United States with an exploration into conditions migrants face in one country of origin Ecuador Detain and Deport s transnational approach reveals how the U S immigration enforcement system s chaotic organization and operation distracts from the mismatch between these assumptions and actual outcomes Hiemstra draws on the experiences of detained and deported migrants as well as their families and communities in Ecuador to show convincingly that instead of deterring migrants and improving national security detention and deportation generate insecurities and forge lasting connections across territorial borders At the same time the system s chaos works to curtail rights and maintain detained migrants on a narrow path to deportation Hiemstra argues that in addition to the racialized ideas of national identity and a fluctuating dependence on immigrant labor that have long propelled U S immigration policies the contemporary emphasis on detention and deportation is fueled by the influence of people and entities that profit from them
