Reckoning at Nuremberg Larry Barthurst, 2020-10-27 The trial of the Nazi war criminals which took place in Nuremberg Germany from November 1945 through October 1946 is perhaps the quintessential story of good versus evil These twenty two men authored some of the most shameful depraved acts in the annals of human history but now shorn of their brief authority they would be given something that they never afforded millions of their victims a fair trial The New Histories of International Criminal Law Immi Tallgren, Thomas Skouteris, 2019-03-21 The language of international criminal law has considerable traction in global politics and much of its legitimacy is embedded in apparently axiomatic historical truths This innovative edited collection brings together some of the world's leading international lawyers with a very clear mandate in mind to re evaluate retry the dominant historiographical tradition in the field of international criminal law Carefully curated and with contributions by leading scholars The New Histories of International Criminal Law pursues three research objectives to bring to the fore the structure and function of contemporary histories of international criminal law to take issue with the consequences of these histories and to call for their demystification The essays discern several registers on which the received historiographical tradition must be retried tropology inclusions exclusions gender race representations of the victim and the perpetrator history and memory ideology and master narratives international criminal law and hegemonic theories and more This book intervenes critically in the fields of international criminal law and international legal history by bringing in new voices and fresh approaches Taken as a whole it provides a rich account of the dilemmas conundrums and possibilities entailed in writing histories of international criminal law beyond against or in the shadow of the master narrative *The Bitter Taste of Victory* Lara Feigel, 2016-01-28 As the Second World War neared its conclusion Germany was a nation reduced to rubble 3.6 million German homes had been destroyed leaving 7.5 million people homeless an apocalyptic landscape of flattened cities and desolate wastelands In May 1945 Germany surrendered and Britain America Soviet Russia and France set about rebuilding their zones of occupation Most urgent for the Allies in this divided defeated country were food water and sanitation but from the start they were anxious to provide for the minds as well as the physical needs of the German people Reconstruction was to be cultural as well as practical denazification and re education would be key to future peace and the arts crucial in modelling alternative less militaristic ways of life Germany was to be reborn its citizens as well as its cities were to be reconstructed the mindset of the Third Reich was to be obliterated When later that year twenty two senior Nazis were put in the dock at Nuremberg writers and artists including Rebecca West Evelyn Waugh John Dos Passos and Laura Knight were there to tell the world about a trial intended to ensure that tyrannous dictators could

of the Society Coin Finds in Britain Michael Cuddeford,2013-04-10 Over the centuries Britain s soil has yielded countless
spectacular hoards of ancient coins and other artefacts affording us priceless insights into our ancestors lives and it is not
only such large finds that await discovery but also many thousands of individual pieces Wonderfully discoveries both minor
and momentous are frequently made not by teams of professionals but by amateur archaeologists and metal detector
enthusiasts for whom this book is intended as a helpful companion It provides a catalogue of commonly encountered coins
dating from ancient times until the modern day explaining their historical context how they might have come to be lost and
where they may be found today In the House of the Hangman Jeffrey K. Olick,2005-09 The central question for both the
victors and the vanquished of World War II was just how widely the stain of guilt would spread over Germany Political
leaders and intellectuals on both sides of the conflict debated whether support for National Socialism tainted Germany s
entire population and thus discredited the nation s history and culture The tremendous challenge that Allied officials and
German thinkers faced as the war closed then was how to limn a postwar German identity that accounted for National
Socialism without irrevocably damning the idea and character of Germany as a whole In the House of the Hangman

chronicles this delicate process exploring key debates about the Nazi past and German future during the later years of World War II and its aftermath What did British and American leaders think had given rise to National Socialism and how did these beliefs shape their intentions for occupation What rhetorical and symbolic tools did Germans develop for handling the insidious legacy of Nazism Considering these and other questions Jeffrey K Olick explores the processes of accommodation and rejection that Allied plans for a new German state inspired among the German intelligentsia He also examines heated struggles over the value of Germany's institutional and political heritage Along the way he demonstrates how the moral and political vocabulary for coming to terms with National Socialism in Germany has been of enduring significance as a crucible not only of German identity but also of contemporary thinking about memory and social justice more generally Given the current war in Iraq the issues contested during Germany's abjection and reinvention how to treat a defeated enemy how to place episodes within wider historical trajectories how to distinguish varieties of victimhood are as urgent today as they were sixty years ago and In the House of the Hangman offers readers an invaluable historical perspective on these critical questions
