Shakespeare's Themes:

Themes and Variations in Shakespeare's Sonnets J. B. Leishman, 2005 This study analyses Shakespeare's treatment of the universal themes of Beauty Love and Time He compares Shakespeare with other great poets and sonnet writers

Shakespeare's Themes Paul Fletcher, 2002 This work is concerned with showing how a full understanding of a Shakespeare work depends on an awareness of the central theme and related themes and noticing how these themes are presented as the play or poem moves forward from beginning to end The book also shows how the works are interrelated thus enabling us to gain an understanding of Shakespeare's works as a whole *Shakespeare's Proverbial Themes* Marjorie Donker, 1992-09-15 This study analyzes the role of the sententia proverb maxim adage in the rhetorical process of invention and particularly Shakespeare's use of the proverb as a master theme The plays have a characteristic structure in which the thematic statement is initiated in the early scenes and then repeated with variations throughout In Hamlet for instance the sententia all that lives must die passing through nature to eternity is exemplified and concretized in scene after scene Donker demonstrates that Shakespeare was a product of his schooling in Tudor England in which simple proverbial material was considered to be the substance of moral philosophy the subject to be developed varied and amplified in school exercises He was also following the dictate of Horace in *Ars poetica* that moral philosophy was the proper subject of the poet that the adage was to be the theme of fiction to be modulated in a wide range of registers and tones throughout the work Shakespeare was using the adage as central to the process of invention Previous scholars have analyzed the sententia as a hallmark of style in Shakespeare's plays but not as the controlling theme This is a well explicated argument that will be of interest and value to Shakespearean scholars and students of the history of rhetoric with broader applications to the study of Greco Roman and Elizabethan cultures the history and theory of drama and humanistic studies **Shakespeare's**
