Sharing The Journey Support Groups And The Quest For A New Community:

Sharing the Journey Robert Wuthnow, 1996-07-01 A look at how support groups have affected American society argues that although support groups provide a warmth and security that holds society together they can lead to an unhealthy self absorption and a trivialized sense of what is sacred

The Cursillo Movement in America Kristy Nabhan-Warren, 2013 The internationally growing Cursillo movement or short course in Christianity founded in 1944 by Spanish Catholic lay practitioners has become popular among American Catholics and Protestants alike This lay led weekend experience helps participants recommit to and live their faith Emphasizing how American Christians have privileged the individual religious experience and downplayed denominational and theological differences in favor of a common identity as renewed people of faith Kristy Nabhan Warren focuses on cursillistas those who have completed a Cursillo weekend to show how their experiences are a touchstone for understanding these trends in post 1960s American Christianity Drawing on extensive ethnographic fieldwork as well as historical research Nabhan Warren shows the importance of Latino Catholics in the spread of the Cursillo movement Cursillistas stories she argues guide us toward a new understanding of contemporary Christian identities inside and outside U S borders and of the importance of globalizing American religious boundaries

Ancient-Future Evangelism (Ancient-Future) Robert E. Webber, 2003-11-01 Following his well received Ancient Future Faith Robert Webber presents a new model for evangelism and discipleship the first in a series of four books applying his theoretical ideas to practical situations Part 1 of Ancient Future Evangelism surveys evangelism and Christian formation throughout the church and then translates the process for twenty first century Christians Webber presents evangelism as four distinct stages and suggests three accompanying rites of passage that can be easily adapted to any church tradition Part 2 underscores how the four fold process of faith formation is interwoven with three theological principles Christ as victor over evil the church as witness to God s salvation and worship as a witness to God s mission accomplished in Jesus Ancient Future Evangelism will appeal to both emerging evangelicals as well as traditional church leaders It relates faith to Christian practice by drawing wisdom from the past and translating those insights into the present and future life of the church

Education and Equality Danielle Allen, 2016-06-14 American education as we know it today guaranteed by the state to serve every child in the country is still less than a hundred years old It s no wonder we haven t agreed yet as to exactly what role education should play in our society In these Tanner Lectures Danielle Allen brings us much closer examining the ideological impasse between vocational and humanistic approaches that has plagued educational discourse offering a compelling proposal to finally resolve the dispute Allen argues that education plays a crucial role in the cultivation of political and social equality and economic fairness but that we have lost sight of exactly what that role is and should be Drawing on thinkers such as John Rawls and Hannah Arendt she sketches out a humanistic baseline that re links education to equality showing how doing so can help us reframe policy questions From there she turns to civic education showing that we must

reorient education's trajectory toward readying students for lives as democratic citizens Deepened by commentaries from leading thinkers Tommie Shelby Marcelo Suarez Orozco Michael Rebell and Quiara Alegria Hudes that touch on issues ranging from globalization to law to linguistic empowerment this book offers a critical clarification of just how important education is to democratic life as well as a stirring defense of the humanities

Faith, Family, and Filipino American Community Life Stephen M. Cherry, 2014-01-03 Stephen M. Cherry draws upon a rich set of ethnographic and survey data collected over a six year period to explore the roles that Catholicism and family play in shaping Filipino American community life From the planning and construction of community centers to volunteering at health fairs or protesting against abortion this book illustrates the powerful ways these forces structure and animate not only how first generation Filipino Americans think and feel about their community but how they are compelled to engage it over issues deemed important to the sanctity of the family Revealing more than intimate accounts of Filipino American lives Cherry offers a glimpse of the often hidden but vital relationship between religion and community in the lives of new immigrants and allows speculation on the broader impact of Filipino immigration on the nation The Filipino American community is the second largest immigrant community in the United States and the Philippines is the second largest source of Catholic immigration to this country This groundbreaking study outlines how first generation Filipino Americans have the potential to reshape American Catholicism and are already having an impact on American civic life through the engagement of their faith

