Shaping The New Social Work:

Shaping the New Social Work Alfred J. Kahn, 1973-03-02 Focuses on the problems of practice in social work Looks at what the practitioner does how they relate to clients use discretion set priorities and details the role of setting the direction content and atmosphere of programs *Shaping the New Social Work* Alfred J. Kahn, 1973 **Shaping a Science of Social Work** John S. Brekke, Jeane W. Anastas, 2019 Shaping a Science of Social Work provides a basic framework for a social work science in terms of basic constructs domains and characteristics considered within the context of academic disciplinarity and professional identity Centered on the formation of social work science from a realist critical realist position contributions from eminent scholars offer detailed and rigorous analyses of various essential issues **Social Welfare in Western Society** Gerald Handel, 2009-01-01 Social welfare has a three thousand year history in Western society This book offers a sociological framework that provides conceptual order to the countless details of that history while highlighting its essentials Social welfare in all its forms is based on one central concept help But there are many versions of help and multiple debates about those versions The outcomes of some debates have led to withholding help and these outcomes are an inescapable part of this domain in the past and in the present The major versions their development and the debates are carefully examined in this volume Social Welfare in Western Society argues that in history five basic concepts of help have emerged These five explored and developed are charity based on a relationship between private donors and recipients public welfare based on a relationship between the state and its recipients social insurance based on a relationship between the state and beneficiaries of its programs social service based on people skilled in interaction providing skill based time to their clients mutual aid groups sometimes misleadingly called self help groups whose members are simultaneously helpers and those helped There are multiple versions of each of these five concepts now usually referred to as social policy issues There are fierce disagreements about what is helpful and which supposed forms of help are harmful to the wider society The book concludes that major debates have centered and continue to center around these major issues Should the poor be helped or punished Who is to blame Do the poor have the same rights as other people Who should pay Who should decide What is the effect of receiving welfare on incentive to work Who should be helped This is a masterful text designed for professional and public reading Gerald Handel is professor emeritus of sociology at The City College and The Graduate Center City University of New York He is the author of Making a Life in Yorkville Experience and Meaning in the Life Course Narrative of an Urban Working Class Man editor of Childhood Socialization and co editor of The Psychosocial Interior of the Family all published by Transaction Publishers **Social Workers' Desk Reference**, 2015-01-13 People all over the world are confronted by issues such as poverty a lack of access to quality education unaffordable and or inadequate housing and a lack of needed health and mental services on a daily basis Due to these issues there is a need for social workers who have access to relevant and timely scholarly materials in order to meet the needs of those facing these issues The social psychological and biological factors

resulting from these issues determine the level of a person's mental health at any given point in time and it is necessary for social workers to continue to evolve and develop to the new faces and challenges of the times in order to adequately understand the effects of these issues. In the first and second editions of the Social Workers Desk Reference the changes that were occurring in social work practice education and research were highlighted and focused upon. This third edition continues in the same tradition and continues to respond to the changes occurring in society and how they are impacting the education research and practice of social work as a whole. With 159 chapters collaboratively written by luminaries in the profession this third edition serves as a comprehensive guide to social work practice by providing the most recent conceptual knowledge and empirical evidence to aid in the understanding of the rapidly changing field of social work. Each chapter is short and contains practical information in addition to websites and updated references. Social work practitioners, educators, students and other allied professionals can utilize the Social Workers Desk Reference to gain interdisciplinary and interprofessional education practice and research.

Assessment in Social Work Practice Carol H. Meyer, 1993. This book confronts the current bureaucratic and fiscal constraints that have inhibited social workers from assessing clients and offers concrete ways of handling a wide array of cases.

Social Work Processes Beulah Roberts Compton, Burt Galaway, 1979.

Social Work, Cats and Rocket Science Elaine James, Rob Mitchell, Hannah Morgan, 2019-09-19. This book tells stories of just how powerful social work can be. At its heart are stories drawn from frontline practice ranging from first interviews through to complex decision making. Along the way we meet the social worker who assessed a cat though for all the right reasons. We witness the cost of failing to protect the rights of adults exemplified in the tragic death of Connor Sparrowhawk. We also see the transformations that can happen when social workers really get it right as in the case of Peter whose love of balloons led them to feature in his care plan. These stories from practice are combined with guidance and reflective exercises to offer valuable practice wisdom and learning for new and experienced social workers alike. By turns funny, wise and moving this book articulates the personal and professional qualities needed to practise rights based social work. It reveals the potential of the profession to make a difference to the lives of individuals and to communities.
