Willson,2018-06-07 The idea of the mamma italiana is one of the most widespread and recognizable stereotypes in perceptions of Italian national character both within and beyond Italy This figure makes frequent appearances in jokes and other forms of popular culture but it has also been seen as shaping the lived experience of modern day Italians of both sexes as well as influencing perceptions of Italy in the wider world This interdisciplinary collection examines the invented tradition of mammismo but also contextualizes it by discussing other often contrasting ways in which the role of mothers and the mother son relationship have been understood and represented in culture and society over the last century and a half both in Italy and in its diaspora **The Cost of Living in America, 1800-1980** John A. Garraty,1981 Prices constantly move up

Warde,2018-07-12 The issue of sustainability and the idea that economic growth and development might destroy its own foundations is one of the defining political problems of our era This groundbreaking study traces the emergence of this idea and demonstrates how sustainability was closely linked to hopes for growth and the destiny of expanding European states from the sixteenth century Weaving together aspirations for power for economic development and agricultural improvement and ideas about forestry climate the sciences of the soil and of life itself this book sets out how new knowledge and metrics led people to imagine both new horizons for progress but also the possibility of collapse In the nineteenth century anxieties about sustainability often driven by science proliferated in debates about contemporary and historical empires and the American frontier The fear of progress undoing itself confronted society with finding ways to live with and manage nature

State-Making in an Age of Revolution, 1830-1880 Christos Aliprantis,Anna Ross,2025-07-02 How did states expand in the mid nineteenth century While scholars now associate the period after the 1848 revolutions with a striking increase in state activity few have demonstrated how new state building measures were put into practice From France to Hungary and Scandinavia to Spain State Making in An Age of Revolution shows how officials went about implementing reform With original contributions grounded in extensive archival research this volume casts light on the scale at which officials relied on elites professionals and technical experts both inside and outside of government and even from outside their own states to carry out their expanding work Together these findings help us to re think the reach and nature of growing states during these pivotal decades of change *The Cultural Production of Social Movements* Robert F. Carley,2023-06-12 The Cultural Production of Social Movements offers a theory of cultural practices protest tactics strategic planning and deliberation and movement organizational structures ideological contention It is a theory of ideology from below The Cultural Production of Social Movements shows how conflicts both with external political forces and disagreements dissensus and the decision

making process internal to social movements produce knowledge and meanings that in turn impact upon and change the practices that contribute to how social movements are structured and organized The Cultural Production of Social Movements theorizes the relationship between consciously held superordinate ideas the changing composition of progressive and oppositional social struggles and the social worlds they hope to inhabit Analyzing the Black Panther Party specifically Kathleen Cleaver's break with the Student Non violent Coordinating Committee and her contributions to the Party Operaismo or Workerism in Italy and the relationship between shifting organizational strategies inventive tactics and novel and expansive ways to theorize class struggles and the communal composition of Worker Recovered Enterprise Movements in contemporary Argentina this book shows how movement ideologies change and how meanings structure organizations mobilizations and futures In The Cultural Production of Social Movements ideology is neither a static set of principles nor is an unconscious orientation towards power and governance Rather it is the contentious democratizing and deliberative processes which become realized as tactics in protests struggles defeats and victories that makes the relationship between movements and what they mean conscious to its participants

Mussolini's National Project in Argentina David Aliano, 2012-08-31 During the 1920s and 1930s Mussolini's fascist regime attempted to promote fascist Italy's national project in Argentina bombarding the republic with its propaganda Although politically a failure this propaganda provoked a debate over the idea of a national identity outside the nation state and the potential roles that citizens living abroad could play in their country of origin In propagating an Italian national identity within another sovereign state Mussolini's initiative also inspired heated debate among native Argentines over their own national project as a nation of immigrants Using the experiences of Mussolini's

efforts in Argentina as its case study this book demonstrates how national projects take on different meanings once they enter a contested public space It details how both members of the Italian community as well as native Argentines reshaped Italy's national discourse from abroad by entangling it with Argentina's own national project In exploring the way in which nations are imagined constructed and recast both from above as well as from below Mussolini's National Project in Argentina offers new perspectives on the politics of identity formation while providing a transatlantic example of the dynamic interplay between the Italian state and its emigrant communities It is in short a transnational perspective on what it means to belong to a nation
