

A THEORETICAL CONTEXT FOR SHAME

WARREN KINSTON, LONDON

Shame, till now the 'Cinderella of the unpleasant emotions' (Rycroft, 1968), deserves a central role in psychoanalytic theory alongside anxiety and guilt. An examination of the literature together with clinical and theoretical studies of my own has led me to define shame (the concept) as the signal, affective and cognitive, that a move from 'self-narcissism' to 'object-narcissism' is imminent (Kinston, 1980, 1982). The details of the shame experience and the penumbra of related experiences (e.g. inferiority, failure, guilt, aggression) will be described in the course of a brief critical review of the literature. These experiences will be shown to lock into the concept as defined above; further implications, phenomenological and theoretical, will be examined by using the associated theory of narcissism.

A full consistent account of shame must not only link the many clinical psychoanalytic observations, but also much written by others. Psychoanalysts have noted such features of shame as its links with self-exposure and fear of rejection, its connexions with sexuality and its absence in perversion, its relation to blushing and wishes to hide and the phenomenon of shame propensity. Other crucial features of shame are emphasized by non-psychoanalytic authors and these should either be understood within a psychoanalytic model or be purposefully and coherently excluded. For example, the Bible viewed the acceptance of shame as the ultimate in commitment; Shakespeare referred to shame far more often than to guilt and associated it with truth and honour rather than with inferiority or wrong doing; Nietzsche linked shame to loss of individuality and volition.

As will be evident in the literature review to follow, psychoanalytic authors have mainly ignored the need to bring order to apparently disparate clinical and non-clinical observations. Only Lichtenstein (1963) has attempted to assimilate the work of writers outside psychoanalysis. Psychoanalysts have tended to use the

term 'shame' much as it appears in their clinical material and have often confusingly linked it to another term, as in 'shame and guilt' or 'shame and inferiority feelings'.

Shame has perspectives, on the one hand so intensely personal and on the other so broadly social, that it has proved elusive for theoreticians focused on mental mechanisms. This double perspective is less clear in English which has one word for shame, than in languages such as German and French which have two words. 'Shame' does have two antonymic forms in English which correspond to the two meanings and it is possibly an example of the antithetical meaning of primary words (Freud, 1910).

The origins of the word 'shame' are obscure but scholars believe it derives from the Teutonic root (*s*)kem meaning 'to cover oneself' (Oxford English Dictionary). The two meanings which have come down to us are as follows:

Shame-unshamed (German: *Scham*, French: *Pudeur*) refers to modesty, chastity, shyness, bashfulness. In Biblical usage it refers to genitals. The emphasis in this meaning is on inner personal experience.

Shame-shameless (German: *Schande*; French: *Honte*) refers to disgrace, scandal, criminality (cf. seeds of shame). The emphasis in this meaning is on social customs and standards.

When Freud spoke of shame as being an important force stemming from the sexual drives, he used *Scham*. There are no references to *Schande* in the index of the '*Gesammelte Werke*'. However in his belief that the preservation of culture and civilized society depended mainly on hypocrisy (rather than guilt or moral standards) he was talking about *Schande* (Freud, 1915).

Aidos, the Greek Goddess of Shame, denoted both sexual shame and the genitals, and as she was the source of dignity, decency and good manners, shame was linked with reverence, respect and piety. Her companion was Dike (Justice, Natural Law) or Nemesis (Due Enactment). Hesiod prophesied that Aidon and Dike/

Shame In Context:

