Problem In Prague:

Problems of Communism ,1984 *Institutional Responses to Drug Demand in Central Europe* Flip Maas,2020-07-26
This title was first first published in 2002 Understanding the link between institutional contexts and drug problems is crucial to the process of developing appropriate drug policies and drug demand reduction strategies However this link is too often taken for granted with most drug related research relying on epidemiological bio medical or clinical approaches ignoring the social contexts in which drug use finds its causes and where its consequences are most visible and hardest felt This book analyses the institutional responses to the drug problem in the States of Central and Eastern Europe providing conclusive evidence that the drug problem is a social one and that its causes emerge from a broad array of social factors Charting the changing policy perceptions and attitudes towards drugs and related problems alongside new organizations designed to counteract drug related problems the book provides important new insights into one of the most important problems confronting nations around the world *Metropolis* Gábor Halász,2013-12-17 *Philosophical Problems of Modern Biology* Jan Kamaryt,1965 **A Companion to the Philosophy of History and Historiography** Aviezer Tucker,2011-06-28 A COMPANION TO THE PHILOSOPHY OF HISTORY AND HISTORIOGRAPHY The philosophy of historiography examines our representations and knowledge of the past the relation between evidence inference explanation and narrative Do we possess knowledge of the past Do we just have probable beliefs about the past or is historiography a piece of convincing fiction The philosophy of history is the direct philosophical examination of history whether it is necessary or contingent whether it has a direction or whether it is coincidental and if it has a direction what it is and how and why it is unfolding The fifty entries in this Companion cover the main issues in the philosophies of historiography and history including natural history and the practices of historians Written by an international and multi disciplinary group of experts these clearly written entries present a cutting edge updated picture of current research in the philosophies of historiography and history This Companion will be of interest to philosophers historians natural historians and social scientists Czechs, Germans, Jews? Kateřina Čapková,2012 The phenomenon of national identities always a key issue in the modern history of Bohemian Jewry was particularly complex because of the marginal differences that existed between the available choices Considerable overlap was evident in the programs of the various national movements and it was possible to change one s national identity or even to opt for more than one such identity without necessarily experiencing any far reaching consequences in everyday life Based on many hitherto unknown archival sources from the Czech Republic Israel and Austria the author s research reveals the inner dynamic of each of the national movements and maps out the three most important constructions of national identity within Bohemian Jewry the German Jewish the Czech Jewish and the Zionist This book provides a needed framework for understanding the rich history of German and Czech Jewish politics and culture in Bohemia and is a notable contribution to the historiography of Bohemian Czechoslovak and central European Jewry **Integer Programming and Related Areas**
