The Oxford Handbook of Job Loss and Job Search Ute-Christine Klehe, Edwin A. J. van Hooft, 2018 Combining current knowledge from psychology sociology labor studies and economics The Oxford Handbook of Job Loss and Job Search presents one of the first comprehensive overviews of the knowledge and research on job loss and job search It provides readers with suggestions for

further research and offers hands on practical advice The Oxford Handbook of Job Loss and Job Search Ute-Christine Klehe PhD, Edwin van Hooft PhD, 2018-05-08 Job search is and always has been an integral part of people's working lives. Whether one is brand new to the labor market or considered a mature experienced worker, job seekers are regularly met with new challenges in a variety of organizational settings. Edited by Ute Christine Klehe and Edwin A J van Hooft, The Oxford Handbook of Job Loss and Job Search provides readers with one of the first comprehensive overviews of the latest research and empirical knowledge in the areas of job loss and job search. Multidisciplinary in nature, Klehe, van Hooft, and their contributing authors offer fascinating insight into the diverse theoretical and methodological perspectives from which job loss and job search have been studied, such as psychology, sociology, labor studies, and economics. Discussing the antecedents and consequences of job loss, as well as outside circumstances that may necessitate a more rigorous job hunt, this Handbook presents in depth and up to date knowledge on the methods and processes of this important time in one's life. Further, it examines the unique circumstances faced by different populations during their job search, such as those working job to job, the unemployed, mature job seekers, international job seekers, and temporary employed workers. Job loss and unemployment are among the worst stressors individuals can encounter during their lifetimes. As a result, this Handbook concludes with a discussion of the various types of interventions developed to aid the unemployed. Further, it offers readers important insights and identifies best practices for both scholars and practitioners working in the areas of job loss, unemployment, career transitions, outplacement, and job search.

The holistic approach taken by internationally acclaimed lecturer and author Brian Luke Seaward gently guides the reader to greater levels of mental, emotional, physical, and spiritual well being by emphasizing the importance of the mind-body-spirit connection.

Tackling the Global Jobs Crisis International Labour Office, 2009 In this report, the Director General discusses his main concerns about the current global crisis and what should be done about it. Millions of men, business bankruptcies continue to grow exponentially, unemployment is expected to continue to rise probably until 2011, meanwhile 45 million people will enter the labour market in 2009 and following years looking for their first job. The IMF forecasts some recovery in global growth but this is conditional on the success of stimulus packages. Evidence of past crises indicates that even after economic growth returns, employment only recovers to pre crisis level with a lag of four to five years. And there was already a significant work deficit before the crisis. Knock on effects such as the increase in

demand for social protection when jobs are not available can also be seen Ultimately on a broader level prolonged crises carry major risks for social and political stability

Applying the Person-Centred Approach to Global, Social and Personal Crises Mairi McMenamin, Kate Munro, 2025-09-12 Against the backdrop of current debates in society about mental health and responses to crises this edited volume examines the person centred approach PCA as a vital framework for addressing contemporary mental health challenges and promoting psychosocial resilience across diverse cultural contexts This book tackles a range of themes and topics that reflect challenging contemporary global social and personal issues such as war and conflict social care grief and loss artificial intelligence and neurodiversity Chapters explore the universal issues that face the person centred experiential and humanistic counselling communities in our current times as well as the barriers to addressing these issues and the models of good innovative practice that have sought to tackle them This book demonstrates how non directivity proves to be crucial for affecting meaningful change for the self Presenting first hand practitioner experience and guidance this book will be of significant value amidst current dialogue and debate on the value of the PCA when working with people and organisations in times of crises Focusing on the wider application of the PCA beyond the therapy room and the response it offers to current societal challenges this book will be essential reading for person centred practitioners counselling researchers and policymakers interested in crises conflicts and social changes
