 dark aftermath of their father s assassination their uneasy adolescence and the many challenges they faced as adults all
 under the glaring eye of the media He reveals John s and Caroline s loving but at times trying relationship with their larger

 Americans have increasingly pursued peace of mind through pills and prescriptions In 2006 the National Institute of Mental
 Health estimated that 40 million adult Americans suffer from an anxiety disorder in any given year more than double the
 number thought to have such a disorder in 2001 Anti anxiety drugs are a billion dollar business Yet as recently as 1955 when
 the first tranquilizer Miltown went on the market pharmaceutical executives worried that there wouldn t t be interest in
 anxiety relief At mid century talk therapy remained the treatment of choice But Miltown became a sensation the first
 psychotropic blockbuster in United States history By 1957 Americans had filled 36 million prescriptions Patients seeking

 financial success and cultural impact revolutionized perceptions of anxiety and its treatment inspiring the development of

and activists to provide the first comprehensive account of the rise of America's tranquilizer culture. She transports readers from the bomb shelters of the Cold War to the scientific optimism of the Baby Boomers to the just say no Puritanism of the late 1970s and 1980s. A vibrant history of America's long and turbulent affair with tranquilizers. *The Age of Anxiety* casts new light on what it has meant to seek synthetic solutions to everyday angst.

The Philosophy of the Christian Curriculum

R. J. Rushdoony, 2012-10-17. The Christian School represents a break with humanistic education but too often in leaving the state school the Christian educator has carried the state's humanism with him. A curriculum is not neutral; it is either a course in humanism or training in a God-centered faith and life. The liberal arts curriculum means literally that course which trains students in the arts of freedom. This raises the key question: is freedom in and of man or Christ? The Christian art of freedom—that is, the Christian liberal arts curriculum—is emphatically not the same as the humanistic one. It is urgently necessary for Christian educators to rethink the meaning and nature of the curriculum. It should be clear then that whether history, science, mathematics, grammar, literature, ecology, civic duty, or law, every aspect of curriculum must be reconstructed along Biblical lines. The overall objective is for Christian families to prepare and equip themselves for service in the Kingdom of God, and this cannot be done without a rethinking of the philosophy of the Christian curriculum. In this study, Rousas John Rushdoony develops the philosophy of the Christian curriculum. It is the pioneering study in this field and is important reading for all Christian educators.

The Land Cries Out Salim J.

Munayer, Lisa Loden, 2011-10-21. Our theology does not exist in a vacuum but must relate to the world we inhabit and must influence our moral and ethical actions. This is especially true when discussing theology of the land in the context of a violent territorial conflict. The Holy Land has seen so much bloodshed that the earth itself is crying out to God. The chapters presented in this book form a unique collection of voices speaking from different perspectives on the issue of the theology of the land. These voices include Messianic Jewish and Palestinian Christian theologians and scholars who live in the Holy Land as well as others from around the world. The various chapters reflect a wide spectrum of opinion and reveal how much disagreement still exists among followers of Christ. However, the dialogue generated by having these opposing voices side by side speaking to each other rather than past each other is encouraging. This book is both challenging and inspirational and contributes in an innovative way to this important discussion.

Dictionary of Modern American Philosophers

John R. Shook, 2005-01-01. The Dictionary of Modern American Philosophers includes both academic and non-academic philosophers and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology, pedagogy, sociology, anthropology, education, theology, political science, and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a

short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought
