Examines how Aristotle posits political philosophy and the experience of friendship as a means to bind strictly intellectual virtue with morality In this book Ann Ward explores Aristotle's Nicomachean Ethics focusing on the progressive structure of the argument Aristotle begins by giving an account of moral virtue from the perspective of the moral agent only to find that the account itself highlights fundamental tensions within the virtues that push the moral agent into the realm of intellectual virtue However the existence of an intellectual realm separate from the moral realm can lead to lack of self restraint Aristotle Ward argues locates political philosophy and the experience of friendship as possible solutions to the problem of lack of self restraint since political philosophy thinks about the human things in a universal way and friendship grounds the pursuit of the good which is happiness understood as contemplation Ward concludes that Aristotle's philosophy of friendship points to the embodied intellect of timocratic friends and mothers in their activity of mothering as engaging in the highest form of contemplation and thus living the happiest life **Philosophy Goes to the Movies** Christopher Falzon,2014-07-31
