CINE Y FRONTERA Graciela Martínez-Zalce, Juan Carlos Vargas, 2014-05-13 Los estudios sobre la frontera en sus acepciones geográfica y simbólica se han renovado a partir de los años noventa en parte debido a los cambios sociales

generados por la circulación transnacional de productos culturales y la globalización. Desde el ámbito de los estudios culturales por ejemplo se exploran con nuevos ojos temas como el espacio, la migración, el exilio, la diáspora, la hibridación cultural o las nuevas geografías y nos llevan a cuestionar los conceptos tradicionales de Estado y nación. En el campo de la investigación cinematográfica el concepto de frontera cobra en nuestros días una importancia considerable. Desde las perspectivas más amplias hasta los estudios de caso en este libro se ofrecen diversas visiones frías y heterogéneas de su objeto y abren senderos para posteriores incursiones en el tema.

Fronteras en movimiento María del Rosío Barajas Escamilla, Sergio Alonso Snadoval Godoy, 2024-12-16. Las reconfiguraciones y funciones de las fronteras en las últimas décadas no pueden entenderse al margen de la globalización. Este fenómeno macrosocial cobró fuerza después de la primera mitad del siglo XX y ha mostrado limitaciones analíticas desde el inicio del siglo XXI en parte por los esfuerzos de las regiones fronterizas por desarrollar sus propios modelos de desarrollo. Para gestionar la importancia de estas reconfiguraciones surge el concepto de gobernanza transfronteriza que también ha revelado limitaciones analíticas debido a la complejidad de la negociación entre actores en la interacción multinivel. Este libro recoge el esfuerzo de investigadores e investigadoras de diversas instituciones nacionales y extranjeras ofreciendo un análisis comprensivo de las transformaciones del siglo XXI en las fronteras para lo cual se utilizan categorías binarias como integración, desintegración, fronterización, desfronterización y cooperación, conflicto para explicar procesos y dinámicas socioterritoriales. Los enfoques presentados constituyen una herramienta práctica para estudiosos e interesados en las regiones fronterizas lo que permite observar las características y orientación de los cambios recientes y ofrecer una perspectiva analítica teóricamente novedosa.

Nuevas perspectivas desde, sobre América Latina Mabel Moraña, 2000. El tema de la violencia es connatural a la historia de América Latina y por lo mismo resulta inagotable en cualquiera de sus múltiples manifestaciones materiales y simbólicas desde los orígenes coloniales hasta la actualidad. A nivel continental la praxis y el discurso de la violencia pueden perseguirse desde la penetración de la depredación colonizadora con que América Latina es inscrita en el desarrollo cultural de Occidente hasta llegar a las más recientes y sutiles formas asumidas por la violencia de Estado pasando por las instancias de imposición de modelos culturales y económicos que en las distintas épocas impactaron radicalmente las culturas criollas y vernáculas. América Latina ha sufrido históricamente las consecuencias de una violencia fundacional que la condenara a una posición periférica con respecto a sistemas globales cuyos centros han difundido en sus correspondientes áreas de influencia la racionalidad de su propia reproducción cultural política y económica. De esta manera la trama social que resultara de la matriz colonialista registró desde el comienzo las huellas imborrables de la violencia que se manifestara tanto a nivel racial como económico tanto en lo referido a las políticas de género como en lo relacionado con la distribución geocultural del poder en todos sus niveles. Las dolorosas repúblicas hispanoamericanas de que hablara Martí se han debatido desde entonces contra las formas naturalizadas de la violencia de la exclusión y el autoritarismo, la miseria interna y la depredación imperialista, la penetración cultural, las intervenciones políticas

siempre amparadas en la retórica legitimadora que las clases dominantes esgrimieran en cada caso para perpetuar su poder. El presente volumen que compila trabajos que fueron presentados y discutidos en la Segunda Conferencia Internacional de Estudios Culturales Latinoamericanos que se llevara a cabo en la Universidad de Pittsburgh en marzo del año 2000 tiene como foco principal una articulación específica en torno al tema de la violencia contemporánea la que analiza los cruces y formas específicas en que la violencia se manifiesta teniendo como escenario principal los centros urbanos de América Latina y las modalidades a partir de las cuales el fenómeno de la violencia es recogido y representado por los medios de comunicación de masas tanto como por la cultura popular el arte la literatura y otras formas de discurso letras y la alta cultura. The theme of violence is natural to the history of Latin America and therefore it is endless in any of its multiple material and symbolic manifestations from its colonial origins to the present. At a continental level the praxis and discourse of violence can be traced back to the spread of the colonising voracity that conditioned Latin America within the cultural development of the West followed by the most recent and subtle forms assumed by state violence including the instances of imposition of cultural and economic models that at the different times radically impacted the Creole and vernacular cultures. Thus Latin America has historically suffered the consequences of a founding violence which condemned it to a peripheral position in relation to global systems which centres have spread in their corresponding areas of influence the rationality of their own cultural political and economic replication. In this way the social fabric resulting from the colonialist matrix has recorded from the beginning the indelible traces of violence that are displayed both at racial and economic levels both in terms of gender policies and in terms of the geocultural distribution of power at all levels. The painful Spanish American republics of which Martí spoke have since fought against the normalisation of the violence of exclusion and authoritarianism the internal misery and imperialistic greed the cultural colonisation and political actions always condoned by a legitimising rhetoric that the ruling classes wielded in every instance to perpetuate their power. This volume which compiles papers that were presented and discussed at the Second International Conference on Latin American Cultural Studies to be held at the University of Pittsburgh in March 2000 has as its main focus a specific articulation around the topic of contemporary violence it analyses the intersections and specific ways in which violence presents itself in the urban centres of Latin America as its main scenario and the modalities from which the phenomenon of violence is recorded and represented by the mass media as well as popular culture art literature and other forms of literary discourse and high culture.