Shame in Context Susan Miller, 2013-05-13 In this enlightening and gracefully written study Susan Miller examines shame in a variety of clinical contexts en route to a richer understanding of shame dynamics Miller attends especially to the role of shame in creating and maintaining character pathology and devotes separate sections of the book to shame in the context of obsessive compulsive narcissistic and masochistic personality organizations Within each of these clinical contexts a chapter of theoretical discussion is followed by a chapter of engaging case examples Integral to Shame in Context is Miller's informed and thoughtful critique of current theories about shame including those of Broucek Morrison Schore Wurmser Nathanson and Kinston In reviewing the contributions of these and other writers she is most concerned with achieving a balanced comprehension of shame that incorporates the insights of different theoretical perspectives without embracing the selective emphases of any one investigator or school of thought Like Freud she appreciates the defensive utility of shame but she attends equally to the painful and at times pathogenic aspects of shame experiences In line with more recent shame literature she emphasizes the pathogenicity of early shaming but she is equally sensitive to the role of shame in sustaining character defenses And she goes beyond the purview of other shame researchers in examining the ways in which individuals unconsciously seek to maintain shame experiences when these experiences sustain their personality organizations Offering a critical evaluation and synthesis of contemporary shame theories and culminating in a balanced clinical understanding of shame in its various contexts Shame in Context takes its place as in the words of Frances Broucek the most sophisticated and definitive clinical study of shame to date

Shame in Context Susan Miller, 2013-05-13 In this enlightening and gracefully written study Susan Miller examines shame in a variety of clinical contexts en route to a richer understanding of shame dynamics Miller attends especially to the role of shame in creating and maintaining character pathology and devotes separate sections of the book to shame in the context of obsessive compulsive narcissistic and masochistic personality organizations Within each of these clinical contexts a chapter of theoretical discussion is followed by a chapter of engaging case examples Integral to Shame in Context is Miller's informed and thoughtful critique of current theories about shame including those of Broucek Morrison Schore Wurmser Nathanson and Kinston In reviewing the contributions of these and other writers she is most concerned with achieving a balanced comprehension of shame that incorporates the insights of different theoretical perspectives without embracing the selective emphases of any one investigator or school of thought Like Freud she appreciates the defensive utility of shame but she attends equally to the painful and at times pathogenic aspects of shame experiences In line with more recent shame literature she emphasizes the pathogenicity of early shaming but she is equally sensitive to the role of shame in sustaining character defenses And she goes beyond the purview of other shame researchers in examining the ways in which individuals unconsciously seek to maintain shame experiences when these experiences sustain their personality organizations Offering a critical evaluation and synthesis of contemporary shame

theories and culminating in a balanced clinical understanding of shame in its various contexts Shame in Context takes its place as in the words of Frances Broucek the most sophisticated and definitive clinical study of shame to date Shame and Gender in Transcultural Contexts Elisabeth Vanderheiden, Claude-Hélène Mayer, 2024-09-06 This volume is envisioned as a primary reference in research studies and concepts on shame through the lens of gender and from transdisciplinary cultural and transcultural perspectives It sheds light on the state of the art regarding shame and its meaning in the context of gender from theoretical conceptual and empirical perspectives from the standpoint of positive psychology Since the experience of shame the expression of shame as well as the individual or collective handling of shame depends in a special way on cultural factors special importance has been given in the chapters to the consideration of cultural framework conditions This volume is founded on the editors first three publications on shame from positive psychology perspectives and an upcoming work on shame and ageing *The Bright Side of Shame* Claude-Hélène Mayer, Elisabeth Vanderheiden, 2019-04-25 This book provides new ideas on how to work with and constructively transform shame on a theoretical and practical level and in various socio cultural contexts and professions It provides practical guidelines on dealing with shame on the basis of reflection counselling models exercises simulations specific psychotherapeutic approaches and auto didactical learning material so as to transform shame from a negatively experienced emotion into a mental health resource The book challenges theorists to adopt an interdisciplinary stance and to think outside the box Further it provides practitioners such as coaches counsellors therapists trainers and medical personnel with practical tools for transforming negative experiences and emotions In brief the book shows practitioners how to unlock the growth potential of individuals teams and organisations allowing them to develop constructively and positively Exposed Ben Malisow, 2020-11-24 Discover why privacy is a counterproductive if not obsolete concept in this startling new book It s only a matter of time the modern notion of privacy is quickly evaporating because of technological advancement and social engagement Whether we like it or not all our actions and communications are going to be revealed for everyone to see Exposed How Revealing Your Data and Eliminating Privacy Increases Trust and Liberates Humanity takes a controversial and insightful look at the concept of privacy and persuasively argues that preparing for a post private future is better than exacerbating the painful transition by attempting to delay the inevitable Security expert and author Ben Malisow systematically dismantles common notions of privacy and explains how Most arguments in favor of increased privacy are wrong Privacy in our personal lives leaves us more susceptible to being bullied or blackmailed Governmental and military privacy leads to an imbalance of power between citizen and state Military supremacy based on privacy is an obsolete concept Perfect for anyone interested in the currently raging debates about governmental institutional corporate and personal privacy and the proper balance between the public and the private Exposed also belongs on the shelves of security practitioners and policymakers everywhere *The Value of Shame* Elisabeth Vanderheiden, Claude-Hélène Mayer, 2017-04-06 This volume combines empirical research based and theoretical perspectives

