Shedding The Veil:

Shedding The Veil: Mapping The European Discovery Of America And The World Thomas Suarez, 1994-04-29 Shedding the Veil is a highly original overview of Europe's exploration and discovery beyond her own confines. It tackles the subject via an analysis of maps dating from circa 1434 to 1865 with an emphasis on the period before 1600. The book begins with an appraisal of the peculiar circumstances which led late medieval Europe to pursue long distance travel both overland and by sea, introduces cosmographic traditions inherited from classical times and investigates pre-Columbian excursions into the western ocean. Finally, the great voyages and mappamundi of the early sixteenth century are described in depth. After 1600, the focus begins to narrow to North America and particularly to the colonization of the American Northeast. All maps discussed in detail are illustrated. 40 full page b/w plates, 25 full page color plates. [Shedding the veil: mapping the European discovery of America and the world](#) Thomas Suarez, 1992

New Feminist Discourses Isobel Armstrong, 2012-09-10 This collection of new feminist essays represents the work of young critics researching and teaching in British Universities. Aiming to set the agenda for feminist criticism in the nineties, the essays debate themes crucial to the development of feminist thought: among them, the problems of gendered knowledge and the implications of accounts of gendered language, cultural restraints on the representation of sexuality, women's agency, cultural and political change, a feminist aesthetics, and new readings of race and class. This variety is given coherence by a unity of aim: to forge new feminist discourses by addressing conceptual and cultural questions central to problems of gender and sexual difference. The topics of discussion range from matrilinear thought to seventeenth-century prophecy, the poetry of Amelia Lanyer to Julia Margaret Cameron's photographs, from Dorothy Richardson and Virginia Woolf to eighteenth-century colonial painting of the South Pacific, from medieval romance to feminist epistemology. The essays utilise and question the disciplines of literary criticism, art history, photography, psychoanalysis, Marxist history, and post-structuralist theory. [What Is Veiling?](#) Sahar Amer, 2014-09-02 Ranging from simple headscarf to full-body burqa, the veil is worn by vast numbers of Muslim women around the world. What Is Veiling explains one of the most visible, controversial, and least understood emblems of Islam. Sahar Amer's evenhanded approach is anchored in sharp cultural insight and rich historical context. Addressing the significance of veiling in the religious, cultural, political, and social lives of Muslims past and present, she examines the complex roles the practice has played in history, religion, conservative and progressive perspectives, politics, and regionalism, society, and economics, feminism, fashion, and art. By highlighting the multiple meanings of veiling, the book decisively shows that the realities of the practice cannot be homogenized or oversimplified and extend well beyond the religious and political accounts that are overwhelmingly proclaimed both inside and outside Muslim majority societies. Neither defending nor criticizing the practice, What Is Veiling clarifies the voices of Muslim women who struggle to be heard and who veiled or not demand the right to live spiritual, personal, and public lives in dignity. *Routledge Library Editions: Women, Feminism and Literature* Isobel

tribes of Mali have a tradition that their forefathers had sailed on a great ship that flew down from Sirius the star but what is interesting is that they don't wear spacesuit like gear and celebrate their home coming once every fifty two years which is when Sirius comes in direct alignment with our world **Still Crazy After All These Years** Rachel Bowlby, 2003-09-02 One of feminism's most dynamic critics brings together psychoanalysis, critical theory and cultural studies to look at how texts construct possibilities and limits for thinking what a woman is and where women might be going **The Story of Narrative Preaching** Mike Graves, 2015-03-02 Forty years ago the one thing that could be said about sermons was they were biblical. Unfortunately they were sometimes tedious too. Narrative preaching aimed to fix that by advocating for a dynamic experience of the text over against a static lecture. Preaching could be like the parables of Jesus, intriguing and compelling. The Story of Narrative Preaching is the story of seven students who are enrolled in Professor Freeman's preaching course. Once a new trend, narrative preaching is now older than most of them. As Professor Freeman notes, two things went wrong with narrative styles over time: the church became biblically and theologically illiterate and the promised stress on experience didn't always measure up to the weight of the gospel. Readers are invited to sit in on the class to reflect on the expositional nature of preaching and to experience the stories of some modern storytellers: Flannery O'Connor, Alice Walker and others to see what they might teach us about narratives of depth. In the end we discover what may be the most important word in preaching.
