ago An eminently readable history of the city's physical development the book also makes an eloquent appeal for its preservation Jane Holtz Kay traces the evolution of Boston from the barren swampy peninsula of colonial times to the booming metropolis of today In the process she creates a family album for the city infusing the text with the flavor and energy that makes Boston distinct Amid the grand landmarks she finds the telling details of city life the neon signs bygone amusement parks storefronts and windows plastered with images of campaigning politicians sights common in their time but even more meaningful in their absence today Kay also brings to life the people who created Boston architects like Charles Bulfinch and H H Richardson landscape architect and master park maker Frederick Law Olmsted and such colorful political figures as Mayors John Honey Fitz Fitzgerald and James Michael Curley The new epilogue brings Boston's story to the end of the twentieth century showing elements of the city's architecture that were lost in recent years as well as those that were saved and others threatened as the city continues to evolve

Architecture in the United States, 1800-1850 William Barksdale Maynard, 2002-01-01 This study traces the development of American architecture from the age of Jefferson to the antebellum era providing a survey of this important period W Barksdale Maynard overturns the long accepted notions that the chief theme of early 19th century American architecture was a patriotic desire to escape from European influence and that competing styles chiefly reflected the American struggle for cultural uniqueness Instead deep and consistent aesthetic ties especially with England shaped American architecture and house designs Maynard shows that the Greek Revival in particular was an international phenomenon with American achievements inspired by British example and with taste taking precedence over patriotism

Colonial Revival Maine Kevin Murphy, 2004-05 Colonial Revival Maine provides an account of how this interest in the classical influences of colonial and federal era buildings engaged the imagination of a group of architects and their draftsmen in the late nineteenth century Together these designers created the charming streetscapes and bucolic retreats that today dot the Maine coast
