

What is the Chinese language?

The confusion can be illustrated by the following dialogue:

- A: I hear you've begun to study Chinese.
 B: Yes.
 A: It's a tough language, isn't it?
 B: It sure is.
 A: What does this Chinese character mean?
 B: I don't know.
 A: I thought you said you were studying Chinese?
 B: I'm afraid I'm learning how to speak Chinese.

Now you understand that there is a difference between the written language and the spoken language. What other differences are there?

- A: Can you speak Chinese?
 B: Yes, I can.
 A: We will have a visitor from Taiwan next week. Can you help us do some interpretation?
 B: I'm sorry. I cannot help you. I speak Cantonese and people from Taiwan speak Mandarin or Taiwanese.

Now you understand that spoken Chinese includes a number of different dialects.

Romanisation system

The most commonly encountered Romanisation system are: Wade-Giles, Yale and Pinyin.

Wade-Giles Romanisation was created by two English diplomat-scholars (Sir Thomas Wade and H.A. Giles) in the beginning of nineteenth century, and was formerly often used in textbooks and dictionaries (e.g. Matthews' Chinese-English Dictionary). Until 1960s it was the standard Romanisation for representing Chinese words in English. It has been also commonly used for library catalogues in most countries.

Yale, devised by several scholars at Yale Institute of Far Eastern Language of Yale University in the 1940s, was for many years the most widely used Romanisation for teaching Chinese in the U.S. A number of common textbooks and dictionaries follow this Romanisation.

Pinyin is the official Romanisation of the People's Republic of China and has been used commonly in Western language publications about China since 1990.

The characteristic of Mandarin Monosyllables - A syllable is represented by a single written character

Two or more characters may be used to form polysyllable composed words e.g.

Chinese character	謝謝	飛機	律師	電腦
Pinyin	xièxiè	fēijī	lǎoshī	diànnǎo
literal translation	thank thank	flying machine	law master	electric brain
free translation	thanks	airplane	lawyer	computer

Practical Chinese Dialogues Two Mandarin Training Center Series

L Darling-Hammond

Practical Chinese Dialogues Two Mandarin Training Center Series:

Reviewing **Practical Chinese Dialogues Two Mandarin Training Center Series**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is truly astonishing.
