From Subjects to Subjectivities Deborah L. Tolman, Mary Brydon-Miller, 2001 From Subject to Subjectivities profiles the recent debates about the role of qualitative and participatory methods in psychology a discipline which has traditionally seen itself as a form of positivistic science Contributors explain how fundamentally different views of the nature of reality and of scientific theory have shaped these debates and how psychology is being transformed through the use of these methods At the heart of the book are 10 exemplars of interpretive and participatory action research which describe the rationale for and process of using these methods in actual cases They also articulate some of the challenges psychologists may face in adopting them offering insights into how these complications can be successfully negotiated Relevant beyond psychology the models provided can be used within the context of a wide array of social science disciplines from sociology and anthropology to women s studies and public health The contributors represent a veritable who s who of qualitative scholars including Lyn Mikel Brown Larry Davidson Michelle Fine Louise Kidder M Brinton Lykes Jeanne Marecek Abigail Stewart and Niobe Way No previous book has examined qualitative and participatory methods specifically within the context of psychology From Subjects to Subjectivities provides a unique and badly needed resource for those interested in learning about the practice of these methods in the field

Measuring Corruption Arthur Shacklock, Fredrik Galtung, 2016-05-06 With the advance of an increasingly globalized market the opportunities for and scale of corruption is growing The size of corporations and their wealth relative to nations provides the resources for corrupt practices The liberalization of international financial markets makes transferring and hiding the proceeds of corruption easier Moves towards privatization in East and West are providing once only incentives for corruption on an unprecedented scale as officials not only deal with

the income of the state but with its assets as well In this book Transparency International s TI world renowned Corruption Perception Index CPI and Bribery Perception Index BPI are explained and examined by a group of experts They set out to establish to what extent they are reliable measures of corruption and whether a series of surveys can measure changes in corruption and the effectiveness of anti corruption strategies The book contains a variety of expert contributions which deal with the complexity difficulty and potential for measuring corruption as the key to developing effective strategies for combating it

Moving Health Sovereignty in Africa Andrew F. Cooper,Hany Besada,2016-04-15 Today s era of intense globalization has unleashed dynamic movements of people pathogens and pests that overwhelm the static territorial jurisdictions on which the governance provided by sovereign states and their formal intergovernmental institutions is based This world of movement calls for new ideas and institutions to govern people s health above all in Africa where the movements and health challenges are the most acute This book insightfully explores these challenges in ways that put the perspectives of Africans themselves at centre stage It begins with the long central and still compelling African health challenge of combating the pandemic of HIV AIDS It then examines the global governance responses by the major multilateral organizations of the World Bank and the World Trade Organization and the newer informal flexible democratically oriented ones of the Group of Eight It also addresses the compounding health challenge created by climate change to assess both its intensifying impact on Africa and how all international institutions have largely failed to link climate and health in their governance response It concludes with several recommendations about the innovative ideas and institutions that offer a way to closing the great global governance gaps and thus improving Africans health and that of citizens beyond
