Stylistic and Narrative Structures in the Middle English Romances Susan Wittig, 2014-08-27 This volume provides a generic description based on a formal analysis of narrative structures of the Middle English noncyclic verse romances As a group these poems have long resisted generic definition and are traditionally considered to be a conglomerate of unrelated tales held together in a historical matrix of similar themes and characters As single narratives they are thought of as random collections of events loosely structured in chronological succession Susan Wittig however offers evidence that the romances are carefully ordered although not always consciously so according to a series of formulaic patterns and that their structures serve as vehicles for certain essential cultural patterns and are important to the preservation of some community held beliefs The analysis begins on a stylistic level and the same theoretical principles applied to the linguistic formulas of the poems also serve as a model

for the study of narrative structures The author finds that there are laws that govern the creation selection and arrangement of narrative materials in the romance genre and that act to restrict innovation and control the narrative form The reasons for this strict control are to be found in the functional relationship of the genre to the culture that produced it The deep structure of the romance is viewed as a problem solving pattern that enables the community to mediate important contradictions within its social economic and mythic structures Wittig speculates that these contradictions may lie in the social structures of kinship and marriage and that they have been restructured in the narratives in a practical myth the concept of power gained through the marriage alliance and the reconciliation of the contradictory notions of marriage for power s sake and marriage for love s sake This advanced thorough and completely original study will be valuable to medieval specialists classicists linguists folklorists and Biblical scholars working in oral formulaic narrative structure Love and War in the Middle English Romances, by Margaret Adlum Gist Margaret Adlum Gist,1947

Chaucer's Approach to Gender in the Canterbury Tales Anne Laskaya,1995 This volume presents a feminist approach to the Canterbury Tales investigating the ways in which the tensions and contradictions found within the broad contours of medieval gender discourse write themselves into Chaucer s text Four discourses of medieval masculinity are examined which simultaneously reinforce and resist one another heroic or chivalric Christian courtly love and emerging humanist models Each chapter attempts to negotiate both contemporary assumptions of gender construction and essentialist readings of gender common to the middle ages throughout the author argues that the Canterbury Tales offer a sophisticated discussion of masculinity and that it strongly indicts some of the prevalent medieval notions of ideal masculinity while still remaining firmly homosocial and homophobic The book concludes that on the question of gender issues the Tales are best studied as male authored texts containing representations and negotiations revealing much about late medieval masculinities Dr ANNE LASKAYA teaches in the English Department at the University of Oregon

Love and anti-Judaism in medieval English romance Hope Doherty-Harrison,2025-09-02 Love and anti Judaism is a new examination of medieval romance for the questions it poses of the most significant events in Christian history Providing new readings of Sir Gawain and the Green Knight Sir Orfeo Sir Gowther and Sir Amadace the book argues that romance explores depictions of love and the sacrifices it may necessitate in the Hebrew Bible especially where they do not easily fit into interpretations asserting that this history must prefigure Christ and the crucifixion An examination of anti Judaism as a discourse of violence and desire that could be turned inwardly to expose the irresolution in Christianity this book will provoke new investigations into the
