American Fatherhood Lawrence R. Samuel,2015-11-05 American Fatherhood A Cultural History traces changes in what it means to be a dad in America from the 1960s through today The book begins with an overview of fatherhood in America from the founding fathers through the 1950s and progresses to the role of fathers as they were encouraged to move beyond being simply providers to becoming more engaged parents navigating complex and changing gender and family expectations By tracing the story of fatherhood in the United States over the course of the last half century American Fatherhood reveals key insights that add to our understanding of American culture The book argues that for most of the twentieth century male parents were urged to embrace the values and techniques of motherhood In recent years however fathers have rejected this model in place of one that affirms and even celebrates their maleness and their relationships with their children After decades of attempting to adopt the parenting styles of women in other words men have finally forged a form of child raising that is truer to themselves In short fatherhood has become a means of asserting rather than denying or suppressing

masculinity an original and counterintuitive argument that makes us rethink the idea and practice of being a dad today

The Ideal Orator, 1904 *The American Literary Reciter*, 1902 **The New Select Speaker ...** Josephine W. Stratton, Jeannette M. Stratton, 1902 **The New Century Perfect Speaker** John Coulter, 1901 **The Delsarte Speaker Or Modern Elocution Designed Especially for Young Folks and Amateurs** Henry Davenport Northrop, 1895 **The Delsarte Speaker; Or, Modern Elocution** Henry Davenport Northrop, 1895
