*Professional Issues in Primary Care Nursing* Carol Cox, Marie Hill, 2010-01-05 As both practice and walk in centre nurses continue to adapt to the constant on going change demanded by both the public and the government paymasters they will face ever growing self questioning about their role responsibilities and their need to remain competent knowledgeable and safe practitioners From the foreword by Professor Dame Betty Kershaw DBE FRCN Education Advisor The Royal College of Nursing President of the Scholarship Society for Nurses and Midwives This book enables nurses to get to grips with the professional issues that affect their practice in primary care It is structured around the RCN domains of practice and considers a wide variety of issues including health promotion reflective practice and leadership Part One sets the scene for the domains of practice which follow and considers the unique aspects of practice and walk in centre nursing Part Two considers practical aspects of each of the RCN domains of practice in turn and is centred around nurse patient relationships Provides greater understanding of issues that affect the nature of practice Addresses the considerable changes in practice nursing and walk in centres Evidence based but also contains personal experiences Suitable for nurses undertaking community specialist practitioner degree courses qualified practice nurses and walk in centre staff

**Epilepsy and Intellectual Disabilities** Vee P. Prasher, Mike Kerr, 2008-09-15 Like many people with epilepsy and ID John has comorbid behavior problems This association is dealt with in detail later in the book A clear and consistent approach to this is likely to offer much to John in terms of his quality of life Other psychosocial concerns will need addressing Emphasizing and explaining the impact of epilepsy and its treatment on John's cognitive well being can help reduce anxiety in caregivers and the family and help establish the importance of treatment Informing people about the

negative impact of seizures while trying to minimize the difficulties in social life imposed by people's fears of seizures can be a difficult challenge. This is most difficult when discussing seizure-related death. However, our position must be to inform patients and families so they can make their life and treatment choices with complete understanding of choices and risks. Delivering a Package of Care: Delivering continuity of health care will be a major need throughout John's lifespan. This continuity should cover seizure assessment and management yet also be responsive to changes in the care environment. A person with ID who is no longer resident in the family home is likely to undergo many changes in staffing over a lifetime. As for many people, their ability to communicate their health needs will be compromised and these changes in staff can offer considerable risks in chronic disease management.

#### **Clinical Nurse Specialist Role and Practice** Janet S.

Fulton, Vincent W. Holly, 2021-06-09 Developed under the direction of the International Council of Nurses (ICN), this book is part of a series exploring advanced practice globally. It is the first known volume to provide an international view of the advanced practice role of clinical nurse specialist (CNS). It features an in-depth examination of advanced speciality practice in nursing and the advanced practice role of the clinical CNS. Content includes models of practice, core practice competencies, curricular recommendations, practice outcomes, and regulatory requirements related to scope of practice. The CNS role and practice as implemented in North America, Europe, Asia, and Oceania are examined in the context of the country's healthcare system, educational traditions, and regulatory requirements. Exemplars describe role implementation in various specialty practices and discuss how the role is implemented to advance nursing and improve clinical and fiscal outcomes. Measurement and evaluation of CNS practice in the context of countries and health care systems are examined. For practicing CNSs, this book provides an in-depth examination of the role from the global perspective; for administrators, it provides a foundational understanding of the CNS role and practice and performance expectations. Educators will use the book as a resource for curriculum development, whereas students will offer an expanded global view of the role. Advanced practice roles including the CNS are continuing to evolve. This book makes important contributions to a global understanding of the CNS role.

**Advanced Practice in Healthcare** Carol Cox, Marie Hill, Victoria Lack, 2013-06-17 Advanced Practice in Healthcare outlines the key components of advanced practice in which healthcare professionals are engaged. With a clear skills focus, it explores issues critical to providing effective enhanced care to patients whilst managing and negotiating the complexities of the healthcare delivery system. Perspectives on advanced practice are illuminated throughout the text and are designed to promote the formation of new thinking in relation to practice, education, and research. The text is comprised of three sections that address different aspects of advanced practice and these in turn provide guidance on the development of clinical skills including consultation, clinical decision making, holistic care, and the role of care planning in advanced practice. Explain management skills and how to manage, negotiate, and monitor the complexities of the healthcare system in order to ensure the delivery of quality patient care. Clarify the professional role of the advanced practice clinician and how implementation of

the role can improve the delivery of patient care In each chapter activities are presented that assist in the development implementation and extension of advanced level practice This text is especially relevant to nurses midwives and allied health professionals practising within primary and secondary care who wish to advance their practice or clarify their roles within the context of advanced practice particularly those undertaking masters level study
