The Lost Keys to Success and Happiness, *The Lost Key* Prentiss Tucker, 1999-10 Symbols play a big part in our lives but we often miss their full meaning A book for Freemasons and explains the meaning of their symbols Masons are members of a longstanding fraternal order that functions as a mystical brotherhood A number of rituals are performed as one progresses up the ranks usually in the form of an initiation Often times Masons may not fully understand the true purpose of the initiation This book covers the symbols found within the first three degrees of Freemasonry making it an excellent guidebook for the beginning Mason and offers a more complete understanding for those who oversee their

rituals      **The Lost Keys of Freemasonry** Manly P. Hall, 2009-09-22 A high ranking Mason offers a fascinating glimpse into the Western world's most secretive society. Hall traces the path followed by initiates to the ancient craft. He also recounts the ethical training required of a Freemason and profiles the character traits a Mason must build within himself.      The Lost Keys Of Freemasonry (The Sacred Books) Manly P. Hall, 2012 Freemasonry though not a religion is essentially religious. Most of its legends and allegories are of a sacred nature; much of it is woven into the structure of Christianity. We have learned to consider our own religion as the only inspired one, and this probably accounts for much of the misunderstanding in the world today concerning the place occupied by Freemasonry in the spiritual ethics of our race. A religion is a divinely inspired code of morals. A religious person is one inspired to nobler living by this code. He is identified by the code which is his source of illumination. Thus we may say that a Christian is one who receives his spiritual ideals of right and wrong from the message of the Christ, while a Buddhist is one who molds his life into the archetype of morality given by the great Gautama or one of the other Buddhas. All doctrines which seek to unfold and preserve that invisible spark in man named Spirit are said to be spiritual. Those which ignore this invisible element and concentrate entirely upon the visible are said to be material. There is in religion a wonderful point of balance where the materialist and spiritist meet on the plane of logic and reason.

*The Lost Key* Ebrahim Soufiani, 2012 Dr. Soufiani, founder and director of a civil engineering firm in London, is a London University PhD qualified and practising civil and environment engineer. He was researcher at University of London, research assistant at University of East London, and lecturer at Iran University of Science Technology. Soufiani's passion about Persian literature has steered him to over ten years of extensive research with a great Persian philosopher, Manuchehr Jamali. Jamali has managed to open up many incredible doors to him in comprehending Persian literature to its true meaning of values, love, unity, and dignity. Soufiani's understanding of Eastern and Western cultures has given him a great leverage in his exploration of Persian literature in comparison with Western civilization and the lack of democracy in the Middle East. With this book, he highlights Persian literature as an invaluable asset and the lost key in opening the lock of the declining morality in our modern world and the absence of democracy in the Middle East. The world must sincerely assist in exploration of this nation's literature for the sake of morality. The Middle East must explore and use her own invaluable potential rich literature to rise and fly from her own ashes to establish the ethical society that will give them the tools for building and establishing the foundation of a democratic system. Many Persian poems have been translated throughout this book to highlight the core values of beautiful Persian romantic and humanistic culture.

holding a dagger to the candidates naked breast and making the candidate attend his own funeral In the secret teachings revealed to some high level initiates there is a type of instruction which seems curiously similar to religious and mystical teachings Astrology angels chakras and the powers of the mind to operate independently of the body such as in remote viewing are all a part of Freemasonic lore Robert Lomas is both a physicist he teaches physics at Bradford University and a Freemason Here he reveals to a wider public and also explains these secret teachings for the first time He shows that while they are dismissed as superstitious by campaigners for atheism such as Richard Dawkins they are very much part of the strange paradoxical world opened up by the latest thinking in quantum physics This is why he prefers to call them Supranatural
