Power Encounters:

Power Encounters Frank Sizer, 2018-07-17 Miracles signs and wonders can be a normal part of your everyday life To walk in this kind of supernatural lifestyle we must first be immersed in the fire of the Holy Spirit a powerful encounter with the living Presence of God Himself Dr Francis J Sizer's life has been marked by these types of power encounters with **Power Encounter in Spiritual Warfare** Charles H. Kraft, 2017-05-18 Acceptance of Christianity in Southern Polynesia during the eighteenth century proceeded rapidly without missionary activity This fact attracted the attention of Alan Tippett who served for twenty years as an Australian missionary to the Fiji Islands What he found was that the key to their conversion lay in the fact that without missionary presence the south sea islanders responded to demonstrations of what Tippett learned to call power encounters These were contests some staged some not staged in which there was a power encounter between the true God and the gods of the islanders in which the traditional gods were defeated Kraft here discusses the fact that this power principle applies much more widely Power Encounters David Powlison, 1994-11 A critique of the deliverance ministries movement showing positive and negative sides of its fascination with the demonic and sensational accounts with guidelines for a more biblical approach **When the Spirit Comes with Power** John White, 2009-09-20 John White has extensively interviewed many people including those from John Wimber's Vineyard Christian Fellowship His years of work as a psychiatrist and as a missionary in the Third World qualify him in a special way to analyze the experiences described in this book In addition he has thoroughly studied revivals of the past highlighting the differences and the similarities to what is happening today As always John White remains thoroughly biblical as he handles many controversial topics The result is a book full of practical wisdom and remarkable insight with conclusions that are fresh and surprising *Muslims, Magic and the Kingdom of God* Rick Love, 2000 Understanding Folk Islam to Plant Churches that Last Muslims Magic and the Kingdom of God combines a description of folk Islam biblical perspectives and strategies for church planting among Muslims In his theory on Muslim evangelism Love tackles the major issues of encountering spiritual powers contextualization and leadership development Teachers of Islamic subjects and practitioners in Muslim countries enthusiastically welcome this book

Understanding Spiritual Power Marguerite G. Kraft, 2003-08-18 While secularized cultures of the West have a great deal of difficulty dealing with the spiritual as a real non imaginary dimension of life most of the world's peoples do not Having worked and studied among peoples of several non Western societies Marguerite Kraft is convinced that coming to terms with spiritual power presents one of the greatest challenges for all those who work among non Westerners in pastoral or mission situations Understanding Spiritual Power addresses the dynamics of the felt need for spiritual power in relation to a people's assumptions values and commitments in order to provide a foundation for meaningful Christian witness in power oriented societies The Western Church Kraft argues under pressure from modern rationalism has largely lost awareness of God's power and position vis a vis the spiritual realm so important in other societies Indeed this loss of power could be one reason

for the interest in Eastern and New Age philosophies on the part of Westerners disillusioned with the modern worldview Having worked among the Kamwe in Nigeria the Thai in Asia and the Navajo in North America Kraft focuses on specific ways in which people in these three societies view reality and suggests how the gospel can be articulated in forms they can understand Understanding Spiritual Power offers a theological as well as a practical perspective on spiritual power By exploring living societies providing examples and case studies and offering specific strategies this book makes a powerful case for rethinking and recasting traditional missiological methods At the same time it helps Western Christians with ears to hear question whether they might not learn as much from those with whom they work as they seek to teach

Implications for Pentecostals Dieudonne Komla Nuekpe, 2023-11-30 Islam and Christianity are often presented as violent rivals facing each other across a gulf of insurmountable differences Yet if Christians are to effectively engage Muslims with the gospel they must learn to build bridges across this divide This study explores the Muslim presence in Ghana a nation once believed to be resistant to Islam and analyses the missiological implications for Pentecostals the fastest growing group of Christians in the country Dr Dieudonne Komla Nuekpe examines the shared spiritual heritage of Ghanaian Pentecostals and folk Muslims within the broader context of African traditional religion He proposes that this shared heritage with its emphasis on supernatural encounters and the spiritual realm can provide common ground for Pentecostals seeking to peacefully and respectfully engage Muslims with the gospel Identifying the existential experiential and theological needs at the heart of folk Islam this book offers a practical guide for constructive Muslim Christian engagement in Ghana and beyond This study also challenges missiologists both scholars and practitioners to engage in critical contextualization that considers a culture's indigenous religious practices when seeking to build bridges to the gospel **Pentecostal and Charismatic**

