Shattered Spectrum A Survey Of Contemporary Theology:

The Shattered Spectrum Lonnie D. Kliever, 1981 *Theology After Ricoeur* Dan R. Stiver, 2001-01-01 Dan Stiver presents the implications of Paul Ricoeur's hermeneutical philosophy for a postmodern theology by providing a comprehensive interpretation of Ricoeur and then applying Ricoeur's hermeneutical theory to biblical interpretation and theology Stiver situates Ricoeur's contributions in the Yale Chicago debate and shows how Ricoeur's textual theory provides a real alternative to George Lindbeck on the one hand and deconstruction on the other **Evangelical Theological Method** Stanley E. Porter, Steven M. Studebaker, 2018-07-10 How should one approach the task of theology This Spectrum volume brings together five evangelical theologians with distinctly different approaches to the theological task who present their own approach and respond to each of the other views Emerging from this theological conversation is an awareness of our methodological commitments and the benefits that each can bring to the theological task The Barthian Revolt in Modern Theology Gary J. Dorrien, 2000-01-01 In this history of the rise development and near demise of Karl Barth's theology Gary Dorrien carefully analyzes the making of the Barthian revolution and the reasons behind its simultaneously dominating and marginal character He discusses Barth's relationship to his predecessors and contemporaries as well as to modern theologians and argues that his approach to theology was deeply indebted to his liberal past **Pandemonium Tremendum** James E. Huchingson, 2010-02-01 James E Huchingson takes computer and information science seriously in this constructive theology Central to his reflection is an understanding of the primordial chaos Pandemonium Tremendum not as destructive but as the source out of which God creates sustains and empowers creatures to become co creators **Theology Without Boundaries** Carnegie Samuel Calian, 1992-01-01 In this book Carnegie Samuel Calian who was baptized in the Eastern tradition and raised a Protestant promotes greater dialogue and exchange among Christians of the East and West He seeks to make Christians aware of the diversity of faith and offers suggestions and insight to this end Ricoeur and Theology Dan R. Stiver, 2012-09-27 Paul Ricoeur 1913 2005 has been heralded as one of the most notable philosophers of the twentieth century Like a stone skipping across the philosophical pond he would write a major work in one field then move on to another As a consequence he is among the most interdisciplinary of philosophers whose work not only explores such areas as existentialism phenomenology hermeneutics structuralism psychoanalysis metaphor narrative and political ethics it also bridges the gulf between Continental and Anglo American philosophy Despite this diversity one can identify continuous threads running through Ricoeur's work that make him a major representative of hermeneutical philosophy developing it much further in a critical direction One of the areas to which he contributed greatly almost in passing was the philosophy of religion where he made notable contributions in the areas of symbol metaphor and epistemology Ricoeur's work has been appropriated in theology but often in an indirect way This book will help the reader grasp the breadth of a complex philosopher indicating the increasing relevance and appropriation of Ricoeur's work in

theology **Genetic Turning Points** James C. Peterson, 2001-04-09 This timely volume clearly lays out the central ethical questions raised by today's rapid advances in biotechnology James Peterson sorts through the maze of clinical decisions occasioned by human genetic intervention organizing the range of moral considerations that now face us and exploring their practical impact on individuals families and communities The ethical questions are covered in the order of how soon the particular technologies that raise them are becoming available This unique format allows readers to go directly to issues of particular interest Peterson assumes no prior knowledge of genetics or ethics making his work one of the most accessible discussions of bioethics available today A History of Christian Thought Volume III Dr. Justo L. Gonzalez, 2010-09-01 A treatment of the evolution of Christian thought from the birth of Christ to the Apostles to the early church to the great flowering of Christianity across the world The final volume begins with the towering theological leaders of the Protestant Reformation and traces the development of Christian thought through its encounter with modernity Volume 2
9781426721915 Volume 1 9781426721892 **Scripture in the Theologies of W. Pannenberg and D.G. Bloesch** Frank M. Hasel, 2004-03-01 Scripture has always played an important role in Christian theology This study provides an issue oriented overview of the concepts of Scripture in Protestant theology from the 16th century Reformation onward It then sets forth the concepts of Scripture in the theologies of two contemporary systematic theologians W Pannenberg and D G Bloesch It analyzes compares and evaluates the theological and anthropological presuppositions that have influenced their concept of Scripture Despite fundamentally different starting points and other significant distinctions Pannenberg and Bloesch reveal surprising similarities This seems to suggest that for both the concept of Scripture is determined ultimately by presuppositions that are derived and shaped extra scripturam
