The Asian Connection Glenn Carley,2002-12-18 It was like nothing that had been seen before The world had become used to weapons of all descriptions being used in the fight for ultimate power But this time a real maniac was on the loose and he was using more modern equipment as he climbed the ladder on his way to becoming the only world leader Technology had provided him the tool he needed to amass large sums of money which would buy him anything or anyone he wanted Nothing escaped his reach thanks to computers Law enforcement agencies around the globe weren t moving fast enough to shut down the operation And the media didn t help treating each tragedy as an individual story encouraging one disaster after another only to highlight the victories without making any connection allowing him to celebrate his new found power As Ryan Drogen sifts through the evidence before him he uncovers more than just the identity of the world s latest power maniac He also finds himself fighting the enemy within his own ranks And when his search takes him to Asia not once but three times he discovers a very dangerous connection a connection which he has to break before it is too late Astrology & Relationships David Pond,2001 Most of what is published about astrological relationships covers the same ground We ve all read that Libra gets along well with Leo Aries is bound to clash with Capricorn Pisces and Scorpio are natural lovers and so on It all sounds like a pretty well worn formula but there s one problem people are not that simple and neither are relationships Astrology Relationships takes a much more satisfying path showing how astrology can help you improve all of your relationships It addresses the complexities of real relationships by revealing the essential nature needs strengths and challenges of every combination Then it takes the unique step of offering exercises that will help you manifest the true potential that exists between each of the signs This book emerged from actual experiences between a practicing professional astrologer and the thousands of people he has worked with The ideas and exercises included within have been tried tested and refined so that they can be integrated into daily living The program presented in this book has been proven to work not just in theory but in real life *Enos* George Forss,2007-08-31 Enos is a biblical character Enos is the grandson of Adam In different bibles this name is spelled Enos Enoch and Enosh It is said that Enos was the first human being to reach up to the heavens to pray to God for guidance Enos as far as science is concerned would be the first early on human being that paused

one day suddenly to speak to God in the sky This is so because somewhere in our past there would have to be a first person to do something like this My book ENOS is my own prayerful quest to know the whole truth about humanity at long last I do have it here I believe I do because I asked for some guidance from God as did Enos I started writing my book in 1983 and it is based on a stark experience I had when I encountered some amazing wisdom in 1969 This experience made me want to know more about God in life My quest is based on a book I read that a young woman named Buffy put together in 1969 which had the wisest words I have ever encountered Buffy had what she called a report She had a report that claimed to contain the real truth about humanity in the universe My book Enos is a similar phenomenal report about humanity and much more My book is much the same as Buffys report because it is a recreation of what I saw in her report that indeed some Aliens did come to the earth in 1969 to create a new bible for our world There is a conversation that goes on for about 400 pages of my writing In this way a new body of wisdom is born My writing is about 700 pages in total My book is not about my view of the universe revealing Gods might to us My book is more like a prayerful quest because I am asking God in the universe for answers I know that I have the same basic wisdom contained in Buffys book My writing contains hundreds of new finding sentences We know these as long standing wise sayings like He Who Lives by the Sword Will Die by the Sword A few years after I met Buffy from the day when she told me that some wise Aliens had abducted her and her friends I ran into Buffy again When I questioned her she said her report from those days was junk She said You know how we were in those days George Her report wasnt junk to me and I had to have it back Buffy didnt even know where her original report book was On this very occasion I made a vow to God and I started getting finding sentences immediately These are transcribed all throughout my writing God always wins In ENOS we learn that humanity is a part of God and part of some advanced Alien life form intelligence that came to the earth about 200 000 years ago I am talking about the giants we read about in our basic Christian Bible in Genesis This situation of a foreign intelligence cannot last long and when it is over only a Godly being will remain that suits this earth perfectly for a very long time This foreign intelligence is humanity Enos is about God in the universe Enos teaches us how to live freely for a million years Enos is a new American style mindset American lingo about the wisdom that all natural creatures have known through the eons The Aliens themselves in Enos are an amazing perfectly natural life form that has survived a long time in evolution to become who they are now who they want to be My book has to be known as a religion This bold statement goes along with the process by which I have been able to write this book out at all Enos is also an overly long diatribe of rhetorical writing that many will not like and some will be completely enthralled by It can also be looked upon as being a book of poetry Enos has about 50 poems in it a few long poems and many short ones and many passages that are poetic like The Aliens in my report say that this entire writing is a prolonged po *Pluto and Other Dwarf Planets* Ruth Owen,2013-07-15 The distinction between planets and dwarf planets is explored in this fascinating volume It discusses the most recent scientific discoveries along with the mysteries and questions they raise Amazing