Justice by Means of Democracy Danielle Allen, 2023-04-28 From leading thinker Danielle Allen a bold and urgent articulation of a new political philosophy power sharing liberalism At a time of great social and political turmoil when many residents of the leading democracies question the ability of their governments to deal fairly and competently with serious public issues and when power seems more and more to rest with the wealthy few this book reconsiders the very foundations of democracy and justice Scholar and writer Danielle Allen argues that the surest path to a just society in which all are given the support necessary to flourish is the protection of political equality that justice is best achieved by means of democracy and that the social ideals and organizational design principles that flow from recognizing political equality and democracy as fundamental to human well being provide an alternative framework not only for justice but also for political economy Allen identifies this paradigm changing new framework as power sharing liberalism Liberalism more broadly is the philosophical commitment to a government grounded in rights that both protect people in their private lives and empower them to help govern public life Power sharing liberalism offers an innovative reconstruction of liberalism based on the principle of full inclusion and non domination in which no group has a monopoly on power in politics economy and society By showing how we all might fully share power and responsibility across all three sectors Allen advances a culture of civic engagement and empowerment revealing the universal benefits of an effective government in which all participate on equal terms

Jewish Megatrends Rabbi Sidney Schwarz, PhD, 2013-01-15 Visionary solutions for a community ripe for transformational change from fourteen

leading innovators of Jewish life Jewish Megatrends offers a vision for a community that can simultaneously strengthen the institutions that serve those who seek greater Jewish identification and attract younger Jews many of whom are currently outside the orbit of Jewish communal life Schwarz and his collaborators provide an exciting path building on proven examples that we ignore at our peril from the Foreword The American Jewish community is riddled with doubts about the viability of the institutions that well served the Jewish community of the twentieth century Synagogues Federations and Jewish membership organizations have yet to figure out how to meet the changing interests and needs of the next generation In this challenging yet hopeful call for transformational change visionary leader Rabbi Sidney Schwarz looks at the social norms that are shaping the habits and lifestyles of younger American Jews and why the next generation is so resistant to participate in the institutions of Jewish communal life as they currently exist He sets out four guiding principles that can drive a renaissance in Jewish life and gives evidence of how on the margins of the Jewish community those principles are already generating enthusiasm and engagement from the very millennials that the organized Jewish community has yet to engage Contributors leading innovators from different sectors of the Jewish community each use Rabbi Schwarz s framework as a springboard to set forth their particular vision for the future of their sector of Jewish life and beyond

Theology and California Fred Sanders, Jason S. Sexton, 2016-02-17 Exploring California as a theological place this book renders critical engagement with significant Californian religious and theological phenomena and the inherent theological impulses within major Californian cultural icons Harnessing conceptual tools inherent to theology through theological reflection assessment and critique the chapters in this volume begin to ascertain the significance of various empirical data and that no other qualitative methodological Californian study has done Many universities are picking up on California literature as a theme that highlights a place of hope wonder and cultural innovation but have neglected the significance of theological instincts flowing through the Californian dynamic Californians Fred Sanders and Jason Sexton assemble leading voices and specialists both from within and without California for engagement with California s influential culture including leading theologians and cultural critics such as Richard J Mouw Paul Louis Metzger and Fred Sanders alongside leading specialists in Film studies and cultural critique theological anthropology missiology sociology and history

The Problems of Communitarian Politics Elizabeth Frazer, 1999 The book offers a detailed critical analysis of the ideal of community in politics The book traces elements of the idea of community in a number of social and philosophical contests over the last century explaining how these are articulated in very recent political and public policy debates Community is invoked as a justification for reorganisation of state institutions as the source of care and support for individuals and as an entity which is valuable in its own right and needs itself to be sustained and defended In community development community action community care and community politics the tensions and contradictions within the concept are often invariably felt community is both inclusive and exclusive both organised and unstructured and both hierarchical and egalitarian The book argues that analyses of the

concept of community shows the role of ideas and ideals in shaping political actions the barriers to the realization of community in practical contexts and ultimately the untenability of the ideal itself Private Needs, Public Selves John K. Roth, 1997 Polls through the 90s show that many Americans believe the nation is in a period of spiritual decline yet public religious display and discussion often is deemed politically incorrect Philosopher John K Roth feels that more outward sharing of religious beliefs thoughts and ideas would bridge the gap between our private needs and our public selves and would give Americans of differing faiths a common identity
