Scientific Assessment and Strategy Team,1994 **Sharing the Challenge** Interagency Floodplain Management Review Committee (U.S.),1994 **Sharing the Challenge** Interagency Floodplain Management Review Committee (U.S.),1994 *Sharing the Challenge* Rutherford H. Platt,Floodplain Management Task Force. Interagency Floodplain Management Review Committee,1995 *Inland Flood Hazards* Ellen E. Wohl,2000-07-03 This edited volume was originally published in 2000 and presents a comprehensive interdisciplinary review of issues related to inland flood hazards It addresses physical controls on flooding flood processes and effects and responses to flooding from the perspective of human aquatic and riparian communities Individual chapter authors are recognized experts in their fields who draw on examples and case studies of inland flood hazards from around the world This volume is unusual among treatments of flood hazards in that it addresses how the non occurrence of floods in association with flow regulation and other human manipulation of river systems may create hazards for aquatic and riparian communities This book will be a valuable resource for everyone associated with inland flood hazards professionals in government and industry and researchers and graduate students in civil engineering geography geology hydrology hydraulics and ecology **Disasters and Democracy** Rutherford H. Platt,2012-07-16 In recent years the number of presidential declarations of major disasters has skyrocketed Such declarations make stricken areas eligible for federal emergency relief funds that greatly reduce their costs But is federalizing the costs of disasters helping to lighten the overall burden of disasters or is it making matters worse Does it remove incentives for individuals and local communities to take measures to protect themselves Are people more likely to invest in property in hazardous locations in the belief that if worse comes to worst the federal government will bail them out *Disasters and Democracy* addresses the political response to natural disasters focusing specifically on the changing role of the federal government from distant observer to immediate responder and principal financier of disaster costs
