Isles of Amnesia Mark J. Rauzon, 2016-01-31 For over a quarter century biologist Mark J. Rauzon worked in the field of island restoration, traveling throughout the American Insular Pacific to eradicate invasive plants and animals introduced by humans. The region spans from Hawaii to Samoa to Guam and their neighbors, small, obscure tropical islands that are hundreds if not thousands of nautical miles from each other. These little-known US possessions and territories include various islands and atolls: Jarvis, Howland, Baker, the Northern Marianas, Wake, Palmyra, Johnston, and Rose Atoll, among others. They anchor a vast National Marine Monument program created in 2009 and expanded in 2014 to protect the largest area in the world from exploitation. In *Isles of Amnesia*, Rauzon chronicles the ecological and human history of these islands, enlivened with his first-hand experiences of eradication efforts to restore atoll ecosystems and maximize native biodiversity. Each chapter focuses on an individual island or island group, revealing how each location has its own particular story, secret past, or ecological lesson to be shared. Taken as a whole, the region has played a unique role in American history, with the remoteness of the islands having served the needs of whalers and guano miners in the 1800s and, in later years, that of military secret projects: missile launching, chemical weapon incinerations, and air bases. Rauzon further explores the creation of the National Marine Monuments and what their protection means to a changing ocean, and presents original research about the US military's Pacific Project and germ warfare testing. Illustrated with over seventy historical photographs and original drawings, this much-needed work tells the fascinating story of America's forgotten Pacific islands. **North Carolina, 2000**, 2003

background for Alili's repertoire while she details the richness and variety of poetic forms that had developed in North Africa. In doing so she shows an intimate grasp of the poet's repertoire and technique as well as of the colonial and postcolonial implications of Algerian folklore and poetry. In their citation for the AUC Middle East Studies Award the judges noted: "The Graying of the Raven's insightful perspective on Algerian society and the experience of colonization as perceived by the individual folk poet."

The definitive biography of America's best known naval officer who commanded the legendary fast carrier force during WWII. From the tragic aftermath of Pearl Harbor when he fashioned America's first response to the attack to the war's final day in Tokyo Bay when he witnessed Japan's surrender, Admiral William F. Halsey stamped a mighty imprint on the Pacific during World War II. He led or participated significantly in the Navy's first offensive strikes against the Marshall Islands and Wake Island, the Guadalcanal campaign, and the offensive toward Japan. As a commander, he never shied from engaging the enemy but boldly entered into battle ready for a fight. As a consequence, Halsey became the face of the Navy and its most attractive public relations phenomenon. Due to his bold tactics and quotable wit, Halsey continues to be a beloved and debated figure. In this balanced biography, historian John Wukovits illuminates the life of a man who ultimately deserves recognition as one of the great naval commanders in U.S. history. Europe had Patton, the Pacific had Admiral William "Bull" Halsey.