on shame in cultural contexts and from socio culturally different perspectives providing new insights and a more comprehensive cultural base for contemporary research and practice in the context of shame It examines shame from a positive psychology perspective from the angle of defining the concept as a psychological and cultural construct and with regard to practical perspectives on shame across cultures The volume provides sound foundations for researchers and practitioners to develop new models therapies and counseling practices to redefine and re frame shame in a way that leads to strength resilience and empowerment of the individual *Handbook of Sociological Theory* Jonathan H. Turner,2006-05-17

Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn t usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The Cultural Turn in Sociological Theorizing Section III Theorizing Interaction Processes Section IV Theorizing from the Systemic and Macrolevel Section V New Directions in Evolutionary Theorizing Section VI Theorizing on Power Conflict and Change SectionVII Theorizing from Assumptions of Rationality This handbook will be of interest to those wanting a broad spectrum and overview of late 20th early 21st century sociological theory *Theology in the Context of World Christianity* Timothy C. Tennent,2009-05-26

Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian It s no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically translatable *Theology in the Context of World Christianity* is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with

theologians from across the globe making this volume valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ's global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity

Shame Management Through Reintegration Eliza Ahmed, 2001-10-15 This 2001 book is a follow on to John Braithwaite's best selling and influential *Crime Shame and Reintegration* Shame management is becoming a central concept in theoretical and practical terms This book makes a major contribution to the advancement of shame in a theoretical sense For criminology as well as for psychology sociology and other areas this accessible book serves as an introduction to the concepts of shame guilt and embarrassment Presenting research by the Restorative Justice Centre at the Australian National University the book contributes immeasurably to the development of practical alternatives to common sanctions in an effort to reduce crime and other social problems Written by the key exponents of restorative justice the book is an important re statement of the theory and practice of shaming It will develop important and often controversial debates about punishment shaming and restorative justice to a new level

Goffman Unbound! Thomas J. Scheff, Bernard S Phillips, Harold Kincaid, 2015-11-17 Thomas Scheff demonstrates why Goffman remains such a key figure for social scientists Goffman may have been cautious about recognizing the role of emotions in social life but Scheff boldly and creatively shows why the sociological and the psychological are necessarily intertwined This is certainly a book for all serious analysts of social behaviour Michael Billig Nottingham University Scheff's critical eye is equal to his subject shrewdly appreciating Goffman's many virtues while also showing where and how Goffman's thinking needs revision and development This original and provocative book offers a fresh interpretation of Goffman and will become a benchmark for all subsequent commentary Greg Smith University of Salford One of the seminal sociologists of the twentieth century Erving Goffman revolutionized our understanding of the microworld of emotions and relationships We all live in this world every day of our lives yet it is virtually invisible to us Goffman's genius was to recognize and describe this world as no one had before The book synthesizes prior scholarly commentary on Goffman's work and includes biographical material from his life untangling some of the many puzzles in Goffman's work and life Scheff also proposes ways of filling gaps and false starts One chapter explores the meaning of the emotion of love another of hatred These and other new directions could facilitate the creation of a microsocial science that unveils the emotional relational world

Discover tales of courage and bravery in Crafted by is empowering ebook, **Shame In Context** . In a downloadable PDF format (Download in PDF: *), this collection inspires and motivates. Download now to witness the indomitable spirit of those who dared to be brave.