Studies William Kay, Anne E. Dyer, 2017-10-30 The Pentecostal and Charismatic movement is one of the miracles of the 20th century Without government support without an advertising campaign often without the notice of journalists and academics and sometimes in the face of persecution and ridicule it has spread its message around the world and now attracts in the region of 500 million people Many of its original and formative documents are unknown and out of print This book collects together samples from the writings of key Pentecostals and charismatics going back about 100 years and over a range of issues and practices shows how they vary and how they have developed historically These texts have lain in out of print

Hardy, Richard Whitehouse, Dan Yarnell, 2015-10-12 Missio Dei by its very nature requires the church to come to terms with the exercise of power both internally and externally as it confronts the world Tune in to any newscast or glance at the daily newspaper and it immediately becomes clear that the use and abuse of power is a live issue The more we focus on the twists and turns of current events the more it appears that uncorrupted exercise of power eludes the human race All too often we become uneasily aware that there are powers lying behind the power that any of us wields whether it is in the family the classroom on the shop floor in the boardroom or in churches Effective missional leadership involves creative engagement with the powers at work in the world without being debased by them This book sets out to address the issue of the use and misuse of power from biblical theological and practical perspectives The authors bring their theological pastoral missionary and personal experience to their task in order to inform challenge and invite readers into a responsible use of the powers that God has put into the hands of each one of us to achieve his purposes in the world **The Dialectics of Transformation in Africa** E. Bongmba, 2006-03-15 A discussion of political and religious crisis in Africa this book covers such topics as democratic transition good governance civil society and the African renaissance Elias K Bongmba proposes humanistic interventions centred on the recovery of interpersonal relations and seeks to understand the ongoing struggles in Africa **Christianity with Power** Charles H. Kraft, 2005-07-25 Power Politicians crave it Money buys it And some people will do anything to get it In a world where New Agers rely on crystals and channeling to tap into spiritual power the Christian is reminded that Jesus used supernatural power to heal the sick cast out demons and raise the dead Two thousand years later the world still desperately needs a Savior who works in power However many modern Christians are embarrassed and reluctant to preach a gospel accompanied by supernatural power Our Western worldview conditions us to fit God into a neat predictable mold But Kraft is convinced that the power of the gospel will not be confined to our categories Step by step he offers a biblical understanding of signs and wonders and shows how Christians can become God's instruments to heal the sick to work miracles and to oppose the counterfeit powers of this age There is something that makes Christianity with Power quite possibly great maybe even a major publishing event to be noted some day when the history of the modern church is written Kraft helps us as no one else has in understanding our Western worldview in relation to the way the Holy Spirit is working today from the Foreword Change across Cultures

Bruce Bradshaw, 2002-03-01 C S Lewis compared the task of ethical inquiry to sailing a fleet of ships the primary task is avoiding collisions When introducing cultural change such collisions are inevitable Bruce Bradshaw provides expert instruction for navigating these cultural clashes Bradshaw contends that lasting change comes only through altering the stories by which people live The Bible is the metanarrative whose altering theme of redemption forms a transcultural ethical basis Aspects of God's redemption story can change how local cultures think and behave toward the environment religions government gender identities economics science and technology However effective change takes place only in a context of reconciliation Christian community and mutual learning A must read for anyone engaged in or preparing for cross cultural ministry relief or development work The book is also relevant to students of ethics philosophy and theology Numerous real life examples illustrate the inevitable tensions that occur when cultures and narratives collide **Communicating Christ in Animistic Contexts** Gailyn Van Rheenen, 1991 Whether in New Age mysticism occultism Haitian voodooism Chinese ancestor veneration or Japanese Shintoism animistic beliefs are widespread even today Gailyn Van Rheenen presents a rigorous biblical theological and anthropological foundation for ministering in animistic contexts **Supernatural Power of a Transformed Mind & When Heaven Invades Earth** Bill Johnson, 2011-03-01 In The Supernatural Power of a Transformed Mind Johnson argues that moving in the spiritual realm should be as much a part of our daily routine as prayer worship and reading Scripture The companion volume When Heaven Invades Earth A Practical Guide to a Life of Miracles teaches you how to rediscover your true identity and experience miracles every day Two best selling titles in one volume great value
