbalah was reserved for the elite those who only after years of scholarship and practice were allowed to enter this mystical realm However one doesn't need to devote one's life to intense study to reap the rich rewards of the Kabbalah With just a basic understanding of a few key concepts our lives can be enriched immensely We can then begin to fulfill our deepest dreams and reach our most important goals becoming the people we long to become By learning to understand the Sefirot the ten spiritual properties that flow from the cosmic source into our heart we can connect to the universe and profoundly transform our experience of daily life For example Hessed or loving kindness represents the desire to be generous while Gevurah is the desire to focus intently or withhold These properties must be balanced in order for harmony and well being to occur Rabbi Laibl Wolf shows how to maintain that balance and enjoy a healthy and productive life by using simple meditation and creative visualization techniques to grasp the spiritual nature of our life Practical Kabbalah draws upon ancient wisdom but offers a modern interpretation and easy to understand techniques for delving deeper into our selves and our world and for reaping the bounteous gifts that were always meant for us Eddie Rickenbacker W. David Lewis, 2005-12-08 David Lewis has written the definitive biography of America's ace of aces The School as a Home for the Mind Arthur L. Costa, 2008 Within this robust collection the reader is soon privy to a noble and notable vision of schooling in which mindfulness permeates the metaphorical walls of the school and all of its structural components the curriculum the instruction and the reflective practices of those immersed in the vision From the Foreword by Robin Fogarty What is the next best thing to having the opportunity to be in one of Art Costa's presentations It is clearly the opportunity to read and reread his work He has a knack for making the theoretical understandable and the practical practice able Bena Kallick Educational Consultant Art Costa has done more than anyone I can think of to advance the practical cause of more thoughtful education David Perkins Professor of Education Harvard University Create a culture where the process of thinking is the content of instruction This unique guide reflects the author's best and most recent research theory and practice for the teaching of thinking Arthur L. Costa explains why educators need to integrate explicit thinking instruction into daily lessons illustrates what the instruction of thinking looks like in the classroom and identifies the curricular changes that can have the most positive impact The text also examines Curriculum mapping efforts that support the teaching of thinking Specific teaching behaviors that foster students thinking processes Cognitive coaching that encourages a high level of performance Metacognitive mediations that connect immediate lessons to lifelong learning *Habits of Mind Across the Curriculum* Arthur L.

Costa, Bena Kallick, 2009-01-15 Distinguished educators Arthur L Costa and Bena Kallick present this collection of stories by educators around the world who have successfully implemented the habits in their day to day teaching in K 12 classrooms The collective wisdom and experience of these thoughtful practitioners provide readers with insight into the transdisciplinary nature of the 16 Habits of Mind intelligent behaviors that lead to success in school and the larger world as well as model lessons and suggestions for weaving the habits into daily instruction in language arts music physical education social studies math foreign language and other content areas Readers will come to understand that far from an add on to the curriculum the habits are an essential element for helping students at all grade levels successfully deal with the challenges they face in school and beyond As in all their books on the Habits of Mind Costa and Kallick have a broad and worthwhile goal in mind As they say in the concluding chapter of this volume If we want a future that is much more thoughtful vastly more cooperative greatly more compassionate and a whole lot more loving then we have to invent it That future is in our homes schools and classrooms today The Habits of Mind are the tools we all can use to invent our desired vision of the future Cognitive Capital: Investing in Teacher Quality Arthur L. Costa, Robert J. Garmston, Diane P. Zimmerman, 2014 Building on the authors celebrated work in cognitive coaching this important book provides teachers schools and policy leaders with the rationale and new direction for enhancing the development of the intellectual capacity of educators their performance and their ultimate effects on student learning The authors focus on assisting teachers in developing awareness in their own ability to make effective judgements based on all their capabilities and experiences When teachers weave internal expertise and external criteria together into the exquisite tapestry of teaching and learning they gain confidence in their ability to make a difference for all students Rather than spending time becoming better inspectors and enforcers Cognitive Capital calls for skillful leaders to engage educators through processes which promote practices that have high impacts on their students
