Identity, Diversity and Teaching for Social Justice Juliet Perumal,2007 In recent times educational reformers have proposed ways of using education to reduce inequality overcome discriminatory values and attitudes and alleviate social problems An increasing number of language theorists and practitioners contends that in order to reduce inequality it is essential to address the personal cultural and political implications of language teaching Awareness of these factors activate the need to gain deeper insight into the personal and professional nuances of teachers' lives The gap between sociolinguistic theory and educational practice points to the fact that linguists and educationists themselves carry the prejudices of particular social ideological cultural and geographical backgrounds Who teaches what to whom why and how affects curricular decisions which can thus become fraught with political allegiances in this way the non neutrality of language pedagogy is confirmed Drawing from a suite of data sources the book explores the following questions Do teachers' autobiographical experiences shape their professional identities Does subscription to counter hegemonic ideologies impact teachers' personal and professional positionality and authority What contributions can feminist theorising make to language teaching in socially diverse classrooms Through an exploration of these questions the book gestures towards an imperative to

re think educative and pedagogic relationships and the politics of difference and dialogue in demographically diverse classrooms that subscribe to social redress agendas

resources and work together to bring best practices to scale for the benefit of children of diverse identities cultures and ethnicities Chapters contain strategies and tools to tackle the growing inequalities which keep far too many children on the margins of schooling and furthest from justice and equity Strategies include equity focused protocols structured questions for dialogue in virtual and face to face settings and resources for extended reflection The book may be useful for scholars in academic circles principal and teacher preparation providers novice and experienced educators and administrators and the allies school board members and elected officials who are invested in enriching the education and well being of school children and the families and communities they serve