Chicano Nations Marissa K. López, 2011-10. This book argues that the transnationalism that is central to Chicano identity originated in the global postcolonial moment at the turn of the nineteenth century rather than as an effect of contemporary economic conditions which began in the mid nineteenth century and primarily affected the laboring classes. The Spanish empire then began to implode and colonists in the new world debated the national contours of the viceroyalties. This is where the author locates the origins of Chicano literature which is now and always has been postnational encompassing the wealthy the poor the white

Revisiting Education in the New Latino Diaspora Edmund Hamann, Stanton Wortham, Enrique G. Murillo, 2015-04-01 For most of US history most of America's Latino population has lived in nine states California Arizona New Mexico Colorado Texas Illinois Florida New Jersey and New York It follows that most education research that considered the experiences of Latino families with US schools came from these same states But in the last 30 years Latinos have been resettling across the US attending schools and creating new patterns of inter ethnic interaction in educational settings Much of this interaction with this New Latino Diaspora has been initially tentative and improvisational but too often it has left intact the patterns of lower educational success that have prevailed in the traditional Latino diaspora *Revisiting Education in the New Latino Diaspora* is an extensive update with all new material of the groundbreaking volume *Education in the New Latino Diaspora* Ablex Publishing that these same editors produced in 2002 This volume consciously includes a number of junior scholars e g C Allen Lynn Soria Colomer Amanda Morales Rebecca Lowenhaupt Adam Sawyer and more established ones Frances Contreras Jason Irizarry Socorro Herrera Linda Harklau as it considers empirical cases from Washington State to Georgia from the Mid Atlantic to the Great Plains where rural suburban and urban communities start their second or third decades of responding to a previously unprecedented growth in newcomer Latino populations With excuses of surprise and improvisational strategies less persuasive as Latino newcomer populations become less new this volume considers the persistence the anomie and pragmatism of Latino newcomers on the one hand with the variously enlightened paternalistic dismissive and xenophobic responses of educators and education systems on the other With foci as personal as accounts of growing up as an adoptee in a mixed race family and the testimonio of a successful undocumented college graduate to the macro scale of examining state level education policies and with an age range from early childhood education to the university level this volume insists that the worlds of education research and migration studies can both gain from considering the educational responses in the last two decades to the newish Latino presence in the 41 U S states that have not long been the home to large well established Latino populations but that now enroll 2.5 million Latino students in K 12 alone Timely and compelling *Revisiting Education in the NLD* offers new insight into the Latino Diaspora in the US just as

the discussions regarding immigration policy bilingual education and immigrant rights are gaining steam Drawing from a variety of perspectives contributing authors interrogate the very concept of the diaspora The wide range of research in this volume thoughtfully illustrates the nuanced phenomena and provides rich descriptions of complex situations No longer a simple question of immigration the book considers language and legal status in schools international adoption teacher preparation and the relationships between established and relatively new Latino communities in a variety of contexts Comprised of rich thoughtful research Revisiting Education provides a fascinating window into the context of Latino reception nationwide Rebecca M Callahan Associate Professor University of Texas Austin As the leader of a 10 years and counting research study in Mexico that has identified and interviewed transnationally mobile students with prior experience in U S schools I can affirm that in addition to students with backgrounds in California Arizona Texas and Colorado migration links now join schools in Georgia Minnesota Oklahoma Alabama etc to schools in Mexico For that reason and many others I am excited to see this far ranging interdisciplinary new text that considers policy implementation through lenses as different as teacher preparation Latino adoption into culturally mixed families the fate of Latino newcomers in low density districts where there are few like them and the misuse of Spanish teachers as interpreters This is an relevant book for American educators and scholars but also for readers beyond U S borders Hamann Wortham Murillo and their contributors should be celebrated for this fine new collection Dr V ctor Z iga Dean of Research and Extension Universidad de Monterrey *New Generic Technologies in Developing Countries* M.R.
